# ANNUAL REPORT

## of the Selectmen, Assessors and Overseers of the Poor

---

**January 1 to December 31, 1973**

The Town of Sanford has left another year to history. The year 1973 has seen the completion of a new Comprehensive Plan for the Town as a whole and a complete revaluation of all taxable property.

The Comprehensive Plan is now being used to update the zoning ordinance to fit the needs and conditions of today. The full revaluation, the first in over ten years, nearly doubled the valuation for tax purposes as based on today's dollar.

The growth of Sanford was small overall and mostly visible in new residential building in both single and multiple units. We are looking forward in 1974 to some balancing of this as we expend, for the first time, some tax dollars to attract industry by building roads and other utilities in the Sanford Industrial Park.

A full study is now underway on the airport, its value and future use, which will result in a comprehensive airport plan and enable us to get fullest possible value from this asset.

The biggest news to hit Sanford in 1973 was the possibility of a huge oil refinery being built here. As this is written, the preliminary plans are still going positively ahead. There are many obstacles to be overcome but we feel that these will be successfully handled and that Sanford can look forward to prosperous years ahead.

Sanford's biggest problem for 1974 will be to live up to new standards for environmental protection, particularly disposition of solid waste. A special committee has been named to cope with this.

With a look to future and present planning, a conservation commission has been created. Other committees working or to be formed are those for ambulance service study and overall town government survey.

We, as Selectmen, intend to give forward-looking leadership and with the help of a hard-working group of employees and the assistance of many various unpaid boards and committees to have a good year in 1974.

Respectfully Submitted,

PAUL L. GARVIN

NORMAN S. HALL

EMILE D. COTE

Selectmen of Sanford

February 11, 1974

## PROTECTION OF PERSONS AND PROPERTY

### SANFORD FIRE DEPARTMENT

---

January 1, 1974

To the Municipal Officers of the Town of Sanford:

The Sanford Fire Department consisting of two stations (one located in Sanford and one in Springvale) is maintained by the following personnel: 1 chief, 27 permanent men and 66 call men. Of the 27 permanent men, 6 are captains and 3 are lieutenants. Of the 66 call men, 4 are assistant chiefs, 7 are captains and 6 are lieutenants. The permanent firefighters work a fifty (50) hour work week which maintains both the Sanford and Springvale stations.

#### Training:

Firefighter training is conducted on a voluntary basis through the efforts and interest of the officers and men. The following training classes were held: 2 15-hour classes in Breathing Apparatus under the State Board of Education Program with 24 men receiving certificates; a 15-hour class on a basic pump school with 13 men receiving certificates; a 2-day Seminar was held in Sanford at the Sanford High School. There was a choice of 8 categories to choose from: Ventilation and Forcible Entry, Fire Department Support of Sprinkler Systems, Radio Communications, Cardiopulmonary Resuscitation and Airway Management, Size-up and Initial Fire Attack, Firefighters Responsibility in Arson Detection and Rural Pre-Fire Planning. This was the second such seminar in York County. In the future, two similar seminars a year are planned for the area. As a result of this school, 44 certificates were issued to men in the Sanford Fire Department.

#### Equipment and Apparatus

Presently, the Sanford Fire Department has the following apparatus:

- 2 pieces of aerial equipment
  - 1 100' ladder truck—1972
  - 1 70' aerial platform—1963
- 4 front line pumpers
  - 2 500 gal. per minute pumps—1943 and 1964
  - 2 750 gal. per minute pumps—1951 and 1962
- 2 500 gal. per minute reserve pumpers—1935 and 1948
- 3 all-wheel drive brush trucks—1941, 1941 and 1954
- 1 all-wheel drive permanently housed in the Springvale Station owned by the State of Maine
- 2 Jeeps—1947 and 1951
- 2 14' boats with trailers
- 1 Chief's Car—1970

---

## PROTECTION OF PERSONS AND PROPERTY

Most of the maintenance repair work is done at the Station by the mechanic, keeping costs at a minimum.

### Fire Prevention

The Fire Prevention Officer has lectured and demonstrated to over 50 different civic, school and church groups on the hazards and prevention of fire.

The Fire Department requires a written permit on all outside fires. 582 such permits were granted in 1973. This enables us to know exactly the areas where such controlled burning is located, cutting down on many calls.

### Ambulance

The ambulance responded to 686 emergency calls with 6,827.9 miles traveled. In addition to this, 47 calls were made with no patient pick-up, including 12 false alarm calls.

### Ladies' Auxiliary

The Ladies' Auxiliary has been very active and helpful at both stations during 1973.

We wish to express our appreciation for the help and cooperation that we have received from all of the other departments of the Town of Sanford and the many people who have assisted us during the year 1973.

Respectfully submitted,

GEORGE E. DRISCOLL

Chief, Sanford Fire Department

**PROTECTION OF PERSONS AND PROPERTY****REPORT OF THE CLERK OF  
SANFORD FIRE DEPARTMENT**

---

January 1, 1974

To the Municipal Officers of the Town of Sanford, I hereby submit the following report for the year 1973.

The Sanford Fire Department, Sanford Station, responded to 288 calls:

44 Bell Alarms  
21 Working  
22 False  
1 Search Party

244 Still Alarms  
209 Working  
16 Cover Springvale Station  
6 Mutual Aid  
13 False

6 Drills

Total feet of hose laid .....24,735 ft.  
Total feet of ladder raised ..... 2,426 ft.  
Total Miles apparatus traveled ..... 1,825.7 mi.

Respectfully submitted,

DONALD R. TURNER, JR.

Clerk, Sanford Fire Department

Sanford Station

**PROTECTION OF PERSONS AND PROPERTY****REPORT OF THE CLERK****SPRINGVALE FIRE STATION**

January 1, 1974

In-Service Training Courses attended by the Officers:

FBI/NA Critique	Homicide Investigation
	Firearms
	Arson Investigation
	ACC Prevention
	Defensive Driving
	The New Laws
	Organized Crime

A total of 16 hours.

### Library

The Department Library continued to maintain their library by adding new books and subscriptions pertaining to Law Enforcement practices for the training of officers.

### Specialized Firearm Training

During the months of January and March, officers competed in the New England Police Revolver League Postal Matches. In the January match, nineteen members competed winning 2nd, 4th & 6th place in the Advanced Combat Course; 1st, 2nd, 3rd & 4th place for the Basic Course; and 5th place for the Gallery C Course. In the March match, twenty members competed winning 2nd, 3rd & 4th place in the Advanced Combat Course; 1st, 2nd, 3rd and 4th place for the Basic Course; and 4th place for the Gallery C Course.

In August, four officers competed in the New England Police Revolver League's Outdoor Pistol Match held at the Angle Tree Stone Rod & Gun Club in North Attleboro, Mass. Although no awards were won, all four officers placed high in the competition.

During the months of August, September and October, qualifying rounds were held for all members of the department. The FBI Practical Pistol Course of fire is the Sanford Police Department's required course of fire for all personnel, with a minimum score of 70 for qualification. Three officers qualified for master, four officers qualified for expert, nine officers qualified for sharpshooter, and fifteen officers qualified as marksmen. The master class was added this year—qualification is 95.0 and above.

## **PROTECTION OF PERSONS AND PROPERTY**

In September four (4) officers attended the Law Enforcement Association of Maine's Annual State Pistol Match in Warren, Maine. One officer placed first in the sharpshooter class, and one officer placed third in the sharpshooter class. Although he did not receive an award, one officer went from expert class to the master class, the highest class in the competition.

In June, two in-service firearms training classes were held for nineteen officers of the Sanford Police Department, three Ogunquit officers, four Berwick officers, and one South Berwick officer. The training sessions included Officer Killed Summaries, Department Policies, Nbr 26 & 37, Firearm Safety Regulations, Weapon Nomenclature, Courses of Fire, and to Shoot or Not To Shoot Situations.

In April, the Sanford Police Department put on a firearms demonstration at the department's firing range, approximately thirty Indian Guides and their fathers attended. The courses of fire included a modified PPC Course, 100 yard line .357 caliber ammo demonstration, a shotgun course utilizing 5 bobber targets, a second shotgun course showing destructive power of buckshot, a 35 mm gas gun demonstration, and a smoke grenade demonstration.

During the year we molded and reloaded 7,500 of .33 cal. spl. ammunition, 300 rounds of .357 cal. ammunition, and 300 rounds of shot-shell ammunition. All of the above rounds were expended in practice and competition qualifications. In addition to the above rounds, 1000 rounds of new match .38 cal. spl. ammunition was expended in match competition only. Also 16,000 rounds of .22 cal. long ammunition was expended for the New England Police Revolver League's Postal matches.

### **Public Relations and Safety Education**

As requested, members of the department filled speaking engagements for many groups throughout the year.

Officers visited 10 Public/Parochial Schools in the Sanford area. A record number of 1,820 elementary school children heard talks and saw films concerning pedestrians and bike safety. The programs normally run 45 minutes and consist of films and talks. An unaccountable number of safety lectures materials were handed out to the children.

Certificates were given to approximately 125 school children of the safety patrol, who are doing a great job under the direction of Mr. Kimball.

Belts and badges were given to the safety children for the purpose of replacing old ones and for new safety patrol members.

## PROTECTION OF PERSONS AND PROPERTY

AAA furnishes all safety material for the children.

Tours of the police station were given by the officers of the department. Approximately 94 school children toured the station.

Lt. Norman Paul visited all the schools for the purpose of explaining the new way of filling out the bicycle forms.

Films were loaned out to the elementary school in Alfred for their safety program.

An officer gave talks on various subjects of police work in the department to the Elementary and High School students. Approximately 9hrs.

In 1973, approximately 2,431 bicycles were registered. The bikes received an inspection by police officers during registration. This is a very successful program with the youth.

The Sanford Police Department considers 1973 a successful year concerning the safety and bicycle programs.

During the year 1973, 50 bicycles were stolen and 29 were recovered.

### Service and Maintenance

222 traffic signs and 213 sign posts were installed new and on a replacement basis by the sign maintenance section of the department. A total of 163 manhours was devoted to making up the signs and installing during the year.

All equipment during the year was maintained and kept in good shape due to the efforts of all members.

The department underwent a much needed paint job during the year 1973. Members of the department spent off-duty hours painting the interior walls and keeping the cramped quarters in the station well maintained.

The traffic markings on Sanford and Springvale streets were also done by members of the department during the year.

Traffic Violations	Nbr. of Convictions
Failure to produce license .....	4
Stop Sign .....	99

### Conclusion of Criminal Activity for 1973

Total Offenses Known to Police	
(Criminal Only) .....	1072
Total Offenses Solved by arrest or other means .....	472
Total Offenses still under investigation unsolved .....	600
Unfounded Reports .....	19
Incidents Other Than Criminal Reported .....	282

Of the total number of offenses known to police in 1973, (1,072) 472 were cleared by arrest or by other means. 19 were unfounded reports. This represented that of the total number of offenses known to police, 44.8% were solved.

I wish to thank many for the assistance and cooperation received from all departments within the Town during this year 1973.

Your interest, assistance and cooperation in the past year is deeply appreciated and sincerely desired for the future.

Respectfully submitted,

JOHN C. PRIDE

Chief of Police

Sanford Police Department

**PROTECTION OF PERSONS AND PROPERTY****REPORT OF THE BUILDING INSPECTOR**

The number of building permits obtained in this past year indicates that the Town of Sanford is continually progressing, despite the high cost of construction.

The growth, in my opinion, is greatly diversified with many businesses showing interest by locating in Sanford, and others expanding.

This trend should be very encouraging to the people of Sanford.

The citizens of Sanford should be made aware that the 106th Legislature passed a law effective October 3rd, 1973 that all municipalities shall be responsible for enforcing the State Plumbing Code. This of course creates much more responsibility to the Administration and to this department.

With the help and cooperation of each and every one, we should be able to maintain our pride in being a citizen of this community and at this time I would like to express my appreciation to each individual that I have been associated with, especially to Mr. Forrest Pillsbury, who has retired after several years of true devotion in his duty.

Respectfully,

**RAYMOND J. CARON**

**Building, Housing &**

**Plumbing Inspector**

**PROTECTION OF PERSONS AND PROPERTY****REPORT OF THE WIRE INSPECTOR**

**FROM:** Donald H. Gagne, 1973 Wire Inspector  
**TO:** Board of Selectmen  
**SUBJECT:** Annual Town Report on Town owned property and buildings, in regards to the electrical wiring and electrical apparatus.

The below buildings were checked and inspected and to the best of my knowledge the following discrepancies were found.

1. **American Legion Home**—Wall cases afloat, loose wiring.
2. **Field Service House**—Good Condition.
3. **Band Stand**—Satisfactory Condition.
4. **Joseph Carpentier Field House**—Broken glass fixtures outside. Loose Telephone wire.
5. **Sanford Memorial Gymnasium**—Wiring on stage and lighting dimmer very dangerous for fire, not properly installed.
6. **New Town Farm**—Good condition.
7. **Junior High School**—Boiler Room heater control to be wired permanently.
8. **Old Vocational School**—Tool Room light fed by extension, intercom wire should be in raceway.
9. **New Sanford Incinerator**—New installation was not done according to code and should be changed and modified to specifications.
10. **Springvale Town Hall**—Open wiring on service entrance. Oversize fuses.
11. **Springvale Fire Station**—Extension cords being used. Extension cord wrapped around conduit. Also 30 amp. fuses in upstairs panel.
12. **Lincoln School**—Low voltage wire in Boiler Room loose. 300 watt bulb being used without shield.
13. **Hamlin School**—No longer in use.
14. **Sanford Town Hall**—Extension cord used all over the building. 30 amp. fuse being used throughout the build-

## PROTECTION OF PERSONS AND PROPERTY

ding. Ext. cord wrapped around pipes. Wiring exposed at least six places throughout building. Low voltage wires and service wiring afloat and loose. Low voltage wiring and reg. wiring covers missing afloat. Bare wires all over building. This building is in bad need of electrical repairs.

15. **Sanford Fire Station**—Good condition.
16. **Town Farm Dwelling and Wood Shed**—Discontinued.  
Barn—  
Tool Shed—  
Chicken House—
17. **Edison School**—Good condition.
18. **Roosevelt School**—Extension being used in classrooms. Also undersized wire being used in range receptical.
19. **Longfellow School**—Torn down.
20. **Emerson School**—Good Condition.
21. **Middle School**—South side feeder panel overloaded.
22. **New Sanford High School**—Good condition.
23. **Lafayette School**—30 amp. fuses in panel, extension cord being used. Low voltage wiring loose and afloat.
24. **Hawthorne School**—No longer in use.
25. **Town Garage**—Good condition.
26. **Cemetery Tool House**—Good condition.
27. **Stone Crusher**—Disconnected.
28. **Store House**—Good condition.
29. **Goodall Memorial Library**—Good condition.
30. **Mercantile Building**—30 amp. fuses in several panels. Extension cords all over, wires hanging all over. Loose wiring and not terminated.

I find buildings requiring janitors to be very well kept, and wiring specifications are met to the best of their ability. Janitors should be told not to use over 15 amp. time delay fuses unless such circuits are approved by a qualified and licensed electrician. All motors over 1 hp. should have a magnetic starter with proper heaters.

All buildings not being used or condemned should have the power meters disconnected.

---

**PROTECTION OF PERSONS AND PROPERTY**

If any further information is needed in regards to this report please feel free to contact me.

Yours truly,

DONALD H. GAGNE

Wire Inspector for the  
Town of Sanford

**HEALTH AND SANITATION**  
**REPORT OF THE**  
**HEALTH OFFICER FOR THE YEAR 1973**

---

February 8, 1974

To the Selectmen, Town of Sanford, Maine

As Health Officer for the Town of Sanford for the year of 1973, I herewith submit a report of health activities during the current year.

Caring for vagrants and itinerants who come to town and need care.

Emergency commitments at request of police or selectmen.

Exams for fitness to work at request of selectmen.

Health Calls—tenants about questionable conditions of their rents—cleanliness—sewerage—heat—water.

Daily conferences with town nurse as to problems arising with patients receiving town help. Caring for same when indicated.

Supplying drugs for patients receiving town aid.

Writing of prescriptions for town and patients thru town nurse.

Examine patients at request of selectmen and/or town nurse.

Receive plumbing complaints and investigating same and/or referring them to plumbing inspector.

On call for town and itinerants at request of selectmen or town nurse at all times.

Telephone advice to anyone calling—these are numerous due to Health Officer classification in phone book.

Receiving and reporting to Augusta Bureau of Health all contagious disease cases reported.

## HEALTH AND SANITATION

Buying drugs directly from pharmaceutical houses and utilization of sample drugs.

Answering inquiries concerning health inoculations for overseas travel.

Examination and stamping of inoculation reports for overseas travel.

Investigating "health hazards" (unhealthy living conditions, unsanitary houses, poor nutrition, maltreated or illfed children) at request of selectmen or town nurse.

Examination of elderly living alone—at request of selectmen or town nurse—to ascertain if mentally competent to continue living alone.

Respectfully yours,

A. S. LINCOURT, M. D.

Health Officer

ASL/srh

## **HEALTH AND SANITATION**

### **REPORT OF THE**

### **COMMUNITY HEALTH ASSOCIATION, INC. - 1973**

---

This is the fifty-first year we have provided service to the residents of Sanford and Springvale. Were it not for the dedication and faithfulness of our Board of Directors, Nurses and Secretary, and the cooperation and assistance of local physicians, town officials and various civic and professional organizations, our responsibilities could not be met.

Cooperation is evident in many ways: a telephone call to the Discharge Planning Coordinator at the hospital brings additional information needed in caring for someone just returned home; contact with the Red Cross, Salvation Army or Welfare Nurse brings aid to those in need; a personal contact with a Lions Club member, and this group, dedicated to sight conservation, planned a "Lazy Eye Blindness" screening program for pre-schoolers.

A year ago, Dr. Vigue, newly-arrived ophthalmologist, graciously responded to our request through Dr. Kornetsky for a Glaucoma Screening Clinic at the Trafton Center. These two men, who willingly donated their services, screened 65 individuals at that time, and just recently held a second clinic.

In two unusual situations the CHA car was in use and no other staff vehicle available. A telephone call to the Selectmen provided us with their car to make an urgent home visit.

Moreover, following the many screening clinics we hold, our nurses frequently feel an individual should be seen fairly soon by his/her family physician. She telephones the office, with the individual's consent, and an appointment is made on the strength of her professional judgment.

Fortunate indeed are we to work in a community where such cooperation exists; grateful we are for the opportunities to return assistance, as we provide a continuum of "Prevention, Restoration and Education".

"PREVENTION" is the main focus of Health Care today, and a great deal of our time is spent in the following activities:

"WELL-AGING CLINIC" at Trafton Senior Citizen Center

## HEALTH AND SANITATION

Over 800 individuals attended the screening programs in 1973, compared to 691 in 1972. One out of three was referred for elevated blood pressure; three out of four for further hearing tests; one out of ten for questionable high blood sugar count or Glaucoma. A new service, begun this past year, is the "Foot Care Program". Instruction and consultation was sought from a Podiatrist in the areas of nail cutting and examination. Attendance is small, but we hope to see it grow in the future.

### PAROCHIAL SCHOOL PROGRAM

Functions here duplicate those in the public schools in the areas of eye and physical exams, hearing and vision checks, plus immunizations. Approximately 380 children in selected grades received 883 immunizations and/or screening exams.

### PRE-SCHOOL IMMUNIZATIONS

Dr. Lincourt continues to serve as physician-in-attendance at the monthly clinics. He skillfully administers the many immunizations given to prevent Whooping Cough, Tetanus, Diphtheria, Polio, Rubella, Measles and mumps. Attendance dropped slightly from 1972 figures. However, we feel with our postcard reminder system that more children are completing the full recommended schedule, thereby receiving maximum protection.

### SCREENING PROGRAMS

A grand total of 1905 individuals participated in these activities. This includes those mentioned, as well as Foot Clinics, Pap Tests for Cancer in women, and Dreyapak testing for sugar in urine.

"RESTORATION" involves using our acquired skills as Registered Nurses to render care and treatment under physician's orders. 171 individuals received skilled nursing care in their homes. 397 visits were made for the purpose of drawing blood samples for analysis at the hospital. These figures represent an increase of 30% and 50% respectively over 1972 figures. However, the number of nursing visits declined by 8%.

"EDUCATION" provides us with the knowledge necessary in our daily work, and enables us to share through teaching, in our efforts to promote better health.

## HEALTH AND SANITATION

Frequent home and telephone calls are made by the nurses for the purpose of providing health education, information and assistance. Contact is always established with the physician involved, where indicated. Appropriate health information pamphlets are distributed at every opportunity, be it the Pre-School Immunization Clinic, Parochial School, Trafton Center or a local organization.

Education for our staff and secretary is also important. All three nurses attended as many meetings and workshops as possible. Two completed a semester course in "Sociology" at Nason College, as well as one in "Nursing Process" by Telelecture at UMPG, Gorham Campus. Our secretary keeps abreast of changes in her work through Medicare bulletins and other directives received.

The CHA Medical Advisor, Dr. Bacon—whose name is synonymous with health education—planned and served as moderator at the 16th Annual Nurses' Institute. Held at Nason College "Hilltop House", the "Diabetes" program brought speakers from Boston, and nurses and para-medical personnel from many areas in Maine.

In the realm of Health Care Systems, with particular attention to Home Health Agencies, our Visiting Nurse Service is classified as a "small agency". We are a certified Home Health Agency, therefore, must meet the same "Conditions of Participation" as the largest agency in the country. We are subject to rules and regulations regarding record-keeping, personnel policies, and provision of skilled nursing care and one other therapeutic service, evaluation, professional advisory personnel, and so on.

Each year we are surveyed by the Department of Health and Welfare, designated Federal agents for this purpose. The procedure lasts two full days. Home visits with the nurses are included as well as every administrative facet of our operation. Then at other times the Home Care Coordinator and External Audit Accountant from our fiscal intermediary pays us a visit. They must be satisfied our nursing and financial records are accurate and properly kept. This consumes two to three more survey days.

We are constantly beset with more forms and more documentation; more skills are demanded of our staff, not only in the area of nursing, but also in referring, recording and evaluation. And, the innovations brought about by Medicare Certification have been implemented throughout our agency in all areas, not just those dealing with Medicare.

## HEALTH AND SANITATION

Our responsibilities have increased to the point where we now employ three full-time registered nurses, a half-time-plus secretary and two contracted registered physical therapists.

This corps of professionals carries on an extensive program guided by the expertise of the Board of Directors. We have been told by Public Health Officials and others that ours is one of the most active Visiting Nurse Services of its size in the State of Maine.

Our "Christmas Clearing House", directed for ten years by Mrs. Anne Kornetsky, is unique in this state. She works in close cooperation with the Salvation Army, School Social Worker, Welfare and CHA nurses. The main emphasis is on preventing duplication of giving during the holiday season by clubs, organizations and individuals.

We are represented on several state-wide committees in various professional organizations, and this year were invited to participate as a resource agency at the Governor's "Blaine House Conference on Aging".

Our "Well-Aging Clinic", planned in conjunction with the YMCA, has gained renown not only in Maine, but in other states as well. We have had many inquiries regarding its operation, and the University of Maine made a film of an actual clinic which was shown on Educational TV.

All of us associated with Community Health work diligently, for we are proud to be laboring in the fields of "Prevention", "Restoration", and "Education" for YOU—the citizens of Sanford.

Respectfully submitted,

(Mrs.) Marolyn P. Roberts, R.N.

Executive Director

## RECREATION

### REPORT OF THE ACTIVITIES OF THE SANFORD PARK COMMISSION — 1973

---

1973 was another year of progress for your Park Commission. Our tree program of cutting out diseased trees and removal of stumps was continued. New shade trees to beautify our community is progressing on schedule.

Our summer series of weekly band concerts was held in the Gowen Memorial Park Bandstand. The concerts were enthusiastically received by large crowds.

Goodall Park saw optimum use with activities scheduled from April to November. Goodall Park was used by Sanford High School, Sanford Junior High, Sanford Park Dept., Babe Ruth League, American Legion Baseball, SSYAA Midget Football Program, Fourth of July Activities, and other groups for special events.

Our parks and playgrounds had very good attendance. The picnic areas at Gowen Park and Springvale Recreation Areas were used extensively.

The Park Dept. Recreation Swimming Program had another outstanding season in attendance and activities.

We continued our skating rink at Benton, when the weather was suitable.

A new softball field was put into use at Carpentier Park and was a marked improvement for the softball league.

New programs and events are planned for 1974—more new trees, the improvement and lighting of the new softball field, completion of our four new tennis courts next to the Junior High on Main Street in Sanford. We are planning adult and young people programs in basketball and wrestling. We are also planning other adult programs.

Vandalism is a problem that we have in our parks and playgrounds. Detruction of windows, doors, lights, benches and trees. The action of a group of young people in Central Park of playing ball and frisbees being thrown around is preventing our adult citizens, especially the elderly, from sitting and enjoying Central Park. I hope that something can be done to stop this problem or we will have to remove all benches and fence and close off this area in the evenings.

ROBERT J. BLOUIN

Chairman Sanford Park Commission

**PUBLIC SERVICE ENTERPRISES**  
**REPORT OF THE**  
**SANFORD HISTORICAL COMMITTEE**  
**FOR 1973**

The Sanford Historical Committee has received several significant contributions relating to the history of our town. We have nominated the Thomas Goodall residence for inclusion in the National Register of Historic Sites. During the year we turned in to the town treasurer \$300.00 from the sale of town histories. This brings to \$8,218.93 so far turned over to the town from the sale of this book.

ALBERT L. PROSSER

Chairman

**TOWN OF SANFORD, MAINE****AUDIT REPORT****DECEMBER 31, 1973**

March 21, 1974

**BOARD OF SELECTMEN**Town of Sanford  
Sanford, Maine

Gentlemen:

We have examined the Statement of Financial Condition of the Town of Sanford, Maine as of December 31, 1973 and the related statements of general fund surplus and departmental operations for the year then ended.

Our examination was made in accordance with generally accepted auditing standards and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, the accompanying Statement of Financial Condition and related statements of general fund surplus and departmental operations present fairly the financial position of the Town of Sanford, Maine at December 31, 1973 and the results of its operations for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Paul A. Leroux, Jr.

Public Accountant

Hours: 8:00 a.m. - 12:00 noon; 1:00 p.m. - 4:30 p.m.

**No School Notification**

The "No School Signal" will be sounded only on those occasions when concern for the pupils makes it imperative.

Parents are urged to keep their children at home, even when school is in session, if road conditions in their locality are particularly hazardous.

On the occasions when the "No School Signal" is sounded, there will be no school for all pupils for the entire day.

Official notification will be given whenever possible over the following radio stations: WSME, Sanford; WWNH, Rochester, New Hampshire; WSCH and WGAN, Portland, from 6:20 a.m. on.

The fire alarm will sound four times at 6:45 a.m.

When it becomes necessary to suspend the afternoon session of school, the signal will be given at 11:00 a.m.

## EDUCATION

### REPORT OF THE SUPERINTENDENT OF SCHOOLS

Charles A. Beattie, Ph.D.

Citizens of Sanford:

It is a pleasure to submit my second annual report as Superintendent of Schools in Sanford. Last year I submitted a "Five Year Plan" along with the regular school and supervisory reports. This year I will present a report of progress.

#### Facilities

The Hamlin and Hawthorne Schools have been closed for school purposes and the buildings have been accepted by the Town. Both of these buildings were in poor condition and the refurbishing of these schools to make them safe and functional for our students would have been extremely costly.

The Junior High needs an addition to take care of the large enrollment. The School Building Needs Committee under the leadership of Mr. Eric Allain submitted a report to the Town recommending a Building Committee be appointed. Mr. Gilles Auger, the Town Moderator, will appoint a Building Committee in January.

If the new addition is approved and constructed I believe the present Annex should be used to house our special education program. These programs could include—perceptionally handicapped learning areas, emotional disturbed teaching areas, trainable and educable teaching areas, and facilities for the speech and social workers. By placing all of our special programs in the Annex students that need mainstreaming may attend the Middle or Junior High Schools without traveling great distances.

I believe progress has been made in this area and the future will bring even greater progress.

#### Programs

I stated in the report that more individualized instruction would be initiated, evaluation programs would be completed, and that In-Service Courses would be offered locally to help teachers meet the needs of the youth of today.

In-Service Courses have been offered in Sanford this past year in the fields of Attitudinal Change prior to individualized instruction, audio-visual aids, a first aid course, and a course in Educational Change. In the future another course in Educational Change, a course in Behavioral Modification, a course in TV and cable TV, and a health or first aid course will be available to teachers in Sanford.

## EDUCATION

The elementary schools went through an extensive evaluation this past year. Not only teachers and administrators but community people participated in the pilot self-evaluation program. The high school also completed their evaluation for the New England Association of Schools and Colleges. I am sure most of you know that the high school has received continuing membership for the next ten years and also has been accredited for a ten year period. Because Sanford is the only school system to complete both evaluations the same year we have received a five year certificate for each of our school buildings from the Maine Department of Educational and Cultural Services. I wish to thank everyone that contributed in any way to the local evaluations. However, special commendation must be extended to Mr. John Parker for the high school evaluation and to Mr. Kenneth Johnson and Mrs. Nancy Titcomb for their work on the elementary evaluation.

I can only state at this time in terms of moving toward an individualized approach to teaching, that the teachers are doing more, using student tutors more, and seeking adult volunteers to help develop a more viable program for the boys and girls in Sanford. Team teaching, mini-courses, electives, contracts, and career education are now part of our school system.

The school programs are moving forward and the instructional techniques are progressing as we enter the middle 1970's.

### Personnel

The last section of the plan suggested the need for many additional staff positions over the next five years. Because of the evaluation reports referred to earlier, because of the School Committee's desire to improve the quality of education in Sanford, because the community supported these changes, and because additional Federal Funds were received the following has or will become reality during the year 1974.

1. Full-time Assistant Principals at the Middle and Junior High Schools.
2. A Speech teacher to work with Grades K-6.
3. A Speech Pathologist one day per week.
4. Eleven Curriculum Coordinators in all major subjects fields with K-12 responsibility.
5. Two Library Assistants—one at the High School and one at the Middle School.
6. A Remedial Mathematics teacher at the Middle School.

## **EDUCATION**

7. Department Chairmen at the Junior High School.
8. An Art teacher for the Junior High School.
9. A Music teacher for the Middle School.
10. A Learning Disabilities teacher at the Middle School.
11. A Guidance person at the Middle School.

In the area of personnel we must continue to increase our staff in a number of fields—teachers for the handicapped, guidance and school psychologist, volunteer or paid aides to help individualize our programs, and more specialists in the fields of health and physical education.

### **Conclusion**

I am extremely proud of the concern and support of the School Committee, the complete staff, the students, and the community for moving a good school system forward toward a better school system.

## **REPORT OF THE**

### **COMMUNITY ADULT EDUCATION DIRECTOR**

John E. Webb, Jr.

Sanford Adult Evening School is the Adult Education Division of Sanford Public Schools. Established in order to reinforce the idea that education is a continuous process, the School is devoted to the continuing education of adults through courses in High School Diploma, High School Equivalency, Vocational Training, Adult Basic Education and General Adult Education.

The philosophy of the school emphasizes programs relevant to problems, aspirations, and needs of the individual. Individual enrichment is provided through courses and through personal contact.

The High School Diploma Division offers courses leading to a Sanford High School Diploma. On June 15, twenty-two adults received their diplomas. It was the first such graduation since World War II Veterans School.

The students, their families and friends were welcomed by John R. Parker, Principal of Sanford High. Dr. Charles A. Beattie, Superintendent of Schools, awarded the diplomas. The graduation message was presented by Dr. Bartholomew Ci-

## EDUCATION

ampa, Associate Professor of Education and Director of Teacher Training at Nasson College.

The High School Equivalency Certificate Program is an alternate way an adult may receive recognition for academic achievement. No courses are required, even though Sanford Adult Evening School offers a refresher program for candidates. If the student passes the test, he is granted an equivalency certificate from the State of Maine. The local program has tested over 100 adults this year.

The Vocational Training Section offers courses for the purpose of developing basic manipulative skills, safety judgment, technical knowledge, and related occupational information. In addition, business education courses offer adults knowledge and marketable skills needed for initial employment and advancement. These programs meet in the Sanford Regional Technical Vocational Center.

The Adult Basic Education Program provides instruction in communicative, computational and social skills for adults whose educational attainment is below the eighth grade level. This program is new to Sanford this year.

The General Division offers courses at all levels of interest. Any content at any level which reflects an interest and need to know may be presented. Courses range from holiday decorations and photography to women's exercise. As an extension of the exercise program, the first locally produced TV show was aired this year over the cable owned by York Cable Corporation. The program was filmed by a team of Sanford High School students, under the direction of Frederick St. Cyr, Vocational Center Director, using school television taping equipment. Mr. Peter Hitt, Vice President of Operations, York Cable, made arrangements for the program to be shown over channel 21. The half-hour program was aired Monday, Wednesday, and Friday evenings at 7:30 p.m. as a supplement to Eva Spencer's adult class.

Several courses were run this year with the cooperation of other agencies and industries. A Community College Program was instituted this fall, after many months of preparation and planning, by staffs at Nasson College and Sanford Public Schools. The program is now a cooperative effort of University of Maine, Southern Maine Vocational Technical Institute, Nasson College, St. Francis College and the local school system.

A Farm Animal Care Program was presented in cooperation with York County Extension Service. The program was planned by them and presented as part of the local adult education program.

## EDUCATION

The Maine Municipal Association was instrumental in determining the need for a safety program for municipal employees. A twelve hour course was given which included safety standards on the job in addition to Red Cross First Aid.

A shorthand course and basic electronics program was organized for Sprague Electric employees.

The membership of the Advisory Board was expanded this year. New members include: Peter Hitt, Vice President of Operation at York Cable; Richard Hall, Librarian at Goodall Library; Lorraine Masure, Counselor with York County Community College Services; Thomas Milligan, Y.M.C.A. Executive Director. The veteran members are: Dr. Bartholomew Ciampa, Director of Teacher Training at Nasson College; Winston A. Blaisdell, owner of Colby & Woodman; Caroline Merrifield, English teacher at Sanford High School; Rev. Frederick Robie, Jr., Pastor of North Parish Congregational Church; and Glenn K. Wildes, area dairy specialist with York County Extension Service.

As stated in the November 1st Adult Education supplement to the Sanford Tribune, "Education is a continuous process in the Sanford Public Schools".

## REPORT OF THE HIGH SCHOOL PRINCIPAL

John R. Parker

### Enrollment

Our stabilized enrollment as of September 17, 1973 was 1261. This is somewhat less than last year due in part to a freshman class which averages 50 fewer students than freshman classes of the past three years. Tuition enrollment was 110, all of whom were enrolled as full-time (83) or part-time (27) vocational students. Students were enrolled from Noble, Traip, Wells, Kennebunk and Marshwood on a full-time basis; and from Massabesic on a part-time basis.

Year	Resident	Tuition	Total
Freshman .....	281	5	286
Sophomore .....	308	12	320
Junior .....	302	48	350
Senior .....	256	45	301
P. G. ....	4	—	4

## EDUCATION

### Facilities

This is the fourth year in this building and it continues to be a highly functional facility. Both day and evening school have used these facilities and the care and upkeep of same speak highly of our custodial staff, student body, faculty and adult classes. The Evaluation Visiting Committee was greatly impressed by the care and maintenance shown throughout the buildings.

### Academic Program

Several new elective course offerings were made available to our students this year. Junior and Senior English courses are now completely on the elective system. Other new offerings include: Sociology, Cooking for Boys, Arts & Crafts, Psychology & Family Living, Careers, as well as a complete Graphic Arts course under the Vocational Department.

An in-house computer has also been added to the Data Processing program.

All students are advised to take a minimum load of five full-time subjects in order to minimize their free time.

### Faculty

The present faculty includes 12 new members. Lost to retirement were Social Studies Department Head, Miss Louise Mallinson and Math teacher, Mrs. Myrtle Weiss. John Webb, Department Chairman, resigned to accept the position of Adult Education & Summer School Director. Paul Seavey left to become principal of Biddeford High School and Rodney Shain replaced him as Assistant Principal. Seven new teachers were hired as replacements and five additional teachers were hired for new and expanded courses.

All major departments are now fully staffed and have supervisory department chairmen.

### Evaluation

The faculty and staff spent the greater part of the 1972-73 school year in preparation for an Evaluation Visiting Committee, the purpose being to seek re-accreditation for Sanford High School through the New England Association of Schools & Colleges.

The staff completed a 356 page study which encompassed the entire school program as well as a community study. New course guidelines were written in each subject area and were published for the opening of school in September.

A visiting team of 29 New England educators spent October 14th - 17th visiting Sanford High School for the pur-

## EDUCATION

pose mentioned above. We will receive a lengthy written report in the near future.

### Extra Curricular

Sanford High School clubs and activities continue to provide dances, productions, concerts and entertainment for the student body on almost a weekly basis. The Student Council sponsors both a Homecoming Weekend and a Winter Carnival Weekend as well as student exchanges with other area schools. The Key Club continues its fine work and was honored by having Paul Davis elected as New England District Governor.

Dramatic activities have been expanded under Mr. Bruce Pineau, the 020 (Librarian's Club) continues to grow, and FHA, FFA, Math Club, Pep Club, Ecology Club, National Honor Society, as well as all four class groups, are in continuous operation. It most certainly makes for a full calendar with eight events in the past nine weeks since the opening of school.

### General

The student body, faculty and staff are commended for their cooperation and spirit. The various Booster organizations are especially commended for their untiring efforts on behalf of the students of Sanford High School. Your efforts are greatly appreciated.

My personal appreciation is extended to all who continue to support quality education in Sanford.

## REPORT OF THE

### GUIDANCE DIRECTOR — GRADES 9 - 12

Leland S. Churchill

I wish to report a few of the highlight activities performed by the Guidance Department of Sanford High School.

During the past school year 129 senior students processed over 250 applications to various schools of higher learning. Eighty-seven representatives of higher learning and employment opportunities visited Sanford High School to speak with students.

A Course Description booklet was developed for the students' use. This booklet contained instructions for selecting subjects, and description of one hundred twenty-six different subjects which are offered at the school.

## EDUCATION

One hundred four senior students participated in the admissions testing program of the College Entrance Examination Board.

One hundred twenty-five junior students participated in the Preliminary Scholastic Aptitude Test program of the College Entrance Examination Board.

The tenth-grade students wrote the Otis-Lennon Intelligence Test.

A successful Career Day was planned and conducted jointly with the Vocational School.

A working relationship was developed with the York County Counseling Service with approximately twenty-six high school students receiving assistance from this agency.

A state work program was conducted by the Guidance Department for York County, and approximately seventeen Sanford youth were able to work at a variety of public institutions during the summer because of this program.

In conclusion I wish to submit a follow-up study of the class of 1973.

## **EDUCATION**

### **REPORT OF THE ATHLETIC DIRECTOR**

Robert J. Blouin

The girls' athletic program continues to be highly competitive and successful. We had winning seasons in field hockey and track, and basketball was close to a .500 season.

The boys' interscholastic program has gone through many changes in staff and program. With these changes, we hope to be more competitive in our program. We will now be competing in our own class from the junior high to the high school level. We have been accepted in the 8th and 9th grade basketball and baseball leagues in the Portland Conference. This will be more on a par with our high school varsity competition. We also hope, in the near future, to do the same in our cross country and track programs. We are now working on closer cooperation and coordination with our athletic and intramural programs from the Middle School on through to the high school.

Our coaches are showing a great deal of enthusiasm and responsibility to create interest and well-planned programs for improvement at all levels. New interest has been generated and larger numbers are trying out and participating in our athletic programs. We should see a marked improvement in competition at the high school level in the future.

In 1972-73, our golf team won the state schoolboy golf title and our wrestling team had a winning season. Our football and baseball teams played close to .500 ball.

### **REPORT OF THE JUNIOR HIGH PRINCIPAL**

#### **Enrollment**

We have heard the announcement telling us of a "zero" increase in the birth rate and this will bring about a relief to the overcrowded school situation. This may be true but it does not take into account our mobile population or growing communities, which Sanford seems to be.

The October 1, 1972 enrollment figure for the Junior High was an unbelievable 617. One year later, October 1, 1973, the figure skyrocketed to 675. My prediction is that we will reach the 700 figure before this school year ends. If the zero increase in the birth rate is fact, so must a population shift to

## EDUCATION

Sanford also be a fact. The recent news release for the Gibbs Oil Company to build a refinery in South Sanford will escalate any student projections we may be using. It is not unforeseeable that within a very few years, numbers of 800 plus attending the Junior High is realistic.

### Faculty & Staff

The increased enrollment also means an increase in the number of teachers needed to service our students. The Junior High staff is listed below by subject area they teach, grade, and/or work assignment.

Mrs. Judee Tucker	French	7 & 8
Mrs. Sharon Greenglass	Math.	7 & 8
Mrs. Lista Staples	Math.	8
Mr. Ronald Frith	Math.	8
Mr. Robert Brown	Math.	7
Mrs. Gary Stacey	Math.	7
Mrs. Shirley McIntyre	Science	7
Mrs. Rita Howe	Science	7 & 8
Mr. Kenneth Johnson	Science	8
Mr. Eldon Woodman	Science	8
Mr. Clifton Sawyer	Science	7
Mrs. Janice Webster	English	8
Mrs. Mary-Ellen Veno	English	7
Mrs. Patricia Bland	English	7
Mrs. Patricia Shaw	English	7 & 8
Mrs. Barbara Chasse	English	8
Mrs. Althea Currier	Social Studies	8
Mrs. Jacqueline Shaw	Social Studies	8
Mr. Frank Remick	Social Studies	7
Mr. Harold Burbank	Social Studies	7
Mr. Roland Normand	Social Studies	7 & 8
Mrs. Janet Kalman	Homemaking	7 & 8 (Girls)
Mrs. Mary Dumas	Homemaking	8 (Girls)
Mrs. Debra LeBlanc	Homemaking	7 (Girls)
Mr. Frank Elliott	Industrial Arts	7 & 8 (Boys)
Mr. John Roy	Industrial Arts	8 (Boys)
Mr. Duncan MacEachern	Industrial Arts	7 (Boys)
Mrs. Priscilla McDougal	Physical Education	7 & 8 (Girls)
Mr. Michael Camire	Physical Education	7 & 8 (Boys)
Mrs. Linda Lamphier	Art	7 & 8
Mr. Keith McClelland	Music	7 & 8
Mrs. Mary Vose	Reading	7 & 8
Mrs. Christine Potter	Reading	7 & 8
Mr. Frederic Brown	Guidance	
Miss Mary Wilson	Librarian	
Mrs. Geraldine Bandlow	Secretary	
Mrs. Jeanne Gauthier	School Nurse	
Mr. Oscar Bourque	Custodian	
Mr. Gerard Landry	Custodian	
Mr. Roger Guertin	Custodian	

## EDUCATION

Some much-needed appointments have been made at the Junior High which will facilitate the educational processes. Mr. Frank Elliott as Assistant Principal, Mrs. Shirley McIntyre, Mrs. Janice Webster, Mrs. Althea Currier and Mr. Robert Brown as Department Heads have already proven their worth to the Junior High. These people have been most valuable to me and are a definite asset to the Junior High segment of the educational ladder.

### Curriculum

The appointment of curriculum coordinators in ten subject areas should settle many of the problems we have been confronted with in the past. The need for sequential, developmental programs is greater than ever. The work of the coordinators and their committees should eliminate gaps and overlaps in our programs that have existed.

There is a need for a broader foreign language program at the Junior High. At present, an extensive French program is being offered to 20% of the Junior High students while the remaining 80% do not receive any French instruction whatsoever. My recommendation would be less French to more students.

### Buildings and Grounds

The condition of the Junior High complex is very good considering the amount of preventive maintenance that is carried on. The main building has an evasive roof leak and many of the floor tiles are ready to come out. The wood trim exposed to weather needs painting and a painting program should be started on the inside.

The lawns are in dire need of fertilizer and/or lime to sweeten the soil and strengthen the root system.

The Searchlight Club did donate eight Flowering Crab-apple trees to beautify the area. As these trees mature, they will add to the attractiveness of the grounds. Their thoughtful gift is highly appreciated.

### Daily Attendance

Daily attendance at the Junior High is very good. Officer Robert Gerry has worked diligently and successfully to keep truancy at a minimum.

In closing, I wish to extend my appreciation to the many people of Sanford that support quality education.

**EDUCATION****REPORT OF THE  
JUNIOR HIGH SCHOOL GUIDANCE COUNSELOR  
AND ELEMENTARY TESTING COORDINATOR**

Frederic Brown

Guidance, like every other department at the junior high school, has spent the past year trying to meet the demand for more service to larger numbers of students. When schools become too crowded, it becomes much more difficult for students to feel that they have any significant place in that school. Junior High administration, faculty and guidance have all been trying to find new ways to help every student feel good enough about himself and his school so that his junior high years will be good years for growth and development. Not all students reach this goal, but we are working hard to make it possible for as many as we can.

As the only guidance counselor for about 675 students, I try to meet with all 7th grade groups for some early school orientation. Later in the year I meet with all 8th grade groups to help them start planning their high school program. The rest of my time is spent with individual students and small groups of students helping them to make a more comfortable adjustment to school and to plan their future programs.

The junior high school is fortunate to have administrators and teachers who give a great deal of "guidance" time to individual students. Even with the faculty guidance effort, there are just not enough man hours available to meet the needs. The addition of another full time counselor and a part-time secretary, who could free counselors from a lot of paper work time, would make the junior high guidance program far more effective.

The major objectives of the elementary, school-wide testing program are:

1. To provide an estimate of learning potential for each student in several academic areas.
2. To measure actual skill development in various academic areas so teachers can better individualize each student's needs and strengths.

To achieve these objectives we have administered the new Stanford '73 achievement series to all students in grades 3, 5, and 7. Grade 1 students will be tested this spring. The Analysis of Learning Potential will be administered to all students in grades 2, 4, 6, and 8.

## EDUCATION

The need for individual testing in the elementary grades is growing rapidly. I devote half a day a week to this task, and it is not nearly enough time to meet this very important need. As teachers and administrators are becoming more aware of individual needs and differences, more students are referred in the hope of finding a program or a technique that may help them over their educational hurdles. This past year I have given individual tests to 97 such students in grades K through 6. I am sure Mrs. Butler has tested more in the reading program, and still we could not keep up with the referrals. If it were not for the fact that the school social worker, Mrs. Palmer, does almost all the follow-up conference work with teachers and parents, we could not give service to half as many students as we now do. I believe that at least one elementary guidance counselor is needed to better meet this need, as well as to provide individual and group counseling at the Middle School.

The task of helping all students adjust to school so that they may get the most from school in terms of learning and in terms of developing a sense of belonging is an enormous one. It would be an impossible task if it were not for the fine cooperation from fellow educators, parents and concerned citizens. It is this sort of cooperation which makes our mutual goals for our young people possible.

## REPORT OF THE ELEMENTARY SUPERVISOR

Clyde P. Kimball

The enrollment of the 6 Elementary Schools as of October 31, 1973 was:

Edison .....	180
Emerson .....	200
Lafayette .....	172
Lincoln .....	183
Roosevelt .....	281
Central .....	50
Mrs. Allen's Class at Middle .....	15
	<hr/>
	1081

This is a drop of 21 pupils from last year. This is the first time since I have been Elementary Supervisor that we have decreased in enrollment.

## EDUCATION

New teachers this year are as follows:

Mrs. Greenlaw, 1st grade—Emerson School  
Mrs. Boothby, 2nd grade—Central School

This is the lowest turnover in teachers that we have had in the last ten years.

New teacher aides this year are as follows:

Mrs. Linda Lamontagne—Kindergarten - Roosevelt  
Mrs. Logan Hurst—Kindergarten - Roosevelt  
Mrs. Louise L'Heureux—Kindergarten - Roosevelt  
Mrs. Esther Gold—Aide for 1st grade teachers

We have Mr. Marshall for a music supervisor this year in the primary grades. This is the first time in many years that we have had a music supervisor in the primary grades. We also have Mr. Dunn as physical education coordinator in the primary grades, and this is the first time we have had a physical education coordinator in the primary grades for many years.

We have started a new reading program in the first grades this year under the supervision of Mrs. Butler, Reading Supervisor. The following will give you an idea of what we are trying to do. This is a report from the Lafayette School.

The Transitional First Grade is using Alpha One for its reading program. This has posters of each letter of the alphabet, greeting cards of these letters, and a workbook called "Chatterbox" that follows the lessons in the guidebook. Later the children will use two reading books that continue on a more advanced level.

The children in the two regular first grades were divided into two groups according to their ability; then sub-divided by their assigned teacher in reading.

Scott Foresman and Houghton Mifflin are the texts used by the top groups. The children in the lower groups are using the Ginn series as well as Alpha Time. This is a new approach to reading by which the letters of the alphabet become "letter-people" with names.

In addition, all first grade children are using **Reading with Phonics** by Hay-Wingo (a Teacher's book), **Listen, Speak, and Write** with accompanying writing pad, and two kits: **Speech-To-Print Phonics Kit** and the **Durrell-Murphy Phonics Practice Kit**.

## EDUCATION

At the Edison School something new was started this year. Mr. Ron Houle and Dr. Robert Webster, both of the York County Counseling Services, are meeting with the Edison teachers one afternoon a week to help us understand some of the relationships and frustrations we are having with the children in our classes. This program will run for eight weeks.

St. Ignatius School is now called the Central School with one 3rd grade, one 2nd grade and two classes of trainables with a total enrollment of fifty pupils. This is a very attractive school. We would like to have visitors anytime.

At the Roosevelt School the kindergarten classes are changing this year for the first time. At the half year morning classes will go in the afternoon and afternoon classes will go in the morning.

Because of the popularity of the reading summer course offered last year, it was continued this summer. State Coordinators of Title I granted funds for this purpose.

Listed below are the instructors who carried on this program:

Mrs. Burrows .....	Remedial Reading
Mrs. Greer .....	Remedial Reading
Mrs. Chadbourne .....	Remedial Reading
Miss Goulet .....	Remedial Reading
Mrs. Chasse .....	Remedial Reading
Mrs. Caron .....	Learning Disabilities
Mr. Normand .....	Emotional Disabilities
Mrs. Kahn .....	Speech Therapy
Mrs. Palmer .....	Social Worker
Mrs. Lorraine Savage .....	Outreach Worker
Mr. Thomas Gagne .....	Outreach Worker

Our testing program was revised this year to provide an estimate of the potential learning ability of each student in several areas and to measure the actual skill development of each individual student in the various academic areas so that the teacher can better individualize each student's needs and strengths. The new Stanford Achievement series was substituted for the old series and the Analysis of Learning Potential for the Otis Lennon series.

The new Stanford test will be given to the 1, 3, 5 and 7th grades. These will all be given during the month of October, except for the 1st grade which will be given in April.

The Analysis of Learning Potential will be administered to all students in grades 2, 4, 6, and 8 also in October.

## EDUCATION

We still have to bus children from school to school to keep the ratio under 30 pupils per teacher. This is always a problem. More children are being bussed this year than ever before, because so many families are moving into the rural sections.

I have enjoyed working with the Superintendent, principals and teachers—visiting classes, holding meetings, working on committees and helping wherever possible.

### REPORT OF THE MIDDLE SCHOOL PRINCIPAL

Carl Hurd

The Middle School had an enrollment of 744 when school opened in September 1973. This is lower than our largest enrollment which was 772 at the beginning of school in September 1972. Our 1973 enrollment is as follows:

Grade 4 .....	254
Grade 5 .....	235
Grade 6 .....	255

This year we decided to revise our Language Arts course of study. Language Arts now consists of English, Spelling and Handwriting. Each Language Arts teacher, teaches two levels—one in the morning and one in the afternoon. Reading is now taught as a separate subject. Each Reading teacher teaches two levels—one in the morning and one in the afternoon. Language Arts and Reading teachers are scheduled the same periods so that we may apply strengths and abilities in each of these subject areas where we can best meet the needs of individual students. To fortify our program in these two areas Mrs. Butler worked with me to organize a diagnostic testing program. The first test was administered the first week of school. Then students were grouped according to their individual needs. Several batteries of tests of increasing difficulty were available and administered to students who made no errors or were above the remedial work. Teachers' and students' handbooks were available for each area of each test. Laboratories, kits and other related remedial materials were available from the Media Learning Center. Mrs. Butler advised and provided materials to any teacher who had a specific problem. Achievement tests in the back of the students' handbooks were given to determine the need for either more remediation or for advancement to another area.

The diagnostic and remedial program outlined above was made possible and successful by the addition of a part time Assistant Principal, Mr. Pierce. This allowed the Principal time to work and direct teachers in improving this area of the curriculum.

## EDUCATION

The length of each period was increased from 40 to 50 minutes in September. A complete revision of the schedule was necessary in order to eliminate some study periods. Teachers now have students study or work on homework during part of the subject class period. This has proven more effective, as students have the necessary materials at hand; and the teacher can give them the necessary assistance if needed.

As Principal of the Middle School, I wish to compliment the parents of our youngsters for the neat and clean appearance of their children. I wish to compliment our custodial staff for their constant vigil in maintaining a clean, neat building in which your children can live and learn. And finally, I am pleased with the cooperation and dedication of our teaching staff, whose primary concern is to do what is best for your children.

In closing, I would like to extend to the citizens of the town an invitation to visit the school anytime to verify the statements above. You are always welcome.

## REPORT OF THE SCHOOL HEALTH PROGRAM

Jeanne A. Gauthier, R. N.

Since its inception, the health services strive to promote efficient screening programs to detect physical problems that could hinder a student's learning potential.

The following programs make up the services offered in the school system:

Physical Exams—Grades K-3-6-9 and students participating in competitive sports (1647)

Vision Exams—Grades 1-4-7-9 and students who have been referred (2467)

Hearing Exams—Grades 1-4-7-9 and students who have been referred (903)

Immunization Program—Grades K-12—Oral Polio Vaccine (3412)

Diabetes Detection Program (2100)

Health Units are maintained by school nurses in the Middle, Junior High and High Schools. The function of these

## EDUCATION

units is to administer first-aid and to serve as rest areas for students who have become ill or injured during school hours. Their parents are then notified.

Monovac (T.B.) tests are done on all school personnel as prescribed by law.

Home tutoring is offered to physically handicapped students until they can return to the classroom. Number of students enrolled in this program last year—10.

Home Visits are made by the school nurses when necessary. These help to serve as liaison between the school and the parent.

We wish to thank the many resource agencies in this town who have given us their support. Any measure of success we may enjoy depends on the joint effort of all involved.

## REPORT OF THE

### LEARNING DISABILITIES PROGRAM

Elizabeth J. Caron

The Learning Disabilities program continues this year in the elementary schools. This tutorial service provides help for students who have visual or auditory learning problems. Individual help is given on a bi-weekly basis to the fifteen most disabled students and resource information is available for those not accepted.

Student placement and evaluation is in part a team effort based upon teacher comments, special testing and reports from guidance and social work personnel. The primary objective of the program is to design an educational plan for the student based upon his individual strengths and weaknesses so that in approximately one year's time he may be released from this program and profit from usual classroom instruction.

The following is a report of students tested and admitted to the program so far this year:

School	Tested	Admitted	Released	Present
Central	17	5	1	4
Edison	16	6	2	4
Emerson	5	2	0	2
Lafayette	12	4	0	4
Lincoln	5	2	1	1

**EDUCATION****REPORT OF THE  
REMEDIAL READING PROGRAM**

Celia A. Butler

Title I Funds have made possible the continuation of the Remedial Reading Program and the addition of new services. Present staff members are:

1. Mr. Kenneth Johnson, Coordinator.
2. Mrs. Celia Butler, Reading Teacher, and Mrs. Ruth Randall, Assistant, serving the Middle School.
3. Mrs. Evelyn Burrows, Reading Teacher, and Mrs. Doris Chadbourne, Assistant, working in the Mobile Reader and serving the Lafayette, Lincoln, Edison and St. Thomas Schools.
4. Mrs. Mildred Greer, Reading Teacher, serving the Emerson and Central Schools.
5. Mrs. Jean Walker, Remedial Math Teacher, serving Middle School.
6. Mrs. Patricia Higgins, Teacher for Learning Disabilities, serving Middle School.
7. Mrs. Esther Gold, Roving Aide for Grade 1, serving all Primary Schools.

Funds were also provided for the purchase of supplies and materials for the program. Approximately 150 pupils received help during the 1972-1973 school year.

At the request of parents, the proposal for a Summer Reading Program was submitted to the State Title I officials. This was approved and funded by the State Coordinators. Classes were held during the month of July (20 days). The following staff served:

1. Mrs. Evelyn Burrows, Head Teacher.
2. Mrs. Mildred Greer and Mrs. Barbara Chasse, Reading Teachers.
3. Mrs. Doris Chadbourne and Miss Lucy Goulet, Aides.
4. Mrs. Elizabeth Caron, Learning Disabilities.

## EDUCATION

5. Mrs. Deborah Kahn, Speech Therapist.
6. Mr. Roland Normand, Emotional Problems.
7. Mrs. Anna Lou Palmer, Social Worker.

The summer program was both popular and successful in achieving its proposed goals. Pupils attending received the additional instruction and support necessary to sustain skills and bolster their enjoyment of reading.

Both the regular and the summer programs are part of a very worthwhile service to the children of Sanford. The addition of math and learning disabilities specialists at the Middle School, and the First Grade Aide is of great value in caring for pupil needs.

## REPORT OF THE SCHOOL SOCIAL WORKER

Anna Lou Palmer

As in previous years, I continue working in homes, schools and the community in an effort to strengthen these relationships. My aim is to help any child referred to me have a more successful school experience.

I make at least weekly visits to our parochial school and the seven public elementary ones. When emergencies occur I can be contacted at the Middle School, where I have an office. Many of the referrals seem to need only a single home visit. Others involve quite complicated situations where patience, understanding, and case work knowledge is necessary. Numerous resources in the community and schools are frequently used.

I have been encouraged in my work this year for several reasons. First, more professional help is now available due to the increased staff in the York County Counseling Services, the Human Relations Services, divisions of the State Department of Health and Welfare, and in our school system. Secondly, a number of young people are being concerned and helpful friends to younger children. Three groups in particular have requested names of children who I feel could benefit by such a relationship. They are the Key Club's Big Buddies, Nasson's Project Pals and also their Big Brother Program. Thirdly, I helped plan a series of seven meetings in which the goal was to prevent school problems. Headstart and First Grade mothers apparently found these worthwhile. Thus another similar series is now being planned.

## **EDUCATION**

By furthering the cooperation between the school, the home and the community, I feel that I am helping our elementary children come closer to their emotional and academic potential.

### **REPORT OF THE SPEECH THERAPIST**

Donna L. Ridley

This is my first year as the speech therapist for the Sanford school system. I serve a school population of 1900 elementary children, kindergarten through the sixth grade. I travel to each of our eight elementary schools, including St. Thomas.

At the beginning of the school year, I instituted a referral program for locating children with specific speech problems. The teachers and principals of the various elementary schools referred children to me to be tested.

During the months of September and October I did some intense testing of approximately 90 children. Aiding me once a week during this time was Dr. Bernard Henri, from York County Counseling Services. His help and knowledge has been and will continue to be an asset to the speech program in the Sanford schools.

On October 29, 1973, I began doing individual and group therapy with approximately 45 children who were speech handicapped.

I am very pleased to be working in my home town in the capacity as speech therapist. A successful speech program depends on parent, teacher, and student cooperation and I feel we can all work together for the benefit of these students.

### **REPORT OF THE DIRECTOR, TITLE I ESEA (Public Law 89-10)**

Kenneth Johnson

Federal monies in the amount of \$71,476.00 were allocated to the Town of Sanford, Maine to finance the activities and programs of Title I ESEA for the fiscal year 1974, which commenced July 1, 1973. Of this total the sum of \$59,419.00 was allocated as the municipality's proportionate share of the money granted to the State of Maine by the Congress of the United

## EDUCATION

States. \$22,057.00 of the total allocation was granted as an incentive to invoke new programs and provide for new services. The incentive grant was a one year allocation, however, and will not be forthcoming in the future.

The \$59,419.00 allocation was used to continue the program which has been operative for the past six years and has proven to be successful. This program provides the Mobile Reading Laboratory, Remedial Reading Teachers and supplies and equipment for their program, the services of a Kindergarten Aide for each Kindergarten teacher, a specialized testing service, and a portion of the cost of psychological services for the school system.

The \$22,057.00 incentive grant was used to implement much needed remedial mathematics and learning disabilities programs in grades 4-6 at the Middle School. Also provided through this special grant was the services of an aide for the first grade teachers. This person travels from school to school working with the first grade teachers at each school one day per week.

It is hoped that supplemental funds will be allocated before the close of school in June thus enabling us to continue the very successful summer remedial reading program which we have conducted in the past several summers.

I wish to take this opportunity to thank all of the people who have been involved in these programs over the past years. In my opinion, it has been these people that have been responsible for the success of the programs.

I have derived great personal pleasure over the years in seeing the programs I have written become reality; however I feel that the Town of Sanford is missing many opportunities to obtain Federal funding, not only in the area of education, but in many other areas of municipal government, by not employing a full-time person to seek out and obtain Federal Funding. Many towns and cities in Maine are getting much more money for projects than Sanford simply because they have done this.

## REPORT OF THE ART CURRICULUM COORDINATOR

Hazel M. Harrison

As coordinator of the Art Education Program I am pleased to submit the following report to the parents of the children whom we teach.

## EDUCATION

We now have three art people in the school system: Maryann Michaelson at the kindergarten through grade three; Linda Lanphier at the Middle School and Junior High and the writer at the High School.

At our departmental meetings we find that we are in agreement as to our philosophy of teaching which makes for a continuity in the sequence of learning experiences. This philosophy embodies an appreciation for each individual child and his attempts in discovering his own identity and creative potential at whatever stage we find him regardless of age or grade level. We feel that art is more a developmental activity than a body of subject matter. Therefore among our teaching goals it is hoped that through exposure to a wide range of art and craft experiences and the introduction to a graded sequence of skills every student will have the opportunity to develop the illusive qualities of aesthetic awareness, creativity and feelings of self-actualization. Another objective is that each individual come to have a feeling of achievement in one of the many medias of expression and acquire a lifelong interest or perhaps a basis for a choice in career.

The four major areas of experience offered at each grade level are the following:

1. Graphic Expression
  - a. Drawing, painting and lettering
2. Design
  - a. Selecting, arranging, decorating
3. Craft and Construction
  - a. Making articles from materials
4. Appreciation
  - a. Observing, discussing

Due to a number of variables the emphasis at all grade levels changes according to student abilities, interests and needs. For example, manual dexterity and freedom of expression is a primary concern at the lower end of the scale with a gradual shift mental concepts and techniques at the top level. Overall we are working for a well balanced program of instruction.

In closing we would like to say a word of appreciation to the administrators who are in support of our efforts and a thank you for a community which we feel is art oriented and most helpful in sending us children with a high degree of interest in our teaching area.

**EDUCATION****REPORT OF THE  
FOREIGN LANGUAGE CURRICULUM  
COORDINATOR**

Louis F. Dapas

Modern Languages begin in Grade 4 with French, and continue through Grade 12. In high school, Spanish and Latin are also taught. The same program is used in French from grades seven through twelve. The elementary program has been written by the language coordinator to compliment the junior high program. Presently, the teachers are working on standardizing all testing in grades seven through twelve. They are also working on achievement tests to be given after each level of language is completed. These achievement tests will enable teachers to measure more accurately each student's performance.

The grouping of students needs improvement. In many beginning classes, at least half of the students have been exposed to French through their Franco-American heritage. These students should and must be given special consideration in their placement. The non-French speaking element should not be asked to compete with them in the same classes.

It is also hoped that by the end of the year, French in the junior high and middle schools will be on an elective basis.

**REPORT OF THE  
HOME ECONOMICS CURRICULUM  
COORDINATOR**

Jean W. Jones

An introductory or exploratory program in home economics is required of all 7th and 8th grade girls enrolled at Sanford Junior High School. This program provides basic experiences in the areas of Foods & Nutrition, Clothing, Grooming & Textiles, Child Care, Personal & Family Relationships, Housing & Home Decoration, Family Health Care, and Consumer Buying.

At the senior high school, home economics is offered on an elective basis to boys as well as girls who would choose to take it. These students may choose from the traditional 3

## **EDUCATION**

year sequential program leading to advanced skills in home economics, or they may elect from the new semester offerings in the areas of Boy's Cooking and Psychology of Family Living. In addition, a full year program in Career Education is available to any student desiring individualized guidance in career selection.

A relatively new approach at the high school level is that of individualized instruction which is student-centered rather than teacher-centered. With this approach to learning, each student may progress at his or her own rate and with a higher degree of success than is possible with the traditional approach. Individualized instruction also allows for more creativity from each student.

Plans for future program expansion include a wider range of electives for both boys and girls and an expanded Career Education program to include Kindergarten through adult levels.

## **REPORT OF THE INDUSTRIAL ARTS CURRICULUM COORDINATOR**

William R. Brazier

The industrial arts teachers of the Sanford junior and senior high schools have held two joint meetings as of this date. The meetings have been held on the system-wide workshop days. The first meeting was held at the junior high school, where we discussed the facilities and curriculum of the junior high industrial arts program. At the second meeting, which was held at the high school, we discussed the present high school industrial arts program, as compared with the junior high program.

At future meetings we will be examining curriculum programs which are currently being tried in other systems. One of the most popular which we will study is the Industrial Arts Curriculum Project (IACP), by McKnight-McKnight Publishing Co. The IACP is a comprehensive industrial arts program designed for grades 7-12. Also included in our study will be industrial arts programs which are recommended by the Department of Education in several states.

It is hoped that as we look into these various programs we will find new ideas and better ways of coordinating the curriculum of our present industrial arts programs in the junior and senior high schools.

**EDUCATION****REPORT OF THE  
LANGUAGE ARTS CURRICULUM  
COORDINATOR**

Thomas Kane

An extensive study has been made to determine the progression in the language arts program from grades K-8. The committee has learned at which grade level each language concept is introduced and where and how it is implemented thereafter. A study has been initiated to evaluate the texts and materials used at the various grade and ability levels. The need for revisions in the program will be determined after the data has been collected and carefully considered.

At the secondary level, the English department has completed a detailed study of its program. As a result, grades 9 and 10 are grouped homogeneously on four levels, including a developmental division. Students in grades 11 and 12, with the exception of the developmental groups, are provided with an elective program consisting of various nine and eighteen-week courses. Revisions in this new program are being made as problems develop.

**REPORT OF THE  
MATHEMATICS CURRICULUM COORDINATOR**

Georgette Kostis

A committee of six teachers representing different grades has been formed to work on the math curriculum for K-12. Also a teacher from each grade or subject area will act as a consultant as a particular need arises.

The committee has had several meetings at which several problems have been imposed such as the introduction of the metric system, extensive overlapping of basic mathematical material, individualized instruction, and the offering of vocational courses at the high school level. Also a brief outline of work concerning philosophy, the development of a sequential mathematics program, the writing of behavioral objectives, and some solutions to the above problems has been set up.

## EDUCATION

### REPORT OF THE MUSIC CURRICULUM COORDINATOR

Donald S. Parsons

Music instruction in the Sanford-Springvale public schools is provided by a staff of four teachers, three in the vocal-general area and one instrumental teacher.

A full program of elective performance groups, both instrumental and vocal, is offered from grades 4-12. In 1973 the Middle School Band and Chorus have each presented assemblies and evening programs. The Junior High School Band engaged in joint concerts with Brunswick Junior High School and has participated in parades in the community. High School music activities have included a Christmas Concert by both band and Glee Club, a highly successful concert trip to Nova Scotia by the Band, a Glee Club production of Lerner and Loew's "Brigadoon" and Glee Club exchange concerts, the annual Band Pops Concert, Pep Band and Marching Band activities at school athletic events, and numerous appearances in the community by vocal ensembles. Sanford High School student musicians have been honored by selection for Western Maine and All-State Music Festivals. Miss Paula Keefe, SHS '73, was chosen for the All-Eastern Music Festival held in Boston.

In contrast to the active and growing program of musical performance activities, the program of classroom music instruction has been stretched thinner. In order to provide at least some music instruction in the elementary schools, the instruction time at the Middle and Junior High Schools has been correspondingly reduced. Pupils in grades 1-8 receive only 30 to 45 minutes of music instruction time per week.

Because one instrumental teacher must serve the needs of pupils in grades 4-12, there are no instrumental section rehearsals at either the Junior High School or the Senior High School level, and string instrumental instruction is not offered at all.

In planning to meet Sanford-Springvale present and future music needs, the highest priority must be given to adequate staffing. Only then can the present program continue to meet and even surpass the expectations of a music-conscious community.

**EDUCATION****REPORT OF THE  
PHYSICAL EDUCATION CURRICULUM  
COORDINATOR**

James W. Dunn

The first meeting was held October 9, 1973 at the Middle School with a workshop day.

**Committee**

James W. Dunn	High School	Chairman
Mrs. R. Faulkner	Emerson School	Secretary
Miss Collette	Edison School	
Mrs. Bennett	Edison School	
Mrs. Boothby	Central School	
Mrs. Bridges	Lafayette School	
Mrs. R. Farnsworth	Lincoln School	
Mrs. Evelyn Skimin	Middle School	
Michael Camire	Junior High School	
Richard Farnsworth	Senior High School	

Programs for the Middle School, Junior High School, and High School have been formulated for the complete year and are now in effect.

Elementary schools 1-3 are to have physical education 3 periods a week lasting for thirty minutes each.

Programs are now being planned consisting of exercise, games, and dances.

Budgets for equipment in elementary schools are being made out, large equipment to be transferred from one school to another.

Problems that confront us:

1. Very little equipment in the lower grades
2. Different class schedules in each school
3. Lack of space for indoor activities

Administrators and teachers are eager to have the programs succeed, and are giving their full cooperation.

## **EDUCATION**

### **REPORT OF THE READING CURRICULUM COORDINATOR**

Roger R. Grondin

The present organization of the reading program in the Sanford Public Schools is a continuation of the past several years but now includes all pupils in Grades 1-6, who are placed at appropriate levels for instruction. Groupings are flexible to allow pupils to progress at their own individual rates. A wide variety of materials are used to provide for pupil needs as indicated by diagnostic testing and other evaluation procedures. Because of the great diversity of pupil achievement and ability, purchase of additional equipment and materials becomes a necessity. This is over and above the annual replacement of obsolete and well-used texts and expendable supplies.

The series of achievement-reading placement tests developed by the local staff to be used in grades 3-6 were revised during the past year and will be further evaluated and necessary changes made before the spring, 1974, administration. Additional tests are planned as needed when older texts are dropped and newer ones adopted.

Constantly changing educational needs within community schools require frequent and continuing study by staff and administration. Bi-monthly workshops are providing for a system-wide survey of overall needs and for establishing goals. However, one of the greatest problems resulting from a flexible program such as ours, is that of scheduling adequate time for daily cooperative planning of instruction. Because of the many daily non-teaching duties of the staff members, it is not always possible for the two or three teachers involved to be free during the same time period.

### **REPORT OF THE SCIENCE CURRICULUM COORDINATOR**

Shirley C. McIntyre

Meetings have been held with each of the principals of the senior high, the junior high and the Middle School. With their help and the help of the elementary supervisor, a curriculum committee has been established. The aims of the committee are:

1. To develop a philosophy for science education K-12 in the Sanford schools.

## EDUCATION

2. To determine a curriculum K-12 which will implement this philosophy.

3. To develop behavioral objectives to be used as a standard for teacher performance and accountability.

The committee is composed of:

Shirley McIntyre, Coordinator .....	Junior High
Roland C. Gagne .....	Senior High
Keith Kalman .....	Senior High
Eldon Woodman .....	Junior High
Larry Ryan .....	Middle School
Edith Butler .....	Edison School

A reference file listing teachers' names, locations, assignments, class schedule and educational background has been established. It is hoped this can be used to facilitate a greater use of existing equipment and teacher talents. This file should also benefit administrators and coordinator in observation of teacher performance or special projects.

There is need of a second file of an inventory nature which would list portable science equipment (i.e. mercury barometers, planetariums, film strips, etc.) that would be available to supplement units of study at other levels or in other buildings.

During the year, the coordinator will visit each school to meet with the science teachers for constructive suggestions or criticism or to offer help in any way possible. It is hoped the entire faculty can meet in a discussion group to acquire a better understanding of the aims and needs of each of the levels of instruction, K-12.

## REPORT OF THE SOCIAL STUDIES CURRICULUM COORDINATOR

Jacqueline M. Johnson

In order to develop a sequential K-12 Social Studies Curriculum, much groundwork was laid last year by an initial volunteer study committee of which I was a member. It is my good fortune that some of this original committee continues to serve on the current committee. They are: Mrs. Jacqueline Shaw, Junior High School, Mrs. Pauline Bennett, Edison School, and Miss Carlene Gagnon, Lincoln School. New members of the current committee are Dr. Harry Boothby, Senior High School, and Mr. Harold Metcalfe, Middle School.

At our first committee meeting this fall our immediate goals were:

1. To establish a Social Studies Philosophy
2. To compile a list of content areas K-12
3. To devise a uniform format for stating concepts and behavioral objectives

## EDUCATION

### 4. To develop behavioral areas for all content areas

At the time of this report, the first two objectives have been realized except for review and approval by administrators and teachers. As coordinator, I have been meeting with teachers, either at their respective schools or as individuals, to ascertain their opinions and ideas before submitting our recommendations to administrators and subsequently to the Superintendent of Schools.

I feel that once a K-12 program is accepted and agreed upon, it will become my duty to facilitate the implementation of such a program by keeping open the lines of communication between schools and teachers, assisting in the continued development of behavioral objectives, and providing meaningful workshops for the teachers.

In my opinion the behavioral objectives developed are essential to a successful Social Studies Coordinated Curriculum. In addition to providing the teacher with a means of individualizing instruction in the classroom, these objectives will also serve in judging teacher performance and accountability.

## REPORT OF THE MAINTENANCE SUPERVISOR

Roland Carrier

### Sanford High School

Some minor repairs and replacement of material items, such as door, floors and ceilings were made. Painting in several classrooms was made. Doors and toilet fixtures were repaired. One hot water tank was replaced.

The elevator was modified to carry passengers.

Heating units were replaced and repaired throughout the building.

### Junior High School

Six classrooms were completely painted during the summer. The metal door jambs located in the classrooms and hallways were also painted.

The concrete floors in the shower, dressing rooms and the former industrial arts shop were also painted during the summer.

The hot water boiler was cleaned and inspected twice during the year.

Two new, hot water circulating pumps were installed last August. These pumps replaced the original pumps installed in 1958. A secondary pump was also installed.

The chimney being repaired, a six foot long crack had developed after being struck by lightning.

All fire extinguishers were refilled and tagged.

## **EDUCATION**

### **Junior High Annex**

The maintenance crew had a busy summer in this building. We built two new classrooms in the former agriculture shop. A wall was demolished in order to enlarge one classroom to 900 square feet. Fireproof ceilings were installed. There were also new doors put in, floor tile, mop boards, light fixtures, greenboards and heating ventilating ductwork completed. The entire area was painted. Wiring and plumbing had to be modified to some extent in order to accompany these two classrooms.

A new intercom system was installed connecting the main building and all new classes and shop.

The hot water boiler was cleaned and inspected twice during the year.

### **Central School**

Six rooms were painted. All tile floors were stripped and waxed. Some plumbing and light fixtures were repaired.

A classroom was converted into a cafeteria. The serving counter, refrigerator, hot water tank, and the three-well sink from the Hamlin School were transferred here.

### **Edison School**

The two hallways and four landings were painted. A fence was erected at the rear of the school; the fence was salvaged from the Hawthorne School. Some hot top patching was also done in the rear and north side of the school.

A new telephone conduit entrance was put in.

The boiler had its annual cleaning and checking last summer. It was also inspected twice during the year by the insurance company.

All fire extinguishers were checked and refilled.

### **Hamlin School**

This school was permanently closed down in June. Our maintenance crew moved all furniture and supplies to Central and Lafayette Schools.

Plywood panels were installed over the windows at the rear of the school to prevent glass breakage and unwarranted entry.

All utilities were disconnected, such as telephone, water, sewerage and electricity.

Anti-freeze liquid was added to the plumbing fixtures in order to prevent damage from freezing weather.

The playground equipment was taken down and stored at Junior High Annex.

All light fixtures were salvaged and re-installed in various schools.

## EDUCATION

### Hawthorne School

This school was permanently closed down in June.

Our maintenance crew moved all furniture and supplies to Central School.

The hot water tank was removed and re-installed at Roosevelt School.

All hot lunch supplies were moved to the main cafeteria.

All utilities were disconnected, such as telephone, electricity, water and sewerage. Anti-freeze liquid was added to the plumbing fixtures to prevent damage from freezing weather.

The fence was taken down and re-installed at the Edison School.

### Lafayette School

All cafeteria furniture—tables and chairs—were painted.

Four large bulletin boards in the hallways were installed.

The cement steps leading to the playground from Brook Street were rebuilt like new.

The driveway was hot-topped.

Some plastering was done in various classrooms and hallways.

Some fence repair work was also done.

The boiler was cleaned and checked. It was inspected twice by representatives of the insurance company.

### Lincoln School

Two coats of roof coating were applied to the roof.

A retaining wall, 181 feet long, was constructed on the south side of the playground. The fence was re-installed on top of the wall.

The driveway and part of the playground on the west side was hot-topped. This completes the hot-topping program.

Some plastering was done in various classrooms.

The boiler was cleaned and also checked twice by insurance inspectors during the year.

### Middle School

The revising and conversion of the wiring project started two years ago from single to three phase is now completed.

All new panel boxes and mains were installed.

New combustion chambers in two of our boilers were built by a contractor. The boilers were cleaned and inspected twice by the insurance representatives.

Part of the lawn on the north side was converted into a play area by hot-topping from the school to the American Legion Home.

## EDUCATION

A new underground telephone cable was put in by the telephone company in August.

The air compressor was repaired. A damaged and rusty old lamp pole was removed in front of the school.

### Roosevelt School

Four classrooms were painted. New bookcases were made for the basement classrooms.

A sixty-year-old water main was replaced by a plumbing contractor.

Two dead trees were replaced by two small maple trees planted by the Sanford Park Department.

A new 200 amp. electrical entrance was installed.

The driveway on the south side was hot-topped. This completes the hot-topping program.

The boiler had its annual cleaning and checking last summer. It was also inspected twice during the year.

The hot water tank was replaced with the one from Hawthorne School.

A "local" fire alarm was also installed and inspected by Sanford's Fire Chief.

### Memorial Gym

About 300 gallons of roof coating was applied to the roof this summer.

The hot water generator regulator was sent to the factory for repairs. A new safety valve was also installed on the generator.

The dressing and shower room downstairs was painted.

The tunnel, balconies, landings, dining room and concession area floors were also painted.

Some of the damaged seats on some bleachers were replaced. The main entrance lobby was also painted.

A new shower system was installed upstairs on the boys' side with ten new timed push button flush valves that replaced an old seven shower system which had no controls except for one main shutoff.

The exterior east wall was pointed and waterproofed by a contractor.

The main floor and stage areas were re-sealed during the month of August. All fire extinguishers were refilled and tagged.

# ANNUAL REPORT

## of the Selectmen, Assessors and Overseers of the Poor

---

January 1 to December 31, 1974

---

The Town of Sanford has seen progress in many areas in spite of economic problems that are being experienced in the Town, County, State and Nation.

The installation of a storm water drain and the rebuilding of a portion of School Street have been completed. This project was part of a long-range plan to separate storm water and sewerage and we hope as each project is completed in this plan that problems will be eliminated.

1974 has been a year of planning for the renewal of the Winter Street Bridge and the widening of the intersection of Main and Winter Streets. The work is scheduled to begin in March of 1975 and should be completed before the year is over. Of course, this will create inconvenience for a while, but we feel that the results will be of great benefit to the traveling public.

The airport comprehensive plan has not been completed as yet but we expect to have it ready shortly. The lighting system on Runway 8-26 should be completed by the fall of 1975. The preliminary planning is in process now.

The roads and utilities at the Industrial Development Park have been completed and some brush has been cleared in order to make the area more attractive to industry. While no one has located in this area as yet, hopefully we will be able to attract new industry in 1975.

The Board of Selectmen and several representatives of the people of Sanford visited the State of Washington to observe first hand a modern refinery in action. We are pleased to report that it was the opinion of the group that the Town could live very easily with a refinery such as the one visited in Washington. We feel that such an industry in Sanford would be beneficial to the economic condition of the Town.

The Selectmen were very happy that they were able to keep the tax rate the same as the previous year and, in view of the present economic situation, we are hopeful of keeping the tax rate at the same level in 1975. Of course, this depends on the amounts raised at the town meetings.

The Selectmen are very appreciative of the work of the Warrant Committee and the Planning Board and wish to thank their clerical staff, all Town departments and all elected and appointed officials for their cooperation and help during 1974 and are looking forward to another progressive and successful year in 1975.

Respectfully submitted,

NORMAN S. HALL

EMILE D. COTE

PAUL L. GARVIN

Selectmen of Sanford

January 31, 1975

**REPORT OF THE CLERK OF**  
**SANFORD FIRE DEPARTMENT**

---

January 1, 1975

To the Municipal Officers of the Town of Sanford:

I hereby submit the report of the Sanford Fire Department from January 1, 1974 to December 31, 1974.

The Sanford Fire Department, Sanford Station, responded to 315 calls:

270 Still Alarms (5 false, 5 mutual aid)  
45 Box Alarms (11 false)

In addition to these activities the station held six (6) drills.

Total feet of hose laid .....	23,440
Total feet of ladder raised .....	2,194
Total miles apparatus traveled .....	2,289.9

Respectfully submitted,

DONALD R. TURNER, Jr.

Clerk, Sanford Fire Department

Sanford Station

**PROTECTION OF PERSONS AND PROPERTY****REPORT OF THE CLERK OF  
SPRINGVALE FIRE DEPARTMENT**

---

January 1, 1975

To the Municipal Officers of the Town of Sanford:

I hereby submit the report of the Sanford Fire Department, Springvale Station, from January 1, 1974 to December 31, 1974.

The Springvale Station responded to 109 alarms consisting of:

- 11 Box Alarms
- 3 Box Alarms (false)
- 80 Still Alarms
- 4 Still Alarms (false)
- 11 Still Alarms (mutual aid)

In addition to these activities the station held six (6) drills for a total of 720 manhours of fire fighting training.

Total feet of hose laid .....	14,245
Total feet of ladder raised .....	769
Total miles vehicles traveled .....	1,934

Respectfully submitted,

RICHARD G. PELLETIER

Clerk, Springvale Station

**PROTECTION OF PERSONS AND PROPERTY****REPORT OF THE FIRE CHIEF****SANFORD FIRE DEPARTMENT**

January 1, 1975

To the Municipal Officers of the Town of Sanford, Maine

The Sanford Fire Department consists of two stations, one located in Sanford and one located in Springvale. There are eight men on duty twenty-four hours a day, five at the Sanford Station and three at the Springvale Station. They work an average of fifty hours a week.

There is one chief, twenty-seven permanent men, sixty-six call men (thirty in Springvale and thirty-six in Sanford) and one part-time secretary.

During 1974 we had the following change in personnel:

Appointed:	1 Private
Resigned:	1 Private
Promoted:	1 Private to FD-3

Equipment and Apparatus:

Presently, the Sanford Fire Department has the following apparatus:

- 2 pieces of aerial equipment
  - 1 100' ladder truck - 1972
  - 1 70' aerial platform - 1963
- 4 front line pumpers
  - 1 500 gal. per minute pump - 1964
  - 2 750 gal. per minute pumps - 1951 and 1962
  - 1 1500 gal. per minute pump - 1974
- 2 500 gal. per minute reserve pumpers - 1935 and 1948
- 3 all-wheel drive brush trucks - 1941, 1941 and 1954
- 1 all-wheel drive permanently housed in the Springvale Station owned by the State of Maine
- 2 14' boats and trailers
- 1 Chief's car - 1970
- 1 Pick-up Truck

Most of the maintenance repair work is done at the stations by the mechanic, keeping costs at a minimum.

## PROTECTION OF PERSONS AND PROPERTY

### Ambulance

The Sanford Station has two ambulances. They are operated by thirteen licensed ambulance attendants.

The ambulance responded to 788 emergency calls for a total of 9451.1 miles traveled. Of these calls forty-seven were either false or no patient calls for a total of 307 miles.

January	78	calls	597.8	miles
February	50	"	575.5	"
March	52	"	460.6	"
April	71	"	638.9	"
May	63	"	891.0	"

September	62	"	999.1	"
October	77	"	1105.6	"
November	71	"	764.5	"
December	76	"	854.0	"

### Public Relations and Safety

Tours of both the Sanford and Springvale Fire Stations were given by the officers. Approximately 1,500 children from Sanford and the surrounding towns toured the fire station during 1974.

In September a class was given to all personnel at the Henrietta Goodall Hospital on the use of first aid extinguishers.

In November a five hour talk and demonstration was given to the Henrietta Goodall Hospital staff on evacuation carries, by two of our permanent men.

Also in November a talk was given on the history of the ambulance at the Mousam Lake Grange by one of our permanent men.

During 1974 all ten public schools and also the parochial school were visited and inspected by our inspection officer. A number of the elementary schools were visited and given a program on fire prevention.

The Fire Department requires a written permit on all outside fires. There was a total of 689 permits issued in 1974.

March	105
April	74

## PROTECTION OF PERSONS AND PROPERTY

May	76
June	33
July	23
August	5
September	21
October	25
November	76
December	69

By the granting of these permits, we are able to know exactly the areas where such controlled burning is located, cutting down on many calls.

### **Sanford Fire Department Tot-Finder Program**

The Tot-Finder Program's purpose is to provide a visual aid to firemen, helping them to begin their search in the most critical areas first. HELP is usually needed most by small children. Also, they are usually near to adults whose concern for their children is greater than for themselves in times of stress. This will usually enable us to provide more efficient aid to all in the home, especially at night.

At the fire station we have a cross-file on every family who has been issued a tot-finder sticker by both their name and their address. This way the dispatcher is able to look up the address and find out how many children there are and also their ages. We can also tell in how many bedrooms they are located and on what floor.

### **Training**

The following training courses were held:

State Forestry Simulator Course, held at the Sanford Station. A three hour course, eleven men completed.

Advance Red Cross and Emergency Care, held at the Sanford Station. A forty hour class, thirteen men completed.

Advance Pump School, held at the Sanford Station, A fifteen hour class, ten men completed.

Emergency Medical Technician held at Henrietta Goodall Hospital. An eighty-one hour course, two men completed. This course is good towards four credits at Southern Maine Vocational Technical Institute.

## PROTECTION OF PERSONS AND PROPERTY

There were twelve drills held for the Call Department, six in Sanford and six in Springvale.

The Sanford Fire Department responded to a total of 424 alarms during 1974. Of these alarms fifty-nine were box alarms and three hundred sixty-five were still alarms. A total of twenty were stills that later turned into boxes.

The alarms were broken down into the following groups:

Building Wood Frame: 62 Total

- 16 Appliance
- 3 Appliance Short Circuited
- 6 Smoking

TOWN OF SANFORD, MAINE**

Gentlemen:

I hereby submit my Annual Activity Report of the Sanford Police Department for the year 1974.

The past year again was one of continued progress and improvement of the department.

**Personnel**

The following changes in personnel occurred within the department during 1974:

Resigned: One Patrolman  
Recruited: Three Patrolmen  
          One Clerk-Typist  
Promoted: One Sergeant to Lieutenant

The department was fully manned twelve (12) months of 1974.

As of December 31, 1974 the department was fully manned.

During 1974, the department was saddened by the death of Police Commissioner Lionel Ouellette, who passed away June 23, 1974. Commissioner Ouellette served as a Police Commissioner for 12 years, since January 1, 1962. His services to the department during the 12 years are beyond comment only to say he was an outstanding individual and a great loss to the department.

Officers within the department were assigned and delegated more additional duties as the year progressed. Emphasis was placed in locating and assigning officers to fill much needed areas of responsibility and the result produced a wider scope of activities and team work within the department. Internal organization and assigning officers to key positions produced a much wider range of individual responsibilities.

## PROTECTION OF PERSONS AND PROPERTY

### Training

Training as always remains a priority activity with the department.

A great variety of training schools were attended by members of the department during 1974. In addition to Basic Training at the Maine Criminal Justice Academy in Waterville, Maine, several officers attended specialized training schools while continuing their in-service training within the department. A nine (9) month Reserve Officers Training Program was conducted during 1974. This saw many other police agencies sending individuals to attend this type of continual police training.

Of outside the department training schools attended by members, the following is a list of those schools:

Basic Training Maine Criminal Justice Academy, Waterville, Maine - 3 officers - 28 weeks

Command Training Institute, Wellesley, Mass. - 1 officer - 3 weeks

Civil Disturbance Orientation Course, Fort Gordon, Georgia - 1 officer - 1 week

Police Traffic Services School, Criminal Justice Academy, Waterville, Maine - 2 officers - 6 weeks

Drug School, Criminal Justice Academy, Waterville, Maine - 1 officer - 2 weeks

Uniform Crime Reporting Seminar, Kennebunkport, Maine - 2 officers - 1 day

Advanced First Aid and Emergency Care Course, Sanford, Maine - 1 officer - 14 weeks

Detoxification Law Seminar, Biddeford, Maine - 2 officers - 1 day

All officers attended in-service training subjects as follows:

Crime Scene Searches  
Defensive Tactics  
Pursuit Driving  
Family Crisis Intervention  
Firearms Qualifications

First Aid  
Fingerprinting  
Drug Abuse  
Police Officer Profiles  
New Equipment

Reserve Officers attended nine (9) weeks of Reserve Officer Training in addition to scheduled in-service training sessions.

## **PROTECTION OF PERSONS AND PROPERTY**

Many officers in the department instructed at various training sessions thus gaining knowledge of subject matter and instructional procedures.

Seven (7) members of the department are now enrolled in colleges within the State earning credits towards degrees in Law Enforcement and Criminal Justice.

Officers within the department also instructed at the Maine Criminal Justice Academy in Waterville and at various other Law Enforcement Agencies requesting their assistance. Programs of training were also provided for the local Civil Defense Organization.

Field Training Activities were provided all members in Pursuit Driving and Firearms.

### **Library**

The department library continued to grow with the addition of books to help educate its members through knowledge of laws and police procedures.

### **Specialized Firearms Training**

During the month of September 1974, thirty (30) members participated in the annual Firearms Qualification Program conducted at the Sanford Police Range Facility. Training was also conducted for members of the Wells, Lebanon and Limerick Police.

Of the department members, two (2) qualified as Masters; five (5) as Experts; twelve (12) as Sharpshooters; and eleven (11) as marksmen.

During the year, officers did not participate in any outside competitive pistol matches.

In October, the department held a police firearms training demonstration for the Sanford/Springvale Civil Defense Unit at the Sanford Police Range Facility.

During the year, members of the department molded and re-loaded three thousand five hundred (3500) rounds of ammunition (.38) and six hundred fifty (650) rounds of shotgun ammunition. Four thousand three hundred ninety (4,390) rounds of ammunition (.38) and all of the shotgun ammunition was expended during Firearms Qualifications Firing.

In-service Firearms Training Classes were also conducted during the year prior to the actual firing of weapons on the ranges.

### **Equipment**

The Sanford Police Department is still considered one of the best police departments in the State regarding the variety of available equipment.

## **PROTECTION OF PERSONS AND PROPERTY**

Federal Grants for equipment that was added to the department included a grant of \$7,842.00 for Special Investigative Aids.

During the year, the department's fleet of police vehicles received a face-lifting by having distinctive safety stripes added to their sides and appropriate lettering and door shields.

### **Service and Maintenance**

135 traffic signs were installed new and on a replacement basis by members of the Sign Maintenance Division of the Department. Installed were also 125 new traffic posts. Approximately 100 manhours were utilized on installing signs and another 55 manhours in the actual making of the signs.

Members of the department also re-painted the street traffic lanes during their days off.

### **Building Maintenance**

During 1974, the department saw a complete renovation of the police station. Members of the department first demolished the present interior structure and then a complete face-lifting was accomplished. Paneling was installed, new offices replaced the squad room, and a much needed administrative area finally finished in late fall 1974. It may be noted that much credit is due to the members spending their off-duty time to complete this project.

Members of the department continue to keep the police quarters in fine shape and are continually helping to maintain all equipment owned by the town.

### **Public Relations and Safety**

The following is a summary of those outside the department speaking engagements conducted by members of the Sanford Police Department:

During 1974, five hundred (500) people were spoken to at these various locations on subjects indicated:

Drugs and Drug Enforcement	General Safety
Police Role in the Community	Bicycle Safety
Police Employment	
Alcohol Related State Laws	
History of Police	
Safety Talks	
Law Enforcement as a Career	
Need for Police-Juvenile Program	
Juvenile Delinquency	

In addition to the five hundred (500) people spoken to on the above subjects, five thousand one hundred twenty-six (5,126) students were contacted by talks and tours during the year.

## PROTECTION OF PERSONS AND PROPERTY

Locations of these talks, lectures and speaking engagements are as follows:

PTA Middle School, Sanford, Maine  
 PTA Massabesic High School, Waterboro, Maine  
 Students, Sanford Junior High School, Sanford, Maine  
 Teachers, Sanford High School, Sanford, Maine  
 Teachers, Sanford Junior High School, Sanford, Maine  
 Students, Berwick Junior High School, Berwick, Maine  
 Staff York County Homemakers, Biddeford, Maine  
 Community, Goodwins Mills, Maine  
 Guard Personnel, National Guard, Sanford, Maine  
 Students, Massabesic High School, Waterboro, Maine  
 Teachers, Nason College, Springvale, Maine  
 Students, Nason College, Springvale, Maine  
 Students, Noble High School, Berwick, Maine  
 Rotary Club, Sanford, Maine  
 Lebanon Elementary School, Lebanon, Maine  
 Sanford Elementary Schools, Sanford, Maine  
 Waterboro Elementary School, Waterboro, Maine  
 Sanford Kiwanis Club, Sanford, Maine  
 Sanford Lions Club, Sanford, Maine

172 children and adults toured the station during 1974. These groups included Boy Scouts, Girl Scouts, Brownie Groups, Church Groups and Community Groups.

One officer of the department has programmed a mini-course and conducted several of these courses at the Junior High School in Sanford.

Public Relations for the department is of prime importance. The Sanford Police Department Color Guard for instance, won the American Legion 1974 Color Guard Competition for the State of Maine. This was accomplished during the State American Legion Convention in Sanford in 1974. The Color Guard, an outstanding unit representing the police department and the town competed in town as well as out of town during the year. This unit has been a great asset to us and has been commended many times.

In 1974, 2100 bicycles within the town were registered by members of the department.

### Patrol and Traffic

In 1974, 148,429 miles within the Sanford and Springvale area were patrolled by members of the department. Patrol hours consisted of 18,844 hours. Of this 1,844 foot hours are included. During these hours the following work was performed:

Motor Vehicle Summons and Arrests made .....	718
Warnings for Motor Vehicle Violations .....	1505
Defective Equipment Cards Issued .....	1785

## PROTECTION OF PERSONS AND PROPERTY

Motor Vehicle Accidents Investigated .....	716
Parking Tickets Issued .....	745
Criminal & Motor Vehicle Complaints .....	685
Escorts Conducted .....	1240
Radar Hours .....	245
Reports Accomplished (Motor Vehicle) .....	740

The following Traffic Accident Summary is submitted:

Fatal Accidents .....	1
Non-fatal Injury Accidents .....	108
Property Damage Accidents .....	516
<b>TOTAL ACCIDENTS .....</b>	<b>625</b>

Local drivers accounted for 445 accidents. Saturday was the day when most accidents occurred and the type of accident accounting for that type contributing the most was backing.

4:00 p.m. in the afternoon was the most critical time of the day accounting for 56 of the accidents reported.

Traffic arrests and summons issued accounted for the following:

Of the 718 traffic arrests and summons, 650 persons were convicted. Operating under the influence of alcohol and speeding contributed the greatest to the motor vehicle violations.

### Criminal Activity

During 1974, there were 1,406 offenses committed that were known to the police. Of these 1,406 offenses, 380 arrests were made, 148 were cleared by other means and 47 were found not to be actual offenses.

Also during 1974, members of the department investigated 341 non-criminal offenses.

Eighty-one (81) juveniles were processed in connection with criminal offenses reported to the department.

### Comparative Summary of Criminal and Patrol Activity

1973	1974
1,072 Criminal Offenses Reported	1,406 (Increase 23%)
474 Criminal Arrests	380 (Decrease 19%)
766 Traffic Arrests	718 (Decrease 06%)
106 Juvenile Involvement	81 (Decrease 30%)
282 Non-Criminal Investigation	341 (Increase 18%)
564 Accidents Investigated	625 (Increase 21%)
1,240 Total Persons Charged	1,098 (Decrease 13%)
19 Unfounded Reports	47 (Increase 51%)

## **PROTECTION OF PERSONS AND PROPERTY**

For 1974, total number of criminal offenses reported (1406). Total number of reported offenses cleared by arrest, other means or unfounded (656). Percent of clearance of 750 unsolved offenses is 53%.

Thus concludes my Annual Activity Report for the Sanford Police Department for 1974. Many thanks for the assistance and cooperation received from all departments within the Town of Sanford during 1974.

Your interest, assistance and cooperation in the past is deeply appreciated and sincerely desired for the future.

Respectfully submitted,

JOHN C. PRIDE, Chief

Sanford Police Department

JCP/fwg

Lodge .....	1	7,000.00
Breezeway .....	1	250.00
Totals .....	422	\$ 4,752,477.00

There were 25 variances - 17 granted      8 denied

This office now has the full responsibility of enforcing the Maine State Plumbing Code of which 240 permits were issued, which includes 129 permits for the installation and replacing private sewage disposal systems.

Respectfully submitted,

RAYMOND J. CARON

Codes Enforcement Officer

**PROTECTION OF PERSONS AND PROPERTY****REPORT OF THE WIRE INSPECTOR**

**FROM:** Donald H. Gagne, 1974 Wiring Inspector

**TO:** Board of Selectmen

**SUBJECT:** Annual Town Report on Town owned property and buildings, in regards to the electrical wiring and electrical apparatus.

The following school buildings were checked and inspected and to the best of my knowledge were found to be in good, safe condition. I spoke with Head Custodian and School Custodian in each building as to what repair, if any, should be done.

1. Sanford Schools
  - Lincoln School
  - Edison School
  - Roosevelt School
  - Emerson School
  - Middle School
  - New Sanford High School
  - Lafayette School
  - Junior High School
  - Old Vocational School

The following were checked and found to be in good condition:

2. Springvale Town Hall
3. Springvale Fire Station
4. Sanford Fire Station
5. New Sanford Incinerator
6. New Town Farm
7. Sanford Memorial Gymnasium
8. Town Garage
9. Goodall Memorial Library
10. Town Hall Annex
11. American Legion Home
12. Field Service House

## PROTECTION OF PERSONS AND PROPERTY

**HEALTH AND SANITATION**  
**REPORT OF THE**  
**HEALTH OFFICER FOR THE YEAR 1974**

---

To The Selectmen, Town of Sanford, Maine:

As Health Officer for the Town of Sanford for the year of 1974, I herewith submit a report of health activities during the current year.

Caring for vagrants and itinerants who come to town and need care.

Emergency commitments at request of police of selectmen.

Exams for fitness to work at request of selectmen.

Health Calls—tenants about questionable conditions of their rents—cleanliness—sewerage—heat—water.

Daily conferences with town nurse as to problems arising with patients receiving town help. Caring for same when indicated.

Supplying drugs for patients receiving town aid.

Writing of prescriptions for town and patients thru town nurse.

Examine patients at request of selectmen and/or town nurse.

Receive plumbing complaints and investigating same and/or referring them to plumbing inspector.

On call for town and itinerants at request of selectmen or town nurse at all times.

Telephone advice to all who call—these are numerous due to Health Officer classification in phone book.

Receiving and reporting to Augusta Bureau of Health all contagious disease cases reported.

Buying drugs directly from pharmaceutical houses and utilization of sample drugs.

Answering inquiries concerning health inoculations for overseas travel.

---

## HEALTH AND SANITATION

Examination and stamping of inoculation reports for overseas travel.

Investigation "health hazards" (unhealthy living conditions, unsanitary houses, poor nutrition, maltreated or illfed children) at request of selectmen or town nurse.

Examination of elderly living alone—at request of selectmen or town nurse—to ascertain if mentally competent to continue living alone.

Respectfully yours,

A. S. LINCOURT, M.D.

Health Officer

ASL/mml

## HEALTH AND SANITATION

### REPORT OF THE COMMUNITY HEALTH ASSOCIATION, INC.

1974

---

"Prevention" continues to be the watchword in the field of Health Care. Much of our effort has been directed toward this goal in the guise of Screening and Immunization Clinics.

In the Parochial School Program, our nurse arranged clinics for 852 screening and/or immunizations among approximately 350 students in selected grades. Armand S. Lincourt, M.D., is the physician in attendance; Mrs. Annette I. Michaud, R.N. is the nurse in charge.

The monthly Pre-School Immunization Clinics provided 536 immunizations against Diphtheria, Whooping Cough, Tetanus, Polio, Measles, Rubella and Mumps. Dr. Lincourt also attends these clinics, and gives all injections. Mrs. Charlotte A. Young, R.N., is the nurse in charge of this program, and is assisted at the clinics by volunteer Board Members, recruited by Mrs. Helen Parker, R.N.

The Foot Clinics are planned two or three times per year by Mrs. Young, assisted by Miss Shirley M. Austin, secretary. The Podiatrist in attendance is Henry P. Landers, DSC. Over 25 individuals were seen for examination and recommendations.

Attendance at the "Well-Aging Clinics" increased from 861 in 1973 to 956 persons this year. 17% of these were referred to their own physicians for follow-up. Each nurse has certain clinics for which she is responsible, and this includes all facets—from planning to follow-up; Trafton Center volunteers assist with registration. Five new programs were added, including Mouth Examination, Physical Exam Screening, Tuberculin Testing, Hearing Aid Clinic and Breathing Test.

The monthly Blood Pressure Clinics continue to prove their effectiveness, as attested to not only by nurses and individuals, but by the physicians who are able to initiate early treatment in many referred individuals. Mrs. Hazel E. Flagg, R.N., has supervised these clinics since their inception in 1971, and is now assisted by Mrs. Young and Mrs. Michaud.

Those who conducted the programs were: Melvin Bacon, M.D.; Edward W. Holland, M.D.; Armand S. Lincourt, M.D.; Robert W. Vigue, M.D.; Kenneth J. Kornetsky, O.D.; David

## HEALTH AND SANITATION

A. Leipold, D.D.S.; Mrs. Constance Bennett, laboratory technician; Mrs. Martha Andrews, audiologist.

We are all very proud of this unique program, co-sponsored by the Y.M.C.A., and held at the Trafton Senior Center. Dr. Bacon, a Fellow in the American Geriatric Society, is Medical Advisor, and Thomas Milligan is Executive Director of the Y.M.C.A. All programs are cooperatively planned, and have received much recognition and many inquiries from surrounding communities and states. We participated in the Governor's Conference on Aging, and also have a representative on the Cumberland-York and State Health Screening Committees for the elderly.

The Bedside Nursing Program usually consumes all of the morning hours, and some afternoon time. A 10% increase is noted in the number of individuals served, compared to 1973, while the number of home visits increased by 18%, and the number of Physical Therapy visits made by Mrs. Hope Hopkins, RPT, increased 16%. These facts are due in large part to the efforts of Mrs. Barbara Shain, R.N., Nurse Discharge Coordinator at Goodall Hospital. With Mrs. Shain, Physicians, Physical Therapist and CHA Nurses working together, the ideal situation is attained—that of providing those referred to our service with continuity of care in their home, following discharge from the hospital or Nursing Home.

Education is also an integral part of our program. It takes many forms, such as: some 80 meetings, interviews and conferences participated in by our nurses, secretary and board members; formal sessions at Gorham, Mercy Hospital and Togus VA Center; sponsoring our own Dr. Bacon's annual Nurses' Institute; monthly York County Public Health Nurses' Meetings; speaking engagements; nearly 100 home and school visits for teaching and informational purposes; subscriptions to professional journals and magazines; textbooks related to our work; opportunities to obtain and distribute a multitude of health pamphlets and brochures.

At the present time, we are seeking from and sharing with other York County Agencies information and education, exploring the feasibility of forming a Regionalized Agency in the future. Our Board Secretary, Mrs. Doris C. Reando, is CHA representative at these meetings, as well as Vice-Chairman.

Mrs. Anne Kornetsky has for 11 years had charge of the "Christmas Clearing House". Donors and recipients alike of clothing, food and toys have expressed much appreciation for the success of her endeavors in preventing duplication of giving and receiving during the Holiday Season.

Our Agency continues, as one of 18 in Maine, to be certified by Medicare as a "Home Health Agency". This certifying pro-

## HEALTH AND SANTATION

cess becomes increasingly more sophisticated, bringing constant revisions in its wake. The standards are high, the requirements many; our continual attention is demanded by the program. Yet, we learn; we grow; we become more skilled in providing our service.

In April, we realized a part-time nurse was needed to assist in carrying on our program, and Mrs. Annette I. Michaud, R.N., was added to our staff of 3 full-time R.N.'s and one part-time secretary.

We are busy people at Community Health. The Directors are exploring possibilities of a Regionalized Agency, while maintaining operations of our present agency; the Nurses are traveling nearly 10,000 miles per year with their messages of Preventive Health Care, and skills in Bedside Nursing Care; our Secretary continues the endless job of record-keeping, making out forms and compiling statistics.

A contract with the Sanford Housing Authority will soon be signed by our President, Mrs. Christine Kane, and this will launch a new program. Mrs. Michaud will provide Health Services in the areas of Education, Detection and Prevention to the residents of Sunset Tower and Riverview Manor. We are looking forward with anticipation to this new opportunity for Preventive Health Care.

Yes, "Prevention" has been the watchword in 1974, and we are now recruiting participants for a 1975 "Prevention Parade".

Do YOU plan to join the line of march by:

Visiting your physician for an annual physical exam?

Seeking medical care at the FIRST signs of illness?

Having YOUR child fully immunized?

Taking advantage of our Screening Program and clinics?

We need YOU . . . . . Join the Parade!!!

Respectfully submitted,

(Mrs.) Marolyn P. Roberts, R.N.

## RECREATION

### REPORT OF THE ACTIVITIES OF THE SANFORD PARK COMMISSION

1 9 7 4

---

1974 was another year of progress for your Park and Recreation Commission.

Our tree program of cutting diseased trees and removal of stumps continues. Forty-six new shade trees were planted to beautify our community.

The summer series of band concerts were enthusiastically received by large crowds. These concerts were held in the beautiful Gowen Memorial Park Bandstand.

Our parks and playgrounds had good attendance. The picnic areas at Gowen Park and the Springvale Recreation Area were used extensively.

The Park Department Recreation Area swimming program had another outstanding season in attendance and activities.

We continued our skating rink at Benton Playground but the weather played havoc with this program.

Goodall Park again had optimum use with activities scheduled from April to November. Goodall Park was used by the Sanford Park Department Babe Ruth League, American Legion Baseball, Sanford High School Varsity, Junior Varsity and Freshmen Teams, Junior High School Team, SSYAA Midget Football, Sanford High School Girls Field Hockey Team, Fourth of July Activities, Babe Ruth District Tournament and other groups for special events.

We continued work on our softball field and hope to have it completed this summer.

New programs being planned are track, basketball for both young people and adults and band concerts to be held in the Memorial Gymnasium.

Our new tennis courts were opened and were busy until November. The tennis program was outstanding for young people and adults for both lessons and tournament play.

Vandalism is still a problem in our parks, playgrounds and the recreation area:

**RECREATION**

Carpentier Park—Field House had over \$1,000 damage; doors, wall boards and floors broken

Central Park—Destroyed benches and new trees

Goodall Park—damaged fence

Recreation Area—broken boards, fireplaces, toilets, etc.

Gowen Park—damage to the rock walls, trees, fireplace, lights and ceiling in the bandstand.

This is very costly to the people of Sanford. I hope that we can have more control of this problem with the cooperation of the citizens of the Town.

Respectfully submitted,

ROBERT J. BLOUIN

Chairman,

Sanford Park Commission

**PUBLIC SERVICE ENTERPRISES****Town of Sanford****SANFORD HISTORICAL COMMITTEE****P. O. Box 747, Sanford, Maine 04073**

Dec. 26, 1974

Report of Sanford Historical Committee for year ending Dec. 31, 1974

We have continued to receive contributions of interest and value concerning the history of the Town of Sanford.

The nomination of the Thomas Goodall house for inclusion in the National Register of Historic Sites, as reported in last year's report, is now scheduled for consideration by the Maine Historic Preservation Commission on January 29, 1975.

During the year the sum of \$96.70 has been turned over to the Town Treasurer from the sale of town histories. This makes a total of \$8,303.63 so far returned to the town from the sales of this book. •

ALBERT L. PROSSER

Chairman

**TOWN OF SANFORD**  
**AUDIT REPORT**

April 17, 1975

Board of Selectmen  
Town of Sanford  
Sanford, Maine

Gentlemen:

We have examined the statement of financial condition as of December 31, 1974 and the related statements of income and expense, and surplus for the year then ended. Our examination was made in accordance with generally accepted auditing standards and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances, except as explained in the following paragraph.

Failure on the part of the Tax Collectors office to produce a listing of outstanding taxes in time for us to obtain sufficient evidential matter, and discrepancies arising from confirmation of accounts receivable balances.

Since we could not make adequate tests on the receivables, we would like to withhold expressing an opinion on the statements taken as a whole until such time as enough evidential matter can be gathered.

PAUL A. LEROUX, Jr.

Public Accountant

# ANNUAL REPORT

## OF THE

### Sanford School Department

---

**School Committee**

John M. Caramihalis, Chairman  
Aldege S. Gauthier  
George W. Milne  
Bruce C. Carlson  
Joan A. McLaughlin

**Term Expires**

December 31, 1974  
December 31, 1976  
December 31, 1974  
December 31, 1975  
December 31, 1975

**Superintendent of Schools**

Dr. Charles A. Beattie

**Administrative Assistant**

John E. Webb, Jr.

**K-12 Curriculum Coordinator**

John J. Ford III

**K-3 Elementary Supervisor**

Clyde P. Kimball

**Secretaries**

Dolores E. Demers  
Pauline Butler  
Margaret Hill  
Sonia M. McGinnis

**Attendance Officer**

Robert Gerry

**Central Office**

Town Hall Annex, 265 Main Street, Telephone: 324-2810  
Hours: 8:00 a.m. - 12:00; 1:00 p.m. - 4:30 p.m.

**No School Notification**

The "No School Signal" will be sounded only on those occasions when concern for the pupils makes it imperative.

Parents are urged to keep their children at home, even when school is in session, if road conditions in their locality are particularly hazardous.

On the occasions when the "No School Signal" is sounded, there will be no school for all pupils for the entire day.

Official notification will be given whenever possible over the following radio stations: WSME, Sanford; WWNH, Rochester, New Hampshire; WCSH and WGAN, Portland, from 6:20 a.m. on.

The fire alarm will sound four times at 6:45 a.m.

When it becomes necessary to suspend the afternoon session of school, the signal will be given at 11:00 a.m.

**EDUCATION**

**REPORT OF THE  
VOCATIONAL-TECHNICAL CENTER DIRECTOR**

**Frederick A. St. Cyr, Jr.**

**Enrollment:**

Beginning enrollments reflected a marked increase over the previous year. A breakdown by instructional area is as follows:

Applied Science .....	35
Building Trades .....	38
Business—Clerical .....	250
Business—Secretarial .....	64
Child Care .....	28
Co-operative Education .....	43
Data Processing .....	21
Drafting .....	16
Electronics .....	14
Graphic Arts .....	19
Home Economics—Consumer Ed. ....	271
Machine Trades .....	30
Metal Fabrication & Welding .....	30
Power Mechanics .....	26
Special Education .....	10
<b>Total .....</b>	<b>895</b>

Since the beginning of school many of the above have shown additional increases in enrollment.

A total of 71 tuition students were enrolled at the Center on either a part time or full time basis.

**Facilities:**

The addition of new staff and programs has necessitated the renovation of portions of an already crowded building. What was originally the Industrial Arts Drafting Lab now contains one average classroom, an access corridor, offices for the Co-operative Education Coordinator and Vocational Guidance Counselor and a conference area for group counselling and student services.

Industrial Arts Drafting has been relocated in an area originally designed for a plastics and hydraulics lab and in temporary use as a Driver Education classroom.

Special Education is temporarily housed in in Audio Visual room until the present Data Processing/Computer Programming Lab can be sub-divided to house the Special Education Program.

## EDUCATION

### General:

During the past year, in accordance with new legislation, a new Advisory Group was formed representative of the various communities served by the Sanford Center. The Superintendent of Schools and a selected School Committee member from each of the eight school systems and the Regional Vocational Center Director serve on this committee, bringing its membership to seventeen. This has been a major break through primarily from the standpoint of regionalized communication.

In addition, Craft Committees, representative of business and industry, have been mobilized in each vocational area in an attempt to gain valuable input necessary for evaluation and revision of programs.

### Projections:

We have managed to introduce a few new programs without consideration of additional physical space and are rapidly reaching the saturation point. Involvement with the York County Community College programs, Adult Education Courses, In-service programs, Extension courses, etc. in addition to new day school courses may inevitably lead to expanded facilities.

We can envision more vocationally oriented "academic" courses more relevant to the needs of young people, supplemental to their manipulative skills, i.e., related math and science, physics, mini-courses in business skills, etc. I can foresee the need for expanded vocational offerings in order to meet the employment demands of an ever-changing job market from which evolves our technological society.

Presently, through the cooperative efforts of Mrs. Patricia Higgins of the Middle School, two "special" programs are being offered to Middle School students. Exposure to Data Processing and the Computer is being offered during the day and a course in beginning typing convenes after school. Innovative and very successful.

In addition we see the following programs which might be implemented at the Regional Center or as Satellite Programs or a combination of both:

- Nurses' Aid Program (utilizing local hospital facilities)
- Television and Radio Production
- Marine Science
- Hotel/Motel management
- Recreational Vehicle Repair and Maintenance
- Commercial Foods Program
- Environmental Science
- Oil Refinery and Technology

## EDUCATION

We would also impress the need for "Career Orientation" or Career Education beginning in the Elementary Schools in order to develop in our young people an occupational awareness. Combined with this we would recommend "hands-on" activity (Industrial Arts, Home Economics, whatever) in the Middle School Grade levels and eventually to K to 4.

The office area originally occupied by the Vocational Guidance Counselor now is used as an office for the assistant director. Storage areas in the entire facility are at a premium particularly with such an impressive Adult Education enrollment.

### Programs:

The long existant Agriculture curriculum is in the process of a thorough and complete revision to make it more relevant to the needs of both students and business and industry. A program of Special Education has been implemented and is operating very effectively and efficiently under the direction of two highly competent staff people.

Vocational Student Enterprises, a student oriented corporation of the Building Trades Department, is well under way with the construction of their fourth home. This new, split foyer, F.H.A. approved residence is located on West View Drive in the Farview Development and is under the direction and supervision of Roland Hannaford, Building Trades Instructor.

We urge and invite the community to visit the site and observe, first hand, vocational education at its best.

Two Satellite Programs have been added to the Regional Center concept, both programs are in Cooperative Education. One program is at Marshwood High School, Eliot, under the coordination of Sam Johnson. The other at Massabessic High School, Waterboro, under the coordination of Richard Gilpatrick. Several other satellite programs are presently in the planning and research stages.

### Staff:

Malcolm "Mac" Roberts concluded many years of service to the Sanford school system when he announced his decision to retire. Mr. Roberts was Vocational Agriculture Instructor and later named Vocational Guidance Counselor when we moved into the new complex.

Four staff members left their position: Mrs. Jean Jones, Home Economics instructor returned to the State Department of Education as Home Economics Consultant; Miss Faith Bearor, Home Economics instructor and Henry Anthony, Industrial Arts Drafting instructor, accepted teaching positions elsewhere and David Estabrook, Graphic Arts instructor, went into private business.

## EDUCATION

Mrs. Dorothy Johnston was added to the Home Economics staff; Warren Swanson to the Industrial Arts staff and Edward Decie as Graphic Arts instructor.

Dr. Donald Poulin was hired as Assistant Director of Vocational Education and Paul Sadlier as Vocational Guidance Counselor. Mr. John Usher, Machine Trades, was appointed Trade and Industrial Coordinator.

Emphasis might be placed on the utilization of the Vocational Center on a 'round-the-clock, year-round basis. During the next five years we can see the Sanford Vocational Technical Center offering the expanded programs listed previously and possibly others, in grades 13 and 14, culminating in the granting of Associate Degrees.

We owe our success to a supportive and interested community, a dedicated cooperative, well-qualified staff and administration, excellent facilities, and last but by no means least, a student body second to none.

My personal appreciation to all who continue to support quality Vocational Education in Sanford and the surrounding areas.

Respectfully submitted,

FREDERICK ST. CYR, Jr., Director

Sanford Vocational Technical Director

## REPORT OF THE SUPERINTENDENT OF SCHOOLS

Charles A. Beattie, Ph.D.

Citizens of Sanford:

It is a pleasure to submit my third annual report as Superintendent of Schools in Sanford. In 1972, I submitted a "Five Year Plan". This report will update that report and become a new "Five Year Plan".

### Background Information

"Education is preparation for citizenship in its broadest sense. The development of the individual to the limit of his capacity for complete living in our society is the major purpose of education. The home, the school, the church, the community, and many other agencies share in the responsibility for our education. In educating for well-rounded citizenship, the schools are thus not alone in their efforts. Education is a cooperative enterprise."

## EDUCATION

In the last five year plan, dated January 1973, the school philosophy was stated in general terms. However, the above statement by Carter V. Good, dean of Teachers College, University of Cincinnati, states succinctly how the process of education in Sanford should be realized.

Two years ago both the elementary and secondary schools completed exhaustive self-evaluations. As a result of these evaluations the high school has been accredited by and continued as a member of the New England Association of Schools and Colleges for a ten year period. All school buildings and programs in Sanford have been certified by the Maine Department of Educational and Cultural Services for a period of five years.

The Hamlin and Hawthorne Schools were closed in 1973 and turned over to the town. To accommodate some of the elementary students, the St. Ignatius School building has been used for the past two years.

A School Building Needs Committee and a School Building Committee have studied and recommended as the number one priority an addition to the present Junior High School Under the new state law L.D. 1994, school construction approved by the State Board of Education, will be fully funded. However, to date the project has not received State Board approval.

### Facilities

The following outline will allow everyone the opportunity to review expeditiously many of the facts about our school buildings in Sanford:

School	Acres		Built	Renovated	Enrolled	Capacity	Grades
	Site	Play					
Roosevelt	.4	—	1910	1972	277	300	Kndg.
Edison	1.5	1.0	1923	—	192	240	1 - 3
Emerson	.9	2.6	1901	—	203	240	1 - 3
Lafayette	.9	.6	1939	—	173	240	1 - 3
Lincoln	1.0	8.	1923	—	181	240	1 - 3
Middle School	Ample		1940	1969	783	800	4 - 6
Junior High	Ample		1959	—	656	400	7 - 8
High School	Ample		1970	—	1239	1300	9 - 12
				Totals	3709	3760	

## EDUCATION

With the exception of the buildings in our school complex on Main Street, all of the school sites are in need of additional space. The state suggests ten acres plus one acre for 100 students as the minimum size site to be used for school purposes. At this point in time it is recommended that the School Building Needs Committee study the present sites and recommend procedures the School Committee should consider in order to increase the size of the school sites. Also, the Building Needs Committee should study land area in South Sanford, and recommend to the School Committee a section of land that the Town should purchase for a future elementary school building.

### Summary of Facilities

Because of an outstanding custodial staff, a concerned student body, and a dedicated professional staff, our school buildings are in good condition. However, the elementary buildings are on extremely limited sites and some future expansion should be explored.

Following the completion of the addition to our junior high school, a building committee should investigate the possibilities of constructing a new elementary school in South Sanford. This new building should be planned to accommodate any anticipated increases due to the Gibbs Oil Complex, and flexible enough to be expanded to house students from the private school sector. If this new building is constructed to accommodate grades Kindergarten through eight, then the middle school and junior high school could be relieved of overcrowding conditions.

Thus, with the addition to the junior high school, the construction of a new K-8 building in South Sanford, the acquisition of land for the present elementary school buildings, and a more flexible type schedule at the high school and possible Satellite Program, the Town of Sanford would be in a position to accommodate the student enrollment needs for many years to come.

### Programs

Many wonderful things, in the area of programs, have taken place in the school system over the past few years. Some of the changes will be described but not necessarily in any order of importance.

A Curriculum Coordinator has been hired. In only a few months he has started inservice programs, curriculum revision teams, volunteer training programs, a system wide newsletter, and has worked closely with many teachers who requested help in improving and strengthening their classroom technique.

## EDUCATION

Three teachers are working together as a team in an open education program at the Edison School. These teachers have spent many hours during vacation periods, before and after school, and on week-ends preparing materials for classroom use, working to individualize student programs, training parents and volunteers to help in the classroom, and building equipment and furniture to improve the instructional environment. It is still too early to evaluate the effectiveness of the program. However, if dedication, unselfish commitment, and interest in helping each child reach his/her full potential are important elements to a successful program, then this new venture in Sanford cannot fail.

The Middle School has started a self-contained fifth grade class to help accommodate students that function better with a single teacher. Whether this practice will be expanded or not will be decided by a team studying the total school program and the school organization. This Committee made up of teachers, parents, and administrators will recommend program changes to the School Committee for implementation during the 1975-76 school year.

The student enrollment has been divided into five learning groups, called houses, at the junior high school. These houses are structured around a variety of organization concepts—homogenous grouping, heterogenous grouping, multi-level grouping, and open education grouping. Thus, the beginning steps to developing an alternative educational program at the junior high school has been initiated.

The high school program of studies continues to develop along a semester or nine week plan. Following the many choices available in the English area, the teachers in the Social Sciences have divided their courses into smaller and larger units of study. To help the slower student a special needs program has been started at the high school. This new program helps the school system to serve the special needs of students at all levels with the exception of students at the junior high.

It is interesting to note that almost two thirds of the high school students take advantage of one of the many vocational courses offered at the comprehensive high school. Two new programs were initiated in the past few years—Computer Programming and Graphic Arts. Also the Director has been instrumental in developing two Satellite Programs with area high schools. This type of program will expand both in Sanford and in area high schools in order to meet the career skills of the students and adults of Southern York County.

This past summer three teachers and a coordinator spent two weeks in training in Long Island to prepare a local Human Development Education Team. It will be their responsibility

## EDUCATION

to develop inservice programs for teachers and parents, coordinate the various agencies working in the community, and to help develop curriculums to be used in the Drug and Family Living Programs.

The coordination of all personnel working in the special service field has been directed by the Special Needs Coordinator. He has developed the Pupil Evaluation Team, supervised all personnel, presented all evaluations to the state for students in need of placement outside the school system, evaluated all students referred to him by teachers and/or administrators, and developed the first set of evaluation procedures to be used by the special service team.

If the above programs are only a few of the changes that have taken place in Sanford over the past few years, what can we expect in the next five years?

The following list will help everyone understand what the Sanford School System will be doing in order to continue to move in the direction of individualized education.

1. Coordinated K-12 Curriculum

This process will begin with the description of what presently exists, identifying needed areas of improvement, and working to coordinate the curriculum into a fully functioning program.

2. Teacher Center

This center will serve as a clearing house for professional data, house a professional library, act as a base for inservice education, develop and share inservice programs and curriculum ideas with area school systems, and be a distribution center for curriculum and audio visual materials.

3. Teacher Training Program

This program will allow a closer working relationship with colleges and universities presently training teachers. The Sanford School System will serve as a partner with colleges and universities presently training teachers. The Sanford School System will serve as a partner with colleges and universities through the Teacher Corps, Teacher Internships, and Career Education Programs.

4. Open Education

The present programs in operation at the Edison School and at the Junior High School will be expanded to allow more parents and students an opportunity to choose this type of education at the other elementary schools and at the Middle School.

## EDUCATION

5. **Expanded Intramural Programs**  
A school activity program will be developed from grades 4 through 12 that will allow students the opportunity to participate in a wide variety of activities ranging from chess to softball.
6. **Flexible Scheduling Program**  
The present modular schedule in effect at the Junior High School will be expanded to other schools. This flexible scheduling program will allow teachers to cooperate and develop student schedules by teams.
7. **Mini-Course Programs**  
Short term programs will be developed at all grade levels. These mini-courses will allow students the opportunity to change course selections frequently and yet allow the teachers the opportunity to teach a variety of subjects that they enjoy and have some expertise in.
8. **Interdisciplinary Programs**  
Teachers and administrators will develop programs integrating two or more subject matter fields into a unified approach.
9. **Adult Education Programs**  
The present program will be expanded to allow increased offerings in the morning, afternoon, and evening. Not only will the Adult Education Program become more receptive to the needs of the community but the Community College Program will cooperate with the public schools in order to eliminate duplication of effort.
10. **Student Involvement**  
At every level in Sanford, students will be involved in their education. In each school students will be active members of an advisory committee. At the policy making level, students will be elected by the student body to membership on the School Committee. Thus, the group most interested and involved in education in Sanford will have a voice in the educational program.
11. **Alternative Programs**  
Team teaching, open education, self-contained classrooms, learning centers, various grouping plans, individualized instruction, off campus education programs, departmentalized education programs, interdisciplinary teaching programs, computerized instruction programs, etc. will be alternative programs available for parents and students to select in cooperation with teachers and administrators.

## EDUCATION

### Summary of Programs

The Sanford School System will develop programs that will allow flexibility not only in scheduling but in selection. The over-all goal will be to individualize the educational process so that each student will be offered a program that will fit his/her specific needs and abilities. As the students and the teachers become more sophisticated with these programs the closer the school system will come to true individualized instruction.

Once the curriculum guides have been developed and behavioral objectives established, the growth of each child may be measured in specific terms. Although the guides and objectives will be modified, refined, and updated continuously, the teachers and administrators will increase their abilities in the diagnosing techniques and in their abilities to prescribe the right programs for each individual student.

### Personnel

The School Committee had some significant progress replacing and adding needed personnel to the school system over the past few years. However, with the cut in the school budget for the year 1975 the School Committee and the administrators spent many hours deciding which positions had to be temporarily eliminated. Prior to the final staff cuts the School Committee had voted a moratorium on new positions. Thus, because of forced budget cuts and the imposed moratorium the following positions will not be available this coming year:

1. Special Needs Coordinator
2. Social Worker (grades 7-12)
3. Assistant Maintenance Supervisor
4. Three kindergarten aides
5. Music teacher (grades K-3)
6. Nurse (grades K-3)
7. Physical Education teacher (grades K-3)
8. Matron (grades 7-8)
9. Coaches for new athletic activities
10. Library Aide (grades 9-12)
11. Teacher—third grade
12. Teacher—fourth
13. Teacher of Emotionally Handicapped
14. Special Needs Teacher (grades 7-8)
15. School Psychologist

A number of staff members listed as needed in the last five year plan have been hired. But with the elimination or release of the above positions it appears a new list should be made to bring the Sanford School System, eighth largest in the State of Maine, up to minimum standards.

## EDUCATION

Positions	Present Staff	Needed Staff
*Special Needs .....	0	1
*Social Worker (7-12) .....	0	1
Assistant Maintenance Supervisor ....	0	1
Kindergarten Aides .....	3	6
Nurses .....	3	4
Physical Education (K-3) .....	0	1
Music (K-3) .....	0	1
Art (9-12) .....	1	2
*Emotionally Disturbed .....	1	2
Library Assistants .....	2	4
*School Psychologist .....	0	1
*School Psychiatrist .....	0	1
Matron .....	1	2
*Special Needs Teachers .....	2	4
*Learning Disabilities .....	4	6

\* These positions are fully funded by the State of Maine.

Some of these positions are imperative if we are to meet the needs of all our students as mandated by law L.D. 965. The other positions are needed in order to educate the students in the broad spectrum of learning necessary to prepare each student for citizenship as stated in the first paragraph of this report.

The possible regrouping of present positions could improve overall communications in and out of the educational family. An example could be:

- Step 1. Establish Department Chairmen for grades 7-12 in the major subject areas.
- Step 2. Place Language Arts and Social Studies under one chairman and Mathematics and Science under one chairman at grades 7-12.
- Step 3. Establish a K-12 Language Arts-Social Studies Coordinator and a K-12 Mathematics-Science Coordinator.

### Summary of Personnel

The year 1975 will be a sorrowful year for the Sanford School System because of the elimination of a number of staff positions. However, we are optimistic and we believe that in the next five years the Sanford School System will return to the sound, long range staff development program that had been the plan in the past.

## EDUCATION

### Summary of Report

If the Junior High addition is approved and constructed, if the School Building Needs Committee develops plans that will increase the size of the elementary school sites, if the Town of Sanford approves and purchases a site in South Sanford for a new K-8 building, and if a new K-8 school building is constructed then the Town of Sanford would be in a position to accommodate their enrollment needs for many years in the future.

If the eleven program recommendations come to pass then the Sanford School System will be approaching an Individualized Instructional Program not found in any other community in Maine.

If the School Committee returns to a program of staff utilization and expansion commensurate with available funds and needs than the Sanford School System will maintain its position of leadership in education.

### Conclusion

Predicting the future of education in Sanford, or in any community, is most difficult. However, by receiving help from many staff members and friends, the recommendations and proposals made in this report become the thinking and planning of many people.

In the five years ahead we will need schools that will allow the flexibility to drop, revise, or initiate programs as fast as the need arises. Training the staff through inservice programs and hiring new personnel with experience and receptive attitudes will help us to meet this challenge. Old buildings and new buildings must be planned and renovated to allow these programs and staff members to function without interference.

The direction the School Committee and the Town of Sanford decides to follow in implementing the Five Year Plan could have a lasting effect on the youth of this area.

Respectfully submitted,

CHARLES A. BEATTIE, Ph.D.

Superintendent of Schools

January 1975

## EDUCATION

### REPORT OF THE HIGH SCHOOL PRINCIPAL

John R. Parker

#### Enrollment

Our enrollment as of September 10, 1974 was 1260. This was one student less than last year. The enrollment of local students was up 35 while the full and part-time vocational tuition enrollment was down 36 students. Tuition enrollment was 74, all of whom were enrolled as full-time (54) or part-time (27) vocational students. Students were enrolled from Noble (13), Traip (15), Wells (21), and Marshwood (4), on a full-time basis, and from Massabesic (19) and Kennebunk (2), on a part-time basis.

The present freshman class (372) is the largest known class to have entered Sanford High School. Regardless of future enrollment trends the size of this class throughout their tenure here will directly influence the textbook budget in those courses required by law as well as those courses most generally elected by all.

Year	Resident	Tuition	Total
Freshman	365	7	372
Sophomore	267	5	272
Junior	286	39	325
Senior	266	23	289
P. G.	2	—	2
	<hr/> 1186	<hr/> 74	<hr/> 1260

#### Facilities

This is the fifth year in this building and it continues to be utilized to a great degree. Day school, evening school and local organizations attest to this. The condition and upkeep of the facilities are attributable to the care shown by the custodial and teaching staff as well as the general student body.

Our greatest problems are lack of adequate space for study halls and lack of adequate storage space.

#### Academic Program

There are currently 175 course offerings for Sanford High School students. During the past year the following programs have been added or expanded: Science Honors, revised General Science, Algebra 1½, Computational Geometry, English electives, Spoken French, French Cooking, French Phonetics and Pronunciation, Culture and Civilization, Latin American History, Canadian History and Concert Choir.

## **EDUCATION**

A Special Needs program now serves selected students grades 4-12 providing individualized instruction in the basic learning areas and mainstreaming in the elective areas plus personalized counseling. This program is providing much needed services in a heretofore neglected area.

### **Faculty**

The present faculty includes eight new members. Five teachers were hired as replacements and three additional positions were added. The new positions are 2 Special Needs teachers and an Assistant Vocational Director.

In the administration, Rodney Shain and Harry Boothby exchanged positions, with Mr. Shain now serving as Social Studies Chairman and Dr. Boothby as Assistant Principal.

### **Evaluation & Accreditation**

Last year's Annual Report made reference to our year long evaluation study for the purpose of seeking re-accreditation by the New England Association of Schools & Colleges. Continued membership and accreditation for a ten year period was granted as a result of these efforts.

### **Extra Curricular**

Sanford High School's clubs, activities and athletic teams continue to provide dances, productions, concerts and contests for the student body and the public on almost a weekly basis.

New activities this year include: Interact, a student service club sponsored by the Rotary Club; and the Marching Band.

Three Open Houses have been held since September. Freshman parents were invited on September 11th, a general open house on November 19th and a day of parent conferences on December 9th. Many parents took the opportunity to visit us on these days and to explore in detail the programs offered.

### **General**

The student body, faculty and staff are commended for their cooperation and spirit. The Athletic Boosters are especially commended for their efforts in providing lights for the athletic field. Other boosters groups continue in their services to our young folks.

My personal appreciation is extended to all who continue to support quality education in Sanford.

**EDUCATION****REPORT OF THE  
SANFORD HIGH SCHOOL GUIDANCE  
DIRECTOR**

Leland S. Churchill

During the past year the Guidance Department of this school has re-evaluated its purposes, and specific goals have been established. To this end, a few of the highlights of the year have been the following:

1. **Ninth Grade Parents Orientation Night.** This proved to be successful, and many parents took the advantage of following their student's daily schedule and meeting with their student's teachers.
2. **Higher Education Night.** Over fifty colleges and vocational schools participated in this program. A very large group of parents and students attended. It certainly stimulated much interest on the part of students to use the Guidance services more fully in making decisions regarding higher education.
3. **Financial Aid Night.** A program of panelists was presented in which representatives spoke on various types of financial aid. This was a very informative program, and many parents and students participated.
4. **Alumni Day.** This program was held in conjunction with the National Honor Society. It allowed students and teachers to talk informally with recent graduates, and proved to be very constructive and informative.

With the addition of the services of a learning disabilities teacher and a program of special needs, the Guidance Department has been very active in screening students for these programs. These new programs are a vital help in the school's total educational impact on students.

The counselors of this school are presently re-evaluating the group testing program with the aim that a new program be developed to include as well as academic areas of testing, attitudes and interest areas.

Federal law has established protection of the privacy of students through record management. All counselors have been active in evaluating present policies regarding this and in interpreting the recommended procedures for the management of student records.

## EDUCATION

The economy of the country has caused many students to re-evaluate their future goals. This has been a challenge to the Guidance Department to provide a greater emphasis on career oriented programs and a greater amount of career information. A Career Day program is being planned during National Vocational Education Week. Several teachers, in cooperation with the Guidance Department, have planned teaching units in the area of careers.

In conclusion I would emphasize that the direction of the Guidance program this year has been to serve more students and parents and to provide opportunities for parents to become more involved with their students' school experiences. It is only through the active support of the home that students' educational goals can be totally fulfilled.

Respectfully submitted,

LELAND D. CHURCHILL

Guidance Director

**REPORT OF THE****VOCATIONAL-TECHNICAL CENTER DIRECTOR**

Frederick A. St. Cyr, Jr.

**Enrollment:**

Beginning enrollments reflected a marked increase over the previous year. A breakdown by instructional area is as follows:

## EDUCATION

Applied Science .....	35
Building Trades .....	38
Business - Clerical .....	250
Business - Secretarial .....	64
Child Care .....	28
Co-operative Education .....	43
Data Processing .....	21
Drafting .....	16
Electronics .....	14
Graphic Arts .....	19
Home Economics - Consumer Ed. ....	271
Machine Trades .....	30
Metal Fabrication and Welding .....	30
Power Mechanics .....	26
Special Education .....	10
Total .....	895

Since the beginning of school many of the above have shown additional increases in enrollment.

A total of 71 tuition students were enrolled at the Center on either a part time or full time basis.

### Facilities:

The addition of new staff and programs has necessitated the renovation of portions of an already crowded building. What was originally the Industrial Arts Drafting Lab now contains one average classroom, an access corridor, offices for the Co-operative Education Coordinator and Vocational Guidance Counselor and a conference area for group counseling and student services.

Industrial Arts Drafting has been relocated in an area originally designed for a plastics and hydraulics lab and in temporary use as a Driver Education classroom.

Special Education is temporarily housed in the Audio Visual room until the present Data Processing/Computer Programming Lab can be sub-divided to house the Special Education Program.

The office area originally occupied by the Vocational Guidance Counselor now is used as an office for the assistant director. Storage areas in the entire facility are at a premium particularly with such an impressive Adult Education enrollment.

## EDUCATION

### Program:

The long existant Agriculture curriculum is in the process of a thorough and complete revision to make it more relevant to the needs of both students and business and industry.

A program of Special Education has been implemented and is operating very effectively and efficiently under the direction of two highly competent staff people.

Vocational Student Enterprises, a student oriented corporation of the Building Trades Department, is well under way with the construction of their fourth home. This new, split foyer, F.H.A. approved residence is located on West View Drive in the Farview Development and is under the direction and supervision of Roland Hannaford, Building Trades Instructor.

We urge and invite the community to visit the site and observe, first hand, vocational education at its best.

Two Satellite Programs have been added to the Regional Center concept, both programs are in Cooperative Education. One program is at Marshwood High School, Eliot, under the coordination of Sam Johnson. The other at Massabesic High School, Waterboro, under the coordination of Richard Gilpatrick. Several other satellite programs are presently in the planning and research stages.

### Staff:

Malcolm "Mac" Roberts concluded many years of service to the Sanford school system when he announced his decision to retire. Mr. Roberts was Vocational Agriculture Instructor and later named Vocational Guidance Counselor when we moved into the new complex.

Four staff members left their position: Mrs. Jean Jones, Home Economics Instructor returned to the State Department of Education as Home Economics Consultant; Miss Faith Bearor, Home Economics instructor and Henry Anthony, Industrial Arts Drafting Instructor, accepted teaching positions elsewhere and David Estabrook, Graphic Arts Instructor, went into private business.

Mrs. Dorothy Johnston was added to the Home Economics staff; Warren Swanson to the Industrial Arts staff and Edward Decie as Graphic Arts Instructor.

## EDUCATION

Dr. Donald Poulin was hired as Assistant Director of Vocational Education and Paul Sadler as Vocational Guidance Counselor. Mr. John Usher, Machine Trades, was appointed Trade and Industrial Coordinator.

### General:

During the past year, in accordance with new legislation, a new Advisory Group was formed representative of the various communities served by the Sanford Center. The Superintendent of Schools and a selected School Committee member from each of the eight school systems and the Regional Vocational Center Director serve on this committee, bringing its membership to seventeen. This has been a major breakthrough primarily from the standpoint of regionalized communication.

In addition, Craft Committees, representative of business and industry, have been mobilized in each vocational area in an attempt to gain valuable input necessary for evaluation and revision of programs.

### Projections:

We have managed to introduce a few new programs without consideration of additional physical space and are rapidly reaching the saturation point. Involvement with the York County Community College programs, Adult Education Courses, In-service programs, Extension courses, etc. in addition to new day school courses may inevitably lead to expanded facilities.

We can envision more vocationally oriented "academic" courses more relevant to the needs of young people, supplemental to their manipulative skills, i.e., related math and science, physics, mini-courses in business skills, etc. I can foresee the need for expanded vocational offerings in order to meet the employment demands of an ever-changing job market from which evolves our technological society.

Presently, through the cooperative efforts of Mrs. Patricia Higgins of the Middle School two "special" programs are being offered to Middle School students. Exposure to Data Processing and the Computer is being offered during the day and a course in beginning typing convenes after school. Innovative and very successful.

In addition we see the following programs which might be implemented at the Regional Center or as Satellite Programs or a combination of both:

## EDUCATION

Nurses' Aid Program utilizing (local hospital facilities)  
Television and Radio Production  
Marine Science  
Hotel/motel management  
Recreational Vehicle Repair and Maintenance  
Commercial Foods Program  
Environmental Science  
Oil Refinement and Technology

We would also impress the need for "Career Orientation" or Career Education beginning in the Elementary Schools in order to develop in our young people an occupational awareness. Combined with this we would recommend "hands-on" activity (Industrial Arts, Home Economics, whatever) in the Middle School Grade levels and eventually to K to 4.

Emphasis might be placed on the utilization of the Vocational Center on a 'round-the-clock, year-round basis. During the next five years we can see the Sanford Vocational Technical Center offering the expanded programs listed previously and possibly others, in grades 13 and 14, culminating in the granting of Associate Degrees.

We owe our success to a supportive and interested community, a dedicated cooperative, well qualified staff and administration, excellent facilities, and last but by no means least, a student body second to none.

My personal appreciation to all who continue to support quality Vocational Education in Sanford and the surrounding areas.

## REPORT OF THE JUNIOR HIGH SCHOOL PRINCIPAL

Richard J. Damelio

As an educator, it has been my opinion that there are three basic requirements that a school must meet in order to be considered outstanding. First, the atmosphere within the school must be such that every student feels valued and successful. Secondly, that the staff be concerned with developing in students an enthusiasm for learning, and lastly, that the program attempts to respond to the needs of each student.

During my first few months as Principal, I have come to the conclusion that Sanford Junior High School possesses these qualities. These qualities, coupled with the dedication shown by the staff, has made this a very exciting year for the 630 students attending the school.

## EDUCATION

### Program

What has happened is that the Junior High School has been sectioned off into five units which will be called learning communities. Each learning community occupies a certain section of the school and consists of 110 to 150 students and from 4 to 5 teachers. It is intended that this new situation provide your son or daughter with a more personalized and academically more rewarding stay here at the Junior High School.

Another change concerns the modular scheduling set-up that exists at the school. Instead of the 7 period day which existed last year, there are now 15 modules. Each module is 24 minutes in length, and classes will be anywhere from 1 to 4 modules long. One advantage to this type of schedule is that the learning communities will be changing classes at different times, thereby decreasing the amount of movement in the corridor at any given time. Another advantage is that we will be able to provide a more flexible scheduling arrangement. Classes such as Science and Industrial Arts will be as long as 4 modules, whereas classes such as Math may be only 2 or 3 modules in length.

Students in Learning Community II have many of their classes in a large open room and adjoining Science room. The teachers in this learning community will be working as a team. Their major goal will be to develop a more individualized curriculum.

It is our intention to be able to eventually create a variety of learning environments. This will make it possible to place the students in situations that best fit their needs.

Other additions to our program this year have been a weekly mini course program, and a more coordinated Language Arts program.

### Faculty and Staff

Our staff has experienced considerable change-over since January of 1974.

Added to our Industrial Arts department was Mr. Darrell Tobin who took Mr. Frank Elliott's place when Mr. Elliott became Assistant Principal. Mrs. Mary Smith is now the full time Art teacher at the Junior High School. The former Art teacher, Mrs. Linda Lamphier, is now teaching Art at the Middle School.

We now have two teacher assistants working in the Homemaking area. They are Serena Burns and Cynthia Laws.

## **EDUCATION**

Mrs. Cynthia Guthro and Miss Bess Porterfield have joined the faculty as Reading teachers. Also working in the area of Reading but more specifically with youngsters having learning disabilities, is Miss Carole Walden.

Mr. Robert Riding joined our Science department this year when Ken Johnson left to become Media Coordinator at the Middle School.

Our Secretarial staff has increased in size and now includes Mrs. Shirley Ross.

### **Needs**

Our greatest need right now is for an increase in the size of the Junior High School facilities. Our present building is not adequate for the type of program we are attempting to offer. Our library is much too small. Our cafeteria is inadequate. We lack adequate classroom space for four staff members and we would have a very difficult time expanding our curriculum further because of our crowded conditions.

It is imperative that during this year we do everything possible to bring about the Junior High School addition. For without this space we will not be able to provide many of the more specialized programs your children need.

During these first few months as Principal, I have found the students, community, School Board, Superintendent's office and faculty at the Junior High to be most supportive.

To the community we extend an open invitation to visit the school. We are sure you will find it a very pleasant place to learn.

## **REPORT OF THE MIDDLE SCHOOL PRINCIPAL**

W. Bruce Parsons

### **Enrollment**

As of December 1, 1974 the enrollment at the Middle School was 776 compared to 765 on December 1, 1973.

### **Personnel**

The following is a list of the Middle School Staff, their grade or assignment area.

**EDUCATION****Grade 4**

Nathalie Bennett  
 Carole Blier  
 Richard Boisvert  
 Aleta Campbell  
 Georgia Couture  
 Janece Day  
 Ismay Lister  
 Carol Phillips  
 Natalie Thayer  
 Ellen Young

**Grade 5**

Joan Ashworth  
 Shirley Blake  
 Rachel Boisvert  
 Luella Clarke  
 Wilfred Doiron  
 Pamela Greer  
 Eulah Rand  
 Lawrence Ryan  
 Rose M. Rand

**Grade 6**

 Boys' Physical Education  
 Learning Disabilities  
 Remedial Math  
 Crisis Teacher  
 Social Worker (K-6)  
 Audio Visual Specialist  
 Library Aide  
 School Nurse  
 Secretary

**EDUCATION**

Noreen L'Heureux	Secretary (½ day)
Wilfred Doiron	Custodian
Gerard LeBlanc	Custodian
Albert Martin	Custodian
Roland Michaud	Custodian

**Program**

This fall Middle School staff operated an eight week after school activity program. Over 300 students took part in the following activities:

Sewing	Rockets	Chorus
Creative Dance	Crafts	Table Tennis
Film Making	Knitting	Soccer
Safety Play Hockey	Crocheting	
Print Workshop	Chess	

Even with this year's budget cut we hope to offer you some type of activity program during the coming year.

Plans are now being made to involve at least one team of two to four teachers in designing a reading program that will allow for the teaching of specific skills according to individual students' needs.

After this team has gathered necessary material and put the plan into effect, it can be expanded to other teams of teachers within the school. When completed this should result in providing for individualized, continuous progress in reading for students.

This year's addition of a Guidance Counselor for the Middle School has filled a very definite need. Through Mrs. Bannon's efforts in cooperation with administrators and teachers, the needs of the students have been brought into focus.

This year Mrs. Bannon has:

1. Assisted in the proper placement of individual students.
2. Developed a system for referrals of students for special services.
3. Held individual and group counseling sessions for students with adjustment, academic and personal problems.
4. Tested individual students and helped to coordinate group testing programs.
5. Consulted with parents.

## EDUCATION

6. Arranged parent-teacher conferences in attempting to bring the school and the home into a cooperative working relationship.

### Committees

#### Middle School Advisory Committee (M.A.C.)

This group, made up of one teacher from each grade and the guidance counselor, assistant principal and principal meets and discusses Middle School Program and Policy. The information and insight gained through this staff involvement in policy is invaluable in administering the school.

#### Task Force

This group has undertaken the task of making plans for the restructuring of the Middle School program.

The purpose of this task force is not to replace the present system, but to explore alternative educational programs and organizational structures which will enhance the present system. If the Middle School is to be effective in providing a meaningful transition between the primary grades and the Junior High, it must strive to offer a coordinated and integrated program which gives each student the opportunity to succeed.

#### P. T. A.

Parent cooperation through the P.T.A. this year has been excellent. A newsletter with school news and articles by the Middle School staff is being printed monthly. The Middle School P.T.A. held a very successful learning festival this fall and has provided informative and entertaining programs for parents and teachers.

I would like to express my appreciation for your continuing support and interest in your Middle School Program. A school that serves the children and the general community well must be alert to the changes and innovations in education, and always remain responsive to the needs and desires of the people it serves.

## REPORT OF THE ELEMENTARY SUPERVISOR K-3

Clyde P. Kimball

I hereby submit my annual report as Elementary Supervisor K-3.

## EDUCATION

The enrollment of the six elementary schools as of October 31, 1974 was:

Edison	184
Emerson	187
Lafayette	175
Lincoln	182
Roosevelt	288
Central	35
	<hr/>
	1051

This is a drop of 15 pupils from last year. This is the second year in a row that the enrollment has decreased.

New teachers this year are as follows:

Miss Abbott - 3rd grade - Emerson  
Mrs. Chabot - 1st grade - Emerson  
Mrs. Remick - 1st grade transitional - Lincoln

We cut out a 3rd grade last year. Because of this we moved Mrs. Boothby's class from Central School to the Lafayette School.

New teacher aides this year are as follows:

Mrs. Mary Driscoll - Kindergarten - Roosevelt  
Mrs. Roberta Watson - Kindergarten - Roosevelt

New half-day secretaries are as follows:

Mrs. Margaret Blaisdell - Roosevelt  
Mrs. Nadine Watson - Emerson  
Mrs. Lynne Carignan - Lincoln  
Mrs. Marjorie Morrison - Edison  
Mrs. Georgette Hamel - Lafayette  
Mrs. Katherine Howard - Central

My job this year has changed from Elementary Supervisor for K-6th grade to K-3rd grade. This gives me more time for the lower grades. At the Edison, Emerson, Lafayette and Lincoln Schools I have a math class each day and help in the lunch rooms and help to run the athletic program in these schools at noon time. Besides these four schools mentioned I have the Roosevelt and the Central Schools.

I work with the bus transportation from K-8th grades with the help of Mr. Damelio and Mr. Elliott because this year the patrol boys and girls come from the Junior High instead of the Middle School. With the older girls and boys doing the patrolling it is working out very successfully.

## EDUCATION

### Different Programs at Different Schools

At Roosevelt School letters were sent out to the children during the summer vacation assigning them to their right room. All name tags were color coded. In January, Mrs. Twombly, a Learning Disabilities Teacher, joined the staff at the Roosevelt School. This program was made possible through federal funds. All rooms here are painted a different color so that individualized education has a more meaningful atmosphere.

At the Emerson School, because of the very successful fair in the spring, the P.T.A. earned enough money to purchase four more televisions. This made it possible to have a television in each room.

At the Lafayette School the Transitional, 1st and 2nd grades are completely self-contained. Grades 3 are departmentalized for reading, science and social studies, grouped into reading levels of I, II, III, IV.

The Lincoln School has a very successful library program. It is run by volunteer mothers who come once a week to circulate books. Mr. Vermette also comes from the Springvale Library once a week to circulate books among their pupils.

Everyone at Edison is working toward individualization; interesting and exciting things are taking place in every room. Perhaps the most different is the ungraded 1-3 class where the primary emphasis is on learning centers. The children work in small groups at different centers with materials of varying degrees of difficulty so that each child is given the opportunity to learn according to his own needs, abilities, and learning rate. We find language arts (including reading, spelling, creative writing and penmanship) science, mathematics, social studies, music art, and physical education designed with the child's learning processes as its central concern.

Materials for the centers, for the most part, are teacher made, but every known source is being utilized. Some publishers donated books, our public library has been most cooperative, and the parents and people in the surrounding area have been most helpful.

At the Central School they have Nasson students and High School co-op students who volunteer to work with these children. Every semester another group of students take over these duties. Not only is this a great help to the students at the Central School, it is good training for the Nasson and co-op students.

I have enjoyed working with the Superintendent, principals and teachers, visiting classes, holding meetings, working on committees and helping wherever possible.

## **EDUCATION**

### **REPORT OF THE COMMUNITY ADULT EDUCATION DIRECTOR**

John E. Webb, Jr.

Sanford Adult Evening School, the Adult Education Division of Sanford Public Schools, has been in operation for approximately thirty-four years. In that time it has grown from courses in "manual arts" and "clerical" to a school offering adults a complete range of programs in areas of vocational training, high school diploma, high school equivalency, adult basic education and general adult education.

Nineteen hundred and seventy-four was a year of many firsts. It was the first full year with a full-time person responsible for the adult education activities in Sanford Public Schools. This move provided an opportunity for the total educational program in Sanford to be responsive to the needs of the total community. Approximately two thousand adults participated in over one hundred different courses. Facilities like the Sanford High School complex are now in operation sixteen hours a day. In addition, community activities like Town Meeting were also held in school facilities.

The Department of Educational and Cultural Services designated the adult program as a pilot area for educational courses for the elderly. A needs assessment survey was instituted and all facilities for the elderly were contacted. As a result of that survey and with the cooperation of hospital administrators, nursing home supervisors, and senior citizen activities coordinators, an exercise program was put into operation in all the nursing home in Sanford in addition to the Trafton Senior Center, Infirmary, and Sunset Towers. A team of paraprofessionals under the direction of Mrs. Eva Spencer, visit these facilities once or twice a week and bring to the residents new contact with the "outside world".

At the request of several local personnel managers, day classes for adults were instituted for those working second shift. It is now possible for a person to work on his high school equivalency certificate by attending classes during the day. The testing program has also been expanded. It is now possible for an adult to virtually walk in off the street and take the exam. The Sanford center tested over 150 adults this year.

The high school diploma section is now approved for veterans. Any veteran who does not have a high school diploma and who has been discharged since January 1, 1955, is eligible to participate in the program and receive veteran's benefits.

## EDUCATION

The first formal program to keep adult students advised of local resources was set up. Visits to local industries and libraries were an integral part of the effort.

Home management classes as part of the Adult Basic Education program were also started this year. Adults who may be confined to the home because of families have an opportunity to meet in homes during the day and work on consumer problems.

Management and professional courses were organized at the request of many local establishments. While the adult education program has cooperated with industries, businesses, and service agencies in the past, this was the first time management level courses were offered.

Many of the "firsts" can be attributed to the members of the Advisory Board of Sanford Adult Evening School. They are: Winston A. Blaisdell, owner of Colby and Woodman; Dr. Bartholomew Ciampa, Director of Teacher Training at Nason College; Richard Hall, Librarian at Goodall Library; Peter Hitt, Vice President of Operations with York Cable Corporation; Lorraine Masure, Counselor-in-charge with York County Community College Services; Caroline Merrifield, English teacher at Sanford High School; Thomas Milligan, Y.M.C.A. Executive Director; Frederick Robie, Jr., Pastor of North Parish Congregational Church; and Glenn K. Wildes, Area Dairy Specialist with York County Extension Service. They have worked on the assumption that improvement, self-betterment and professional growth are all attributes that can be encouraged in adults. Frequently children are urged to become good citizens but this same interest is not always extended to the adult population. Since it is adults who are responsible for the growth and development of society, closer attention should be paid to the actions and attitudes of adults.

## REPORT OF THE CURRICULUM COORDINATOR K-12

John J. Ford, III

Sound decisions concerning the kind of education that is effective for any group of people rests upon information that is pertinent and accurate,, upon thinking that is rational and objective, and upon values that are clear and compelling. Today a special urgency dictates educational reappraisal. The need for planning in education is not a highly disputed point. However, the problems which arise when this planning commences are:

## EDUCATION

- How do you collect the necessary data to identify the direction of and strategies for educational change?
- Once you have identified educational change plans, how do you implement them and evaluate their success?

It is to these issues that the curriculum coordinator must address himself.

The following statements describe the steps which have been undertaken in educational planning this year.

### 1. Needs Assessment Survey

The purpose of this survey was to gain a clear idea of the existing needs in the areas of curriculum coordination and in-service education for the 1974-75 school year.

### 2. Meetings with Staff

The purpose of these small group meetings was to develop clear role definitions, effective communications channels, and good working relationships with the administrators and staff.

### 3. In-Service Educational Program

Any planning program must involve the training of the people involved. This inservice program attempts to meet the stated needs of the system. It is divided into three aspects.

#### A. One Session Seminars:

These sessions are conducted 2-3 afternoons a month for the purpose of exposure to new ideas and for the sharing of techniques and experiences. So far this year there have been sessions on "Community Building in the Classroom", "An Individualized Approach to Reading", "Elementary Math", "The Ideal Classroom: The Effect of Physical Space on Learning", "In Search of a Grade", and "A Make and Take Field Trip for Teachers". Many more of these sessions are planned for the coming year.

- #### B. All-day curriculum workshops for the purpose of more intensive training and education in areas which will effect the entire staff. Thus far we have had a workshop on Career Education. Two more are planned, one on Performance Objectives, and the other on Educational Convention on Humanistic Education.

## EDUCATION

- C. Extended inservice courses which will provide retraining and professional growth in areas where staff and community feel necessary. This year courses concerning Career Education, use and application of A.V. materials, Learning Disabilities, and creating curriculum materials are planned.

### 4. Curriculum Newsletter

A curriculum newsletter has been developed which will provide communication concerning what is happening in the various schools, present new ideas, and serve as a vehicle for staff writing.

### 5. Curriculum Leadership Team

Area coordinators have been formed into a Curriculum Leadership Team. The purpose of this team is to begin the evaluation of the present curriculum materials in view of their effectiveness, appropriateness, and interrelation to other parts of the curriculum. This is the first step in the development of consistent and well organized curriculum guides for all curriculum areas. Each area coordinator is working on a specific task for this year.

### 6. Written Descriptions of Programs

We have begun compiling written handbooks describing what is going on in each of the curriculum areas.

### 7. Middle School Program

We have been investigating the possibility of team teaching at the Middle School.

### 8. Federal Proposals

We are investigating available federal money in the areas of teacher aide programs, substitute teaching programs, staff development programs, and other relevant areas.

### 9. Cooperative Program

We have been investigating with the University of Maine at Portland-Gorham concerning the possibility of a cooperative teaching internship program.

The above statements reflect some of the steps which have been undertaken in curriculum coordination for this year. Hopefully, in the next few years, we can continue the planning process and the total educational staff can cooperatively develop the practical experiences and expertise needed to carry out the various activities involved in curriculum planning.

**EDUCATION****REPORT OF  
SPECIAL NEEDS COORDINATOR**

Frederic S. Brown

This past year saw many new special services for students added to our program with the base of state support provided under L.D. 965. These new programs added to our existing programs created a special needs staff of twelve (12) professionals, all working at their different specialties, in different schools, and at different grade levels. In order to provide continuity and the highest possible quality of service a coordinator position was added to the program.

New services added this year are:

Two Learning Disabilities professionals, one at Kindergarten level and one at Junior-Senior High School level. This means that we can offer Learning Disabilities help at all grade levels.

Two Special Teachers to staff the Special Vocational High School program, which provides job oriented training and a base of essential for the world of work, for students who are less able to utilize other high school programs.

One Crisis class teacher has been added at the Middle School to provide a class where seriously acting out children and seriously upset children can receive help in developing better behavior and self concepts so that they can profitably return to regular classes.

One Social Worker position has been added for Junior-Senior High School to facilitate better inter-agency and home-school cooperation in helping students. The worker is also working with students individually and in groups built around problem areas of common concern.

One Human Development Team Coordinator. This past summer four staff members from the Junior and Senior High Schools attended a two week workshop in drug intervention and prevention techniques. The federal government has funded a coordinators position for this team which is now implementing programs in drug intervention and drug abuse prevention in the senior and junior high schools.

The responsibility for making and reviewing all placements in special education has passed from the state level to the local level. To meet this added responsibility a Pupil

## EDUCATION

Evaluation Team consisting of local, teachers, administrators, counselors, and social workers review all placements and make recommendations. This has involved a great deal of volunteer effort and time from many of our regular school staff.

With these new additions we are now able to offer special services in the following areas:

Learning Disabilities Help	grades K-12
Educable Program	ages 7-20
Trainable Program	ages 7-21
Speech Therapy	grades K-6
Speech Consultant	grades K-12
Crisis Class	grades 1-6
Social Workers	grades K-12

Already, the Learning Disabilities programs for grades 1-3, and for Middle School, as well as the speech therapy program are unable to fully meet the needs. More staff and more room will be needed to improve these services to adequately help all those students who are qualified for the help.

## REPORT OF THE AUDIO-VISUAL SPECIALIST

Kenneth Johnson

As I began work in my new position as A. V. Specialist on August 26, 1974 I established a set of goals for myself. These goals were:

1. Achieve maximum utilization of the Middle School library by both students and teachers.
2. Achieve maximum usage of all A. V. equipment and materials throughout the school year.
3. Provide service to all schools and furnish A. V. materials and equipment for use within the shortest possible time after the request for same has been received.
4. Establish an "open door" policy for the Middle School library and provide an atmosphere conducive to an enjoyable learning experience.
5. Provide instruction and assistance for teachers in usage of A. V. materials and equipment so that maximum usage will be attained.
6. Establish an appropriate inventory control system.

## **EDUCATION**

7. Provide preventative maintenance of A. V. equipment to reduce service and repair costs on same.

As the school year progresses I feel that these goals are being attained. I would like to see the floor of the Middle School Library carpeted to provide a more relaxed atmosphere and an environment conducive to a rewarding learning experience for the youngsters.

The greatest portion of my time is spent in the Middle School Library which has a circulation approaching 300 books per day. Mrs. Dapas has proven to be a very efficient aide and relates well to the youngsters.

I appreciate the cooperation and support of the teachers and administrators in my efforts to serve them. I also feel fortunate to have such a beautiful facility available to provide a learning opportunity for the children attending the Middle School.

## **REPORT OF THE DIRECTOR OF TITLE I ESEA**

(Public Law 89-10, as amended)

Kenneth Johnson

Title I funds were used to continue our programs in remedial reading, remedial mathematics, learning disabilities, and provision of kindergarten aides. These programs have proven successful in the past and are continuing to meet the needs of the participants.

As the Federal Government has a July 1 to June 30 fiscal year and funding of the programs change on July 1, it was necessary to restructure our Title I program for the opening of the fall term in September. This change of structure was necessitated by reduced funding with the initial allocation for fiscal year 1975 being \$63,224 which did not provide sufficient funds to operate all phases of the previous structure. The program which commenced in September 1974 provides for the services of three remedial reading teachers, two remedial reading teacher aides, two learning disabilities teachers, one remedial math teacher and a remedial reading teacher aide for St. Thomas School.

This past summer we again operated a very successful summer program during the month of July. Fifty-six children participated in the summer program which provided services for remedial reading, speech therapy, learning disabilities, emo-

## EDUCATION

tionally disturbed and outreach worker which provided play therapy. Unless supplemental funding becomes available we shall not be able to operate the summer program in 1975.

Title I funding is based upon local efforts financially, and as the local budget was severely cut, our future allocations are likely to decrease. This will occur particularly if the per pupil cost from local funds is less than in previous years.

I would like to take this opportunity to once again express my opinion that the Town of Sanford should have a person employed on a full-time basis to seek out Federal funding and programs.

## REPORT OF

### DRUG ABUSE PROJECT COORDINATOR

Miss Janet Wilson

In May of 1974 the Sanford School System was awarded a mini-grant from the U. S. Office of Education, project on drug abuse prevention and early intervention, for the school year 1974-75. The funds cover the local project coordinator's salary, travel expenses, and a mandatory two-week training session at the Adelphi University National Training Institute, which was attended by Sanford's team: Rita Howe, science teacher at Sanford Junior High; John Ford, curriculum coordinator for the school system; Ellen Gottlieb, social worker for the Junior High and High School; and Janet Wilson, team coordinator.

Training provided information concerning the pharmacological, psycho-social, and legal aspects of drug abuse. Through lectures, group discussions and activities, members of the team were able to develop and expand skills in group dynamics, crisis counselling, new approaches to drug education, and program planning. Follow-up visits to the team are provided by the trainers at the institute.

Plans for implementing a successful program in Sanford include: inservice education and training opportunities for educators; developing a comprehensive health curriculum for grades k-12; and group discussion and problem solving activities for youth and adults. Also, a comprehensive resource index for youth oriented community projects, clubs, organizations, and help agencies is being compiled in cooperation with local agencies.

## EDUCATION

### REPORT OF THE SCHOOL HEALTH PROGRAM

Jeanne Gauthier, R. N.

The school health services strives to instill into the student good health habits as well as trying to help the ever present medical problems that present themselves on a daily basis.

Our staff includes a school physician, optometrist, 3 registered nurses who are also certified by the Department of Education as school nurses and 3 volunteers.

Due to lack of sufficient funds, two of our main interests are yet to be realized, a Dental Program (on a preventive measure) and a Family Living Program which would include the physical, psychological, emotional and financial aspects of family living. However, this takes a great deal of planning. We are hoping it will become a reality in the near future.

At present the following programs constitute the Health Services offered in the Sanford School System:

Physical Exams: Grades K (pre-school) 3-6-9 and all students participating in competitive sports. (1595)

Vision Exams: Grades 1-4-7-9 and students who have been referred by other school personnel. (2347)

Hearing Screening Exams: (K-3) and other grades that have been referred.

Diabetes Detection Program—1850.

Three health units are maintained in the High School, Junior High School and the Middle School.

T. B. Tests are given to all school personnel as required by law. Chest X-rays are also arranged by school health services for school personnel who are unable to tolerate the Tine Test.

Home tutoring is still arranged by the Health Services for students who are physically handicapped due to accident or ill health (prolonged) until such time as they are able to return to the classroom. Number of students who were enrolled in this program—8.

## **EDUCATION**

Home visits are made when necessary and a better insight into a pupil's problems can be better understood.

The Healthmobile has been a valuable resource for the student who does not have a family physician. A thorough physical exam is given including blood and urinalysis as well as vision and hearing tests. Outreach workers have been invaluable in transporting these students and their families to the healthmobile and other related health services.

Our heartfelt thanks to Mrs. John Sylvestre, Mrs. David Jagger and Mrs. Elwyn Owen for their invaluable help in our hearing detection program. Without their help this could not have been completed in time.

Our many thanks to everyone in the Sanford Public School System for their cooperation and moral support to keep our program workable and for their encouragement for its expansion.

## **REPORT OF THE MAINTENANCE SUPERVISOR**

Roland Carrier

### **Sanford High School**

Some minor repairs and replacement of material items, such as doors, ceiling tiles, door closers and panicbar hardware has been done. Painting was done in six classrooms. Some toilet fixtures were repaired. Heating units were repaired and checked throughout the building by our own master electrician. The building was inspected by the Fire Chief in August. All fire extinguishers were tested, tagged and sealed. Snow plowing was done by a contractor. The bus port was primed after removing all loose paint. We are hoping to finish painting the bus port next summer.

### **Sanford Vocational School**

Most of all the small classrooms connected with the shops were painted by the building custodian. The welding shop was painted by students. Electrical work was done by our own master electrician in most of the shops. A leaking hot water tank was replaced in the welding shop. All tile floors were stripped and waxed several times during the year.

## **EDUCATION**

### **Memorial Gymnasium**

The main floor was stripped and resealed in August. All concrete floors in the tunnel, lobby, cafeteria, shower, dressing rooms, and stairways were painted. The girls' shower partitions were renewed with concrete blocks and painted with a glazing paint. Exterior doors and frames were repaired. Screens and frames were replaced on the lower rear level. The building was inspected by the Fire Chief in August. All fire extinguishers were tested, tagged and sealed. Some plumbing and electrical work was also done in various parts of the building.

### **Junior High School**

Fifteen classrooms and offices were painted. A temporary wall was taken down in the former Industrial Arts room. A new carpet 40'x60' was installed. A panic bar was installed on one of the exit doors in this same room. A rear window was removed and a steel door installed. This will serve as a material receiving entry and also a short cut to the boiler room. The building was inspected by the Fire Chief in August. All fire extinguishers were tested, tagged and sealed. Some minor plumbing and electrical repairs were done also. The boiler was cleaned and also inspected twice by a qualified boiler inspector. Snow plowing was done by a contractor.

### **Junior High Annex**

Several classrooms were painted. Shades were replaced in several rooms. The building was inspected in August by the Fire Chief. All fire extinguishers were tested, tagged and sealed; several new ones were purchased. Two new panic bars were installed at the south end of the building. A hot water tank was installed for use of washing floors, etc. Snow plowing on the premises was done by a contractor.

### **Middle School**

A major restoration of the chimney brickwork and waterproofing was done during the summer. One boiler was retubed—this hasn't been done since its installation in 1949. Both boilers are in very good shape and are inspected twice yearly by a qualified boiler inspector. We consume an average of 80,000 gallons of oil per year in this building which also heats the Memorial Gym and provides hot water for the kitchen and showers. The building was inspected in August by the Fire Chief. All fire extinguishers were tested, tagged

## EDUCATION

and sealed. Several had to be replaced because of defective seams. A small classroom was divided in two. Several urinals had to be replaced. Snow plowing on the premises was done by a contractor. Various electrical problems were repaired by our own master electrician. He installed emergency battery operated lights at all exits.

### Central School

Minor repairs were done. All tile floors were stripped and waxed several times during the year. The boiler was cleaned and adjusted during the summer. The hot water tank was repaired. Several bookcases were built. A swing set salvaged from the Hamlin School was erected at the rear of the school.

### Edison School

All classroom, hallways and stairways were painted. Light fixtures salvaged from the Hamlin School were installed in the dining area and special rooms upstairs. Over 400' of chain link fencing was installed at the rear of the school. This fence was salvaged from the Hawthorne School. The building was inspected by the Fire Chief and the department of Public Safety and all recommendations have been carried out. A wall between two classrooms was demolished in order to have one big open classroom. A sign with the name of the school was erected in front of the school. The boiler was cleaned, adjusted and also inspected twice during the year by a qualified boiler inspector. Snow plowing around the school was done by our own pick-up truck. Some electrical repairs in various parts of the building was done by our own master electrician. All fire extinguishers were tested, tagged and sealed; two new ones were purchased.

### Emerson School

Paintings of all classrooms and hallways was completed. This project was started in 1973. The lobby walls were covered with masonite panels and painted. Projects as recommended by the Fire Chief and the Department of Public Safety have been completed, all fire extinguishers were refilled, tested, tagged and sealed; several were replaced. A second means of egress from the cafeteria was built. Wire safety glass was installed by the fire escape. Transoms above the classroom doors were sealed. Two fireproof doors and one-hour fire resistant material was installed between floors. The top floor can be closed off from the first floor and the first floor from the basement.

## EDUCATION

Light fixtures salvaged from the Hamlin School were installed in both dining rooms. The water main was repaired last spring. The boiler was cleaned, adjusted and was also inspected twice during the year by a qualified boiler inspector. Snow plowing around the building was done by our own pick-up truck. Some electrical work was done by our own master electrician.

### Lafayette School

All classrooms, hallways and stairways were painted. A parking lot was constructed at the north end of the building. The water main ruptured in June. A wall had to be partially demolished in order to locate the pipe and repair it. The boiler was cleaned, adjusted, and also inspected twice during the year by a qualified boiler inspector. All fire extinguishers were tested, tagged and sealed. The building was inspected by the Fire Chief in August. The snow plowing was done by our own pick-up truck. Some electrical work was also done by our own master electrician.

### Lincoln School

Minor repairs such as painting in various locations, replacement of broken windows, building of bookcases, finish tarring of the roof, sealing cracks in hot top pavement, painting of all concrete basement areas were completed. The building was inspected in August by the Fire Chief. All fire extinguishers were tested, tagged and sealed. Minor electrical and plumbing jobs were also done. Snow plowing was done by our own pick-up truck.

### Roosevelt School

Some painting took place in various parts of the building. Storage shelves were added in the basement. Two new exterior doors were installed at the rear of the building, new panic bars and door closers were also installed. Two new fire exit doors were installed for the interior part where the basement separates the top classrooms. A new cold air intake duct was installed in the boiler room. All fire extinguishers were tested, tagged and sealed; one extinguisher was replaced. The building was inspected by the Fire Chief and the Department of Public Safety in August. Shades were installed in the basement classrooms. The boiler was cleaned, adjusted and was also inspected by a qualified boiler inspector. The basement classroom carpeting was also repaired.

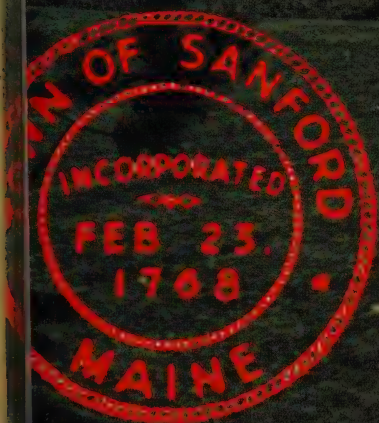

# ANNUAL REPORT

## TOWN OF SANFORD, MAINE

FISCAL YEAR JAN. 1 - DEC. 31, 1975

Cover photo:

Statue erected by the citizens of Sanford to the memory of Thomas Goodall, founder of the Sanford Mills and the Goodall Worsted Company. Born in Dewsbury, Yorkshire, England in 1823, died in Sanford, Maine, 1910.

“Included in my seal is a pine tree, representing Sanford as a part of Maine. The gear represents the factories and machinery in Sanford that in the past and present, have helped Sanford grow and have employed many people. The drop of water represents the water power used in Sanford and the lightning bolt is the electricity from the water. The sun is the possible use of solar power, far in the future of Sanford. Solar power is becoming popular and practical in the U.S. and may well be used in Sanford’s future. 1769 is the date of incorporation.”

Selena Ford  
Designer of  
Sanford’s  
Bicentennial Seal

ANNUAL REPORT  
OF THE SELECTMEN, ASSESSORS AND  
OVERSEERS OF THE POOR

January 1 to December 31, 1975

The Town of Sanford has had another very good year, economically speaking. We were able to keep the tax rate at an acceptable rate of \$31.10--an increase of only 10¢ per thousand valuation over last year.

Our local government is essentially the backbone of our community. Our present form of government is dependent on representation from each of our seven districts with two members from each elected at the organizational meetings to serve on the Warrant Committee and five members appointed at large by the Board of Selectmen. We believe that more and more interested citizens are now making their views known relative to town affairs, which, in the long run, should make for a better place in which to work, live and be safe and happy. "There is strength in unity."

Sanford was most fortunate in receiving the aid needed for the new Winter Street Bridge and the surfacing of many of our arterial roads--all fully compensated by the State of Maine, Department of Transportation. Also, the work on Route 224, Shaw's Road to Pleasant Street, Springvale, is virtually completed. The removal of the "dog leg" intersection at Main, Winter and Lebanon Streets is scheduled in 1976.

In 1975, a new Public Works Commissioner was appointed. We feel that the Highway Department employees are co-operating very well with their new supervisor, Mr. Roy Moses. The early winter's snow, sleet and freezing rain will raise havoc with our appropriated funds and hope that all will appreciate that much is being done to alleviate any discomforts that nature may cause.

We are very appreciative of the work done by the Planning Board, the Board of Appeals, the Warrant Committee and all others who have done so much for the betterment of our community. The Warrant Committee's ardent study and the acceptance of their recommendations by the Town body at the Town Meetings has a great input on the tax base.

Much work has been done towards the completion of the Master Plan for the Sanford Municipal Airport--i.e. airport layout plan, terminal area plan, airport imaginary surface plan, runway approach profiles, land use plan, runway lighting and taxiway lighting. The new lighting system for Runway 6-25 is now operating on both radio and manual control.

Many thanks to our clerical staff for their co-operation during the year.

We are looking forward to another year of continued progress and success.

Respectfully submitted,

Emile D. Cote  
Paul L. Garvin  
Norman S. Hall

Clerk, Springvale Station

PROTECTION OF PERSONS AND PROPERTY

REPORT OF THE FIRE CHIEF

SANFORD FIRE DEPARTMENT

January 1, 1976

TO THE MUNICIPAL OFFICERS OF THE  
TOWN OF SANFORD, MAINE.

The Sanford Fire Department consists of two stations, one located in Sanford and one located in Springvale. There are eight (8) men on duty twenty-four (24) hours a day, five (5) at the Sanford Station and three (3) at the Springvale Station. They work an average of fifty (50) hours a week.

There is one (1) Chief, twenty-seven (27) permanent men, sixty-six (66) call men thirty-six (36) in Sanford and thirty (30) in Springvale) and one (1) secretary.

By vote of the 1974 December Town Meeting, a Fire Commission was established and elections were held on December 1, 1975. Three Commissioners were elected and they were sworn in on December 31, 1975. They officially took over the running of the Fire Department at Midnight, December 31, 1975.

Personnel:	Appointed - 2 Privates
	Resigned - 1 Private
	Promoted - 3 FD-1 to FD-2

Training

Firefighter training is conducted on a voluntary basis through the efforts and interest of the officers and men. The following training courses were held:

Emergency Red Cross and Emergency Care was held at the Sanford Station, a forty (40) hour course, fifteen (15) men completed.

Cardio Pulmonary Resuscitation held in Portland, an eleven (11) hour course, one (1) man attended.

Emergency Red Cross & Emergency Care, held in Portland, forty hour course, one (1) man attended.

Structural Firefighting held in Keene, N.H. attended by four (4) men.

Hazardous Material Control held in Keene, N.H., attended by four (4) men.

Pumps and pumping held in Keene, N.H., attended by four (4) men.

Emergency Medical Technician held at Henrietta Goodall Hospital, an eighty-one (81) hour course, four (4) men completed, four (4) credits, SMVTI.

Controlling LP gas emergencies held in Keene, N.H. attended by one (1) man.

Fire Department Support of Sprinkler Systems held in Keene, N.H. attended by one (1) man.

Basic First Aid, Instructors Course, held at the Sanford Station, two (2) men completed.

Mask School, held at the Sanford Station, eleven (11) men attended.

Sanford was host to the York County Fire Chiefs Association Fire Attack School, sixteen (16) men attended.

In October, the Sanford Fire Department had a representative from Texgas demonstrate the basic firefighting techniques for LP gas. There were a total of ninety (90) present, including members from the following Fire Departments:

Limerick	Alfred	York Beach
North Berwick	Sanford	Newfield
East Lebanon	Shapleigh	

The two (2) call departments participated in twelve (12) regular drills this year.

#### EQUIPMENT AND APPARATUS

Presently, the Sanford Fire Department has the following apparatus:

##### 2 Pieces of Aerial Equipment

- 1 - 100' Ladder Truck - 1972
- 1 - 70' Aerial Platform - 1963

##### 4 Front Line Pumpers

- 1 - 500 gal. per minute pump - 1964
- 2 - 750 gal. per minute pumps - 1962 and 1951
- 1 - 1,500 gal. per minute pump - 1974

2 - 500 gal. per minute reserve pumpers - 1935 & 1948

3 - All-Wheel drive brush trucks - 1941, 1941 & 1954

1 - All-Wheel drive permanently housed in the Springvale Station, owned by the State of Maine

1 - Jeep - 1947

2 - 14' boats and trailers

1 - Chief's Car - 1975

1 - Pick-up truck - 1962

## 2 Ambulances:

- 1 Dodge Modular - 1973
- 1 Cadillac Coach - 1969

The most significant improvement in fire apparatus to come along in the past ten (10) years, has been the diesel engine. The Sanford Fire Department now has two (2) diesel trucks and we hope to standardize in this area in the near future. The average age of our equipment is almost thirteen (13) years old.

Most of the maintenance work is done at the station by the mechanic keeping costs at a minimum.

The Fire Department requires a written permit on all outside fires. There were a total of 558 permits issued in 1975.

January	44	February	27
March	122	April	84
May	51	June	30
July	22	August	18
September	33	October	44
November	49	December	34

By the granting of these permits, we are able to know exactly the areas where such controlled burning is located, cutting down on many unnecessary calls.

## AMBULANCE

The Sanford Station has two (2) ambulances. They are operated by licensed attendants.

The ambulance responded to 795 emergency calls for a total of 10,769.0 miles. Of these calls 51 were either false or no patient calls at 1,228.2 miles.

January	82 calls	890.4 miles
February	61 calls	857.2 miles
March	64 calls	888.4 miles
April	61 calls	677.9 miles
May	60 calls	1,027.4 miles
June	62 calls	672.3 miles
July	76 calls	1,318.0 miles
August	71 calls	978.3 miles
September	76 calls	1,098.9 miles
October	61 calls	844.8 miles
November	51 calls	751.4 miles
December	70 calls	764.0 miles

## PUBLIC RELATIONS

Tours of the Fire Station were given by the officers. Approximately 1,500 children from Sanford and surrounding towns toured the Fire Station during 1975.

The Fire Prevention Officer visited nine (9) public and parochial schools in the Sanford area. Approximately 2,000 students heard talks on "Home Fire Safety" through the Junior Fire Marshalls Program. This program teaches children how to check their homes for fire hazards, escape procedures in most fire situations and what to do if their clothing catches on fire or other related hazards.

In the spring a Fire Prevention program in conjunction with the Maine Forestry Service with "Smokey" the bear was conducted in local schools to make children aware of the dangers of matches and outside fires.

In other related areas, two of our permanent men conducted classes on Firemanship to local Boy and Girl Scout Troops.

Lectures and demonstrations on fire hazards and proper escape techniques in fire situations were given to civic, social, and church groups.

Other varied programs included, programs on the local radio station and courses on evacuation and use of fire extinguishers were given to the staff of H.D. Goodall Hospital and Hillcrest Manor.

Our two (2) permanent men who completed their Instructors in Basic First Aid, have given the Basic First Aid Course by the American Red Cross to seventeen (17) Girl Scout Cadets from the Town of Sanford and Lebanon. This is a ten (10) hour course. These men also visited the Middle School in Sanford for two (2) days. On the first day the children had a tour of the ambulance and were shown the equipment and how it is used. The second day they had a demonstration on resuscitation and shock. The children were able to practice on resusci-Annie.

The Sanford Fire Department responded to a total of 407 alarms during 1975. Of these alarms, 74 were box alarms and 333 were still alarms. A total of 14 were stills that later turned into boxes.

The alarms were broken down into the following groups:

Gas Spill or Flammable Liquid: 28 Total

Chemical Spill: 1 Total

TO THE MUNICIPAL OFFICERS OF THE  
TOWN OF SANFORD, MAINE

Gentlemen:

The following is my Annual Report of the Sanford Police  
Department for the year 1975.

The three (3) major operational areas within the department,  
Patrol, Investigative and Administration, functioned effectively  
in 1975 to enable the department to improve its efficiency and  
ability to provide essential services to the community. Without  
the assistance of your office and other departments within the  
town this improvement could not have been possible. Therefore,  
my "thanks" to everyone that assisted the Sanford Police  
Department in this mission during 1975.

I should also make note of the excellent work and devotion to  
duty of the individual officers. Through their efforts, the  
Sanford Police Department is recognized, by others in the pro-  
fession; as one of the leading Police Agencies in the State.  
This reflects not only on the members of the department but the  
community as well.

To support this statement of being "one of the leading Police  
Agencies", I therefore submit my Annual Report, in main areas of  
operation for 1975, of the Sanford Police Department.

Respectfully submitted,

John C. Pride, Chief  
Sanford Police Department

---

Sanford Police Department Annual Report 1975

PERSONNEL

The following changes in personnel occurred within the department  
during 1975.

Resigned: Two (2) regular sergeants

Resigned: Two (2) regular patrolmen  
Two (2) reserve patrolmen  
Recruited: Five (5) regular patrolmen  
Seven (7) reserve patrolmen  
Promoted: Two (2) corporals to sergeant  
Four (4) patrolmen to corporal

The department was fully manned five (5) months of 1975.

As of December 31, 1975, the department was fully manned.

During the first quarter of 1975, the department experienced the loss of several key supervisors and trained patrolmen. This loss affected operational areas temporarily and continued to have an affect all through the year. New men required academy training thus resulting in shortages and additional costs. The selection process enabled the department to fill vacancies with qualified people and at the present time, there exists a waiting list of eligible candidates.

The continued evaluation of police officers to meet the needs of today and the community provides the best in personnel and Sanford is fortunate to have the "best".

#### TRAINING

A priority activity within the department is training.

A great variety of training schools were attended by members of the department during 1975. In addition to the mandatory State requirement to send new officers to the Maine Criminal Justice Academy in Waterville, Maine, several officers attended specialized training schools within and outside the State.

The department during 1975, with the aid of a Federal Grant, became recognized as the Police Regional Training Center for York County. As a result of this noteworthy distinction, Police Departments as well as Sanford P.D., participated in many hours of In-Service Training offered. Briefly are a few listed below:

Motor Vehicle Laws	Photography
Raids	Bombs
Rules of Evidence	Search & Seizure
Forensic Science	Liquor Laws
Firearms	Bank Robberies
Accident Investigation	Alcoholism
Control and Defense Course	

and several other miscellaneous subjects.

A brief list of specialized training schools attended by members of the department:

Command Training Institute, Babson College, Wellesley, Ma.  
New England Management Institute, Babson College, Wellesley, Ma.  
FBI Firearms Instructor School, Camp Curtis Guild, Wakefield, Ma.

FBI Crime Scene Search School, Police Department, Portland, Me.  
Polygraph Indoctrination, Police Department, Manchester, N.H.  
Communications, State Police Headquarters, Augusta, Me.  
OUI Training Course, Police Department, Portland, Me.  
FBI Basic Fingerprint School, Criminal Justice Academy,  
Waterville, Me.

FBI Police Photo School, Criminal Justice Academy, Waterville, Me.  
FBI Bomb Investigation School, Criminal Justice Academy,  
Waterville, Me.

In addition to Basic Training for new police officers, In-Service Training, Specialized Training, for full-time employees; reserve or part-time employees on a regional plan attended sessions to help them more actively augment full-time employees when needs arise.

Many officers through training, instructed at various training sessions thus developing expertise in subject matter and instructional procedures.

At the present time eight (8) officers within the department are in process of obtaining degrees in Law Enforcement.

Firearms training saw a one-hundred percent (100%) participation by all members and provided many hours of training time to several other law enforcement agencies within the county.

Training assistance was also provided to the Maine Criminal Justice Academy, Sanford-Springvale Civil Defense, and to various other Law Enforcement Agencies.

Training increased within the department compared with 1974. The Federal Grant provided needed training equipment.

Police Officers in Sanford are attempting to meet high training standards, insuring that the community has professionals that are competent and capable of providing the service the public expects. The training provided is meaningful and is intended to be that catalyst that keeps the organization motivated and develops professional people.

#### EQUIPMENT

Federal Grants provided nearly thirty-seven thousand dollars (\$37,000.) worth of needed equipment. The town's share: thirty-four hundred dollars (\$3,400). The most expensive item of equipment, the cruiser, has caused concern with maintenance, gasoline and operational costs during the year. Presently, the fleet of cruisers have totaled over five-hundred thousand (500,000) miles. With the exception of one (1) vehicle, the others each have well over one-hundred thousand (100,000) miles a piece. An attempt at this time, with long range planning, hopes to alleviate this major equipment problem. All officers contributed to the maintenance of all equipment.

Public Relations for the department is of prime importance. The Sanford Police Color Guard again won the American Legion Color Guard Competition in 1975. At the Veterans of Foreign Wars convention in Boothby Harbor, Maine, they took first place in the non-affiliated category. In addition, the color guard represented Sanford at the Limerick Bicentennial, the Rockland Lobster Festival and various other parades within the State during 1975. This unit has been a great asset to us being commended many times. With the Bicentennial year here, the unit has already received invitations to represent Sanford during 1976.

#### COMMUNICATIONS

During 1975, the department received all new communications equipment with the assistance of the Law Enforcement Assistance Agency providing the necessary funds. This enabled the department to become part of the State-wide Emergency Broadcast System. Two thousand, two hundred fifty-six (2,256) formal and informal teletypes were dispatched during 1975, utilizing the Police Teletype Network.

#### SERVICE AND MAINTENANCE

One hundred forty-six (146) traffic signs were installed new and on a replacement basis by members of the Sign Maintenance Section of the department. Also installed were one hundred forty-eight (148) new traffic posts. Approximately two hundred fifty (250) manhours were utilized on installing signs and another one hundred twenty (120) manhours in the actual making of signs. Members of the department also re-painted the street traffic lanes during their days off.

#### PATROL AND TRAFFIC DIVISION

During 1975, one hundred eighty-five thousand, nine hundred seventy-six (185,976) miles within Sanford and Springvale were patrolled by members of the department. This mileage showed an increase of thirty-seven thousand five hundred forty-seven (37,547) miles as compared to 1974. Patrol hours increased by six thousand, five hundred seventy-four (6,574) hours from nineteen thousand (19,000) hours in 1974 to twenty-five thousand, five hundred seventy-four (25,574) hours in 1975. The amount of work accomplished by the Patrol Division during the above patrol hours is submitted.

 Ronald G. Dugre, Sergeant  
 Sanford Police Department

-----  
 The following Traffic Accident Summary is submitted:

Fatal Accidents	2
Non-Fatal Injuries	125
Property Damage Accidents	694

TOTAL ACCIDENTS 821

Of the eight hundred twenty-one (821) total accidents in 1975, five hundred four (504) local drivers contributed. Saturday, again in 1975, was the day when most accidents occurred and the type of accident most prevalent was angle contact.

3:00 P.M. in the afternoon was the most critical time of the day, accounting for seventy-seven (77) of the total accidents reported.

Of the four hundred seventy (470) traffic arrests and summons, four hundred twenty-four (424) persons were convicted, forty-four (44) cases were dismissed, thirty-five (35) cases filed and three (3) cases presented to the court, resulted in findings of not guilty.

As you can see, patrol, the prime police function, is the deployment of police officers in the community to prevent and deter criminal activity and to provide day to day police services. The aforementioned Patrol Activity and the following Report of Criminal Activity is the result of individual efforts of departmental members and citizens in reporting, preventing, detecting, contributing and becoming involved to decrease crime in today's society.

#### CRIMINAL ACTIVITY

During 1975, there were one thousand six hundred fifty (1,650) offenses committed that were known to the police. Of these offenses reported, one thousand forty-two (1,042) were classified as Part I and II offenses known, three hundred (300) were cleared by arrest, two hundred (200) cleared by exceptional means and three hundred thirty-one (331) were unfounded or baseless reports. The following is an analysis of Criminal Activity during 1975.

An analysis of Part I offenses showed Sanford, Maine to have cleared 27% of the total offenses reported. In comparison, the State clearance rate showed 23.64% and York County showed 21.96%.

Burglaries represent 29% of the total Part I offenses reported (209). Property stolen in conjunction with the number of burglaries reported represented 42% of the total Part I offenses. This 42% represented \$39,954. in property value.

Larceny represents 62% of the total Part I offenses reported (441). Property stolen in conjunction with the number of larcenies reported represented 30% of the total Part I offenses. This 30% represented \$28,814. in property value.

An analysis of property crimes showed that Burglary represented 30%, larceny 65% and motor vehicle theft 3%, totaling \$94,573. in property value stolen. Of this, \$34,737. was recovered, representing a 36% recovery rate. In comparison, the State overall recovery rate showed 42%.

-----  
COMPARATIVE SUMMARY OF CRIMINAL AND PATROL ACTIVITY

<u>1974</u>		<u>1975</u>	
1406	Criminal Offenses Reported	1650	+ 17%
380	Criminal Arrests	300	- 21%
718	Traffic Arrests	470	- 32%
75	Juvenile Involvement	81	+ 7%
341	Non-Criminal Investigation	390	+ 13%
625	Accidents Investigated	821	+ 24%
1098	Total Persons Charged	772	- 30%
47	Unfounded Reports	200	+ 77%

-----

By the analysis, Sanford shows a higher clearance rate of Part I offenses than the period shown for County and State levels. Comparatively, we stand approximately in line with clearance rates and values of property stolen.

From January to November, 1975, over two hundred (200) felonies received investigative attention. Of these, sixty (60) felonious arrests cleared seventy-five (75) cases. Of the sixty (60) felonious arrests, approximately fifty percent (50%) were juvenile offenders.

In connection with criminal activity, over ninety-six (96) fingerprint cards were processed.

It is quite evident that members assigned to the Investigative Division have earned their keep.

In conclusion, of the Criminal Activity for 1975, a thirty percent (30%) clearance of crime can be noted for all Part I and Part II offenses. This is slightly higher than the National, State and County figures.

Thus, I conclude my Annual Report for 1975. Again, many thanks to all who assisted and serviced the department during the year.

Your interest, assistance and cooperation in the past is deeply appreciated, and sincerely desired for the future.

Respectfully submitted,

A handwritten signature in dark ink, reading "John C. Pride". The signature is written in a cursive, flowing style with a large initial "J".

John C. Pride, Chief  
Sanford Police Department

During 1975 there were 46 variances to go before the Board of Appeals.

32 - Granted

14 - Denied

This office also has the responsibility of enforcing the State Plumbing Code. In 1975 a total of 194 plumbing permits were issued of which 61 were for Private Sewage Disposal Systems.

Respectfully submitted,

Raymond J. Caron,  
Codes Enforcement Officer

#### REPORT OF THE WIRE INSPECTOR

From: Donald H. Gagne, 1975 Wire Inspector

To: Board of Selectmen

Subject: Annual Town Report on Town owned property and buildings, in regards to the electrical wiring and electrical apparatus.

The following School buildings were checked and inspected. I spoke with Head Custodian & School Custodian in each building as to what repairs, if any should be done.

1. Sanford Schools
  - New Sanford High School
  - Old Vocational School
  - Junior High School
  - Middle School
  - Lincoln School
  - Edison School
  - Roosevelt School
  - Emerson School
  - Lafayette School

The following were checked and found to be in good condition.

2. Sanford Town Hall and Annex
3. Springvale Town Hall
4. Springvale Fire Station
5. Sanford Fire Station
6. Sanford Memorial Gymnasium
7. Town Garage

8. Goodall Memorial Library
9. Town Farm
10. American Legion Home
11. Field Service House
12. Band Stand
13. Joseph Carpentier Field House

If any further information is needed, please feel free to contact me.

Respectfully submitted,

DONALD H. GAGNE

Wire Inspector, Town of Sanford

# HEALTH AND SANITATION

## REPORT OF THE

### HEALTH OFFICER FOR THE YEAR 1975

To The Selectmen, Town of Sanford, Maine:

As Health Officer for the Town of Sanford for the year of 1975, I herewith submit a report of health activities during the current year.

Caring for vagrants and itinerants who come to Town and need care.

Emergency Commitments at request of police or selectmen.

Exams for fitness to work at request of selectmen.

Health Calls - tenants about questionable conditions of their rents, cleanliness, sewerage, heat, water.

Daily conferences with town nurse as to problems arising with patients receiving town help. Caring for same when indicated.

Supplying drugs for patients receiving town aid.

Writing of prescriptions for town and patients thru town nurse.

Examine patients at request of selectmen and/or town nurse.

Receiving plumbing complaints and investigating same and/or referring them to plumbing inspector.

On call for town and itinerants at request of selectmen or town nurse at all times.

Telephone advice to anyone calling. These are numerous due to Health Officer classification in phone book.

Receiving and reporting to Augusta Bureau of Health all contagious disease cases reported.

Buying drugs directly from pharmaceutical houses and utilization of same drugs.

Answering inquiries concerning health inoculations for overseas travel.

Examination and stamping of inoculation reports for overseas travel.

Investigating 'Health Hazards' (unhealth living conditions, unsanitary houses, poor nutrition, maltreated or illfed children) at request of selectmen or town nurse.

Examination of elderly living alone, at request of selectmen or town nurse, to ascertain if mentally competent to continue living alone.

'Return to School' slips to school children following contagious disease.

Respectfully yours,

ARMAND S. LINCOURT, M.D.

Health Officer

# HEALTH AND SANITATION

## REPORT OF THE

### COMMUNITY HEALTH ASSOCIATION, INC.

As we continue our efforts toward educating patients and families in the maintenance of health, the prevention of illness, and adaptation to disabilities, we make frequent use of the statistics compiled by our secretary. Educators teach us the value of assessing, implementing, and evaluating our programs, and the use of statistics is one part of this process.

Our three Staff Nurses worked a total of 4,594 hours. One-third of this time was spent doing bedside nursing; one-half in holding clinics; and the remainder in supporting services, such as: staff education, professional meetings, and office work. They traveled about 10,000 miles.

Our part-time secretary spent over 1,100 hours on those duties so necessary to the functioning of a busy office. Records also show nearly 2,000 hours of administrative time, in addition to an inestimable amount of volunteer service by our thirty-member Board of Directors, and professionals who participate in our programs or act as consultants.

As a result of this cooperative effort, statistics reveal in the area of "Prevention of Disease" a 3% increase in the number of contacts; in the "Maintenance of Health" a 20% increase.

We have consistently maintained our Medicare Certification Standards, and this year are proud to state that no deficiencies were noted on the survey report sent to the Federal Agency.

Realizing the importance of continuing education, we attended over 65 meetings and workshops, and also assisted Dr. Bacon with the annual Nurses' Institute - this year on "Respiratory Care - From Crisis to Community".

Traditional programs included the Pre-School Immunization Clinics, Foot Clinics, "Holiday Clearing House", School Visits at St. Thomas, Preventative Health Visits at Sunset Tower and Riverview Manor, and the "Well-Aging Clinics" at Trafton Center, where four new programs were introduced.

As a result of the continuous process of assessing, implementing and evaluating our program, a need was discovered. The Board of Directors agreed that we could better serve as part of a larger, merged agency. This decision was reached following a year of frequent meetings with other York County Community Health Agencies, and is in keeping with recommendations by State and Federal Agencies.

December 31, 1975, marked the END of 53 years of service to the people of Sanford and Springvale as "The Community Health Association, Inc.", and the BEGINNING of a new career.

On January 1, 1976, we will become a member of the newly-established "York County Health Services, Inc.", along with "United Community Health Services" of Biddeford-Saco-Old Orchard, and the "Wells Home Health Agency". Present plans call for a main office in Saco, and branch offices in Wells and Sanford.

We are excited; we are enthusiastic; we are optimistic; we are proud to be a part of this new venture. We take with us the satisfaction of knowing we have served to the best of our ability; knowledge of the uncertainty which lies ahead; the optimism that as our new agency develops under the leadership of Mrs. Shirley Ouprie, R.N., we will realize opportunities for ever greater service.

So, watch for us! We will still be around.....

.....at our office in the Town Hall Annex  
.....at Sunset Tower  
.....at Riverview Manor  
.....at the Foot Clinics  
.....at St. Thomas School  
.....at the Immunization Clinics  
.....at the Trafton Center "Well-Aging Clinics"  
.....at any home where our services are needed.

Respectfully submitted,

(Mrs.) Marolyn P. Roberts, R.N.  
Executive Director/Administrator

## RECREATION

### REPORT OF THE ACTIVITIES OF THE

#### SANFORD PARK COMMISSION

1975

1975 showed progress for the Park & Recreation Commission, fulfilling most of our objectives of this year.

The tree program of cutting diseased trees and removal of stumps and the planting of new shade trees for beautification, continues as in previous years.

Large crowds enthusiastically received the summer series of band concerts at Gowen Memorial Park Bandstand. It has been planned to extend the concerts to include three winter presentations at the Memorial Gymnasium.

The parks & playgrounds (including the picnic areas of Gowen Park & Springvale Recreation Area) showed good attendance and much use. The Park Department Recreation Area swimming program had another outstanding season in activities and attendance. Our skating rink at the Benton Playground continued, and was enjoyed by many.

Goodall Park again had optimum use with activities scheduled from April to November. Goodall Park was used by the Sanford Park Department, Babe Ruth League, Sanford High School Varsity, Junior Varsity and Freshmen Teams, Junior High School Team, SSSYAA Midget Football, Sanford High School Girls' Field Hockey Team, Fourth of July Activities, Babe Ruth District Tournament and other groups for special events.

Work on the softball field will be completed by the summer of 1976, with nighttime lights already installed.

The new programs suggested last year have been very successful and are to be continued next year. They are: track & basketball programs to be held for young people & adults and band concerts to be held at the Memorial Gymnasium.

The tennis courts were well occupied with a program involving both juniors and adults for lessons as well as tournament action. Four tennis tournaments were held. Future plans include more tournaments for singles, doubles and mixed doubles, for all ages. Instruction has included all age groups.

Vandalism is still a problem in our parks, playgrounds and the recreation area. Damages are well over \$1,000.00

If funds are available, new programs will include: karate and exer-gym programs for all ages, male and female.

Respectfully submitted,

ROLAND A. COTE

Sanford Park Commission.

TOWN OF SANFORD

AUDIT REPORT

April 6, 1976

BOARD OF SELECTMEN  
Town of Sanford  
Sanford, Maine

Gentlemen:

We have examined the Statement of Financial Condition of the Town of Sanford, Maine as of December 31, 1975, and the related statements of general fund surplus and departmental operations for the year then ended.

Our examination was made in accordance with generally accepted auditing standards and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, the accompanying Statement of Financial Condition and related statements of general fund surplus and departmental operations present fairly the financial position of the Town of Sanford, Maine at December 31, 1975, and the results of its operations for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

PAUL A LEROUX, JR.

Public Accountant

NOTES TO THE FINANCIAL STATEMENT:

- NOTE (1) During the course of this Audit, it was discovered that an error was made in computing the amount necessary to be raised by Taxation. This has resulted in an over Assessment of \$170,076.28, which has been credited to the Surplus Account. Town Officials are aware of the situation, and corrective action is being initiated.
- NOTE (2) EDUCATION DEPARTMENT: An adjustment has been made to the Financial Statement for a voided check in the amount of \$135.00. The adjustment is not reflected in the Towns Books as of December 31, 1975, but has been corrected as of the date of this Audit. Mention of this is being made because of the difference in Surplus Balances.
- NOTE (3) SUPPLEMENTAL REAL ESTATE: The Towns procedure in the past has been to credit the Income Account for all Supplemental Taxes, committed to the Tax Collector as payments are received. For the benefit of this and all future Statements, Supplemental Taxes will be credited to Surplus, as they are committed, and not when they are collected.

Annual Report  
of the  
Sanford School Department

School Committee	Term Expires
John M. Caramihalis, Chairman	December 31, 1977
Bruce C. Carlson	December 31, 1975

Central Office

Town Hall Annex, 265 Main Street, Telephone 324-2810  
Hours: 8:00 a.m. - 12:00; 1:00 p.m. - 4:30 p.m.

No School Notification

The "No School Signal" will be sounded only on those occasions when concern for the pupils makes it imperative.

Parents are urged to keep their children at home, even when school is in session, if road conditions in their locality are particularly hazardous.

On the occasions when the "No School Signal" is sounded, there will be no school for all pupils for the entire day.

Official notification will be given whenever possible over the following radio stations: WSME, Sanford; WWNH, Rochester, N.H.; WCSH and WGAN, Portland, from 6:20 a.m. on.

The fire alarm will sound four times at 6:45 a.m.  
When it becomes necessary to suspend the afternoon session of school, the signal will be given at 11:00 a.m.

Report of the  
Superintendent of Schools

Charles A. Beattie, Ph.D.

Citizens of Sanford:

It is a pleasure to submit my fourth annual report as Superintendent of Schools in Sanford. Last year I revised our "Five Year Plan". This year I will present a report of progress along with the regular school and supervisory reports.

Facilities

The School Building Committee has continued to support the request for an addition to the junior high as their number one priority. At the state level the project has been rated as low as 15th and as high as 1st. Unfortunately, the funds are running low at the state level and there is pressure both from the Governor and the Legislature to put a moratorium on all new construction for a full year. The Sanford School Building committee report can be found elsewhere in this town report.

The School Committee continues to enjoy a wonderful relationship with the representatives of Central School. Two special classrooms, cafeteria, work area for the speech teacher, and a third grade classroom have been used over the past year. Starting with the middle of March we will be using a classroom as a Teacher Center. In this area staff members will be able to build and produce educational materials from a variety of samples and scraps donated by local professional individuals and companies. On occasion we will invite people from the area to present and share their special skills and talents with the Sanford School System.

In order to understand what is happening in the maintenance area of our buildings, please read the report submitted by our Maintenance Supervisor, Mr. Roland Carrier. We believe our school buildings are maintained better than any other buildings in the State. Thus, we wish to compliment Mr. Carrier and his workers for a job well done.

Programs

In our five year plan we stressed the importance of alternative education. It is our belief that if individuals learn at different rates, if individuals have varying learning capacities, if individuals learn from a variety of experiences, and if individuals relate differently to one another then we must offer students alternative type programs to satisfy individual needs.

Personnel

Over the past few years a number of staff cuts have been made because of school budget problems. Yet the comment is

that the school department is over staffed for a school system our size. The School Committee requested that a staff utilization study be made before the next school budget is approved. In order to be sure of a wide distribution of this study the results are included in this report.

# Sanford Committee Standards

## A. Administrators

The average number of administrators in a school district of 3000 to 3999 pupils is 16+ (1 for every 222 students)

Sanford has a total of 10

Superintendent of Schools  
 Administrative Assistant  
 Curriculum Coordinator  
 Elementary Supervisor 1/2  
 High School Principal  
 Vocational Director  
 Asst. High School Principal  
 Junior High School Principal  
 Middle School Principal  
 Asst. Middle School Principal  
 Asst. Junior High School Principal 1/2

## B. Teachers

	<u>Nationally</u>	<u>Sanford</u>
Kindergarten	- 1 teacher plus 1 assistant for every 15 students	1 teacher plus 1/2 assistant for every 25 students
Elementary	- 1 teacher to 25 students	1 teacher to 24 students
Middle	- 1 teacher to 26 students	1 teacher to 28 students
Junior High	- 1 teacher to 27 students	1 teacher to 26 students
High School	- 1 teacher to 19 students	1 teacher to 20 students

C. Special Staff positions	<u>Nationally</u>	<u>Sanford</u>
Administrative Assistant	- 1 for 50 to 250 teachers	1 for 200 teachers
Curriculum Coordinator	- 1 for 50 teachers	1 for 200 teachers
Special Ed. Coordinator	- 1 per district	0

	<u>Nationally</u>	<u>Sanford</u>
Elementary Supervisor	1 per district	1/2
Principals (all levels)	1 per 250 students	1 per 950 students
Asst. Principals (all levels)	1 per 500 students	1 per 1267 students
Guidance	1 per 250 students	1 per 630 students
Social Worker	1 per 2400 students	1 per 3800 students
School Psychologist	1 per 3000 students	1/5 per 3800 students
Nurse	1 per 50 teachers	1 per 67 teachers
Speech Therapist	1 per 2500 students	1 per 3800 students
Learning Disability	1 per 32 students	1 per 42 students
Athletic Director	1 per 1600 students	1/5 per 1300 students
Art	1 per 500 students	1 per 1260 students
Music	1 per 500 students	1 per 950 students
Reading	1 per 500 students	1 per 760 students
Librarians	1 per 300 students	1 per 950 students
Audio Visual	1 per 50 teachers	1 per 200 teachers
Secretaries	1 per 6 teachers or 400 students	1 per 13 teachers or 1 per 185 students
Custodians	1 per 8 teachers or 400 students	1 per 9 teachers or 1 per 185 students

As you review the above figures it should be clear that citizens of Sanford can be proud of operating a great school system with staffing levels below that found in many communities our size. If the financial situation improves in the near future we hope that many of the positions eliminated in the past will be reinstated.

## Report of Maintenance Supervisor

Roland Carrier

### Roosevelt School

Five units of 48 storage bins each were built for each classroom. New shades were installed in two classrooms. A new carpet was laid in the basement classroom. The boiler was cleaned and adjusted, also it was inspected twice during the year by a qualified insurance boiler inspector. Concrete floors in the basement and the main hallway floor upstairs were painted. Some roofing work was also done in August.

### Lincoln School

Some plastering in various parts of the building was done. Four pairs of exit doors were replaced, new hardware installed on some of the doors. The boiler was cleaned and adjusted and it was inspected twice during the year by a qualified boiler inspector. An interior wall on the North side was rebuilt and painted. All concrete floors in the basement area were painted. The entire dining area, walls and ceiling, was painted in April.

### Junior High School

Painting of the boys shower and dressing rooms was done. Minor repairs to the plumbing, electrical and heating was done. Four small rooms were also painted. A new water main shut-off was installed outside near the front doors. Also a new water regulator was installed by a local plumber.

### Lafayette School

A new heating control system was installed, replacing the original one which was put in 1939. The boiler was cleaned and adjusted. It was also inspected twice during the year by a qualified boiler inspector. Some minor plumbing, heating and electrical work was also done. Several doors were also repaired.

### Emerson School

Minor repair work on the plumbing, heating and electrical system was done. The boiler was cleaned and adjusted, and it was also inspected twice during the year by a qualified boiler inspector. Some painting was also done in various parts of the building.

### Sanford High School

Some minor repairs and replacement of material items such as doors, ceiling tile and heating elements has been done. Painting of four classrooms and touch-up in several others was also done. Three emergency lights were replaced. The partition door in the gym was also repaired. The gym floor was stripped and resealed in December. All tile floors were stripped and rewaxed at least twice during the year. Some heavy traffic areas have to be done more frequently.

### Junior High Annex

Some minor repairs were done such as repairing of furniture, doors and emergency lights. The flagpole was also painted. New shades were installed in two rooms. The sewer pumps were also repaired. The boiler was cleaned and inspected twice during the year by a qualified boiler inspector.

### Middle School

A brick waterproofing job was done by a local contractor in September. A new water distribution system was installed in the boiler room. Both boilers were cleaned and inspected twice during the year by a qualified boiler inspector. New shades were installed in various parts of the building. Fifteen bookcases were built for various classrooms. A small fire in the basement caused damage to a bookcase and blackened the fireproof ceiling tiles. The room also had to be painted.

### Sanford Vocational School

Some minor repairs to heating system was done. Some ceiling tiles were replaced. All tile floors were stripped and rewaxed several times during the year.

### Edison School

The dining area walls and ceiling were painted in April. Some minor repairs to heating, plumbing and electrical were done. The boiler was cleaned and adjusted. It was also inspected twice during the year by a qualified boiler inspector. An additional 400' of fencing was also installed at the rear. An interior wall was also repaired and painted.

### Central School

Some minor repairs were done to the plumbing. A "local" fire alarm system with three pull boxes was installed. A new panic bar was installed on one of the rear doors. The exterior of the building was painted by a crew from the C.E.T.A. program.

### Memorial Gym

A major tarring job of the center section of the roof was done in August. All gravel was swept aside and leaks located and patched. We spread over 300 gallons of roofing material on the entire section. The bleachers were repaired. Six bleacher boards were replaced. The entire lobby downstairs was painted. The main floor was stripped and resealed in August. All concrete floors in the tunnel, lobby, cafeteria, shower, dressing rooms, and stairways were painted. A brick waterproofing job was done on the North, South, and West walls by a local contractor. Emergency lights were installed at both ends of the tunnel.

### All Schools

Snow plowing in the school complex is done by a contractor.

Sanding and patching is done by the highway department.

Snow plowing around the various elementary schools is done by our own pick-up truck.

All fire extinguishers were checked. Soda-Acid extinguishers were refilled by us on the premises. All others if needed were sent to Portland for refilling and testing.

Hot lunches are transported by van to all schools. The driver is Albert Cote and he also is custodian of the Junior High Annex.

All fire alarm systems were tested by the Fire Department.

All schools were inspected during the year by the insurance inspector.

The maintenance crew consists of:

- 1 Supervisor
- 1 Electrician
- 20 Custodians
- 1 Matron
- 2 Matrons (CETA)
- 2 Custodians (CETA)

### Report of the Community Adult Education Director

John E. Webb, Jr.

It's 8:30 o'clock in the evening, but the high school parking lot is filled. Inside, lights burn brightly. The hallways bustle with activity. In the cafetorium we find a square dancing class and in the gym 150 ladies are exercising. In the English wing almost all the classrooms are filled with people who are taking courses to earn a Sanford High School Diploma or a State of Maine High School Equivalency Certificate. Down the main corridor, men and women are in a classroom where English is being taught while in the vocational wing adults are learning new skills.

In the conference room, the local citizens' advisory board is meeting to discuss future courses. This a typical evening of programs developed by the Community Adult Education Division of Sanford Public Schools. In addition to adult courses, enrichment programs, cultural events and community service projects, adult education endeavors to share and utilize local resources by administering programs that use local facilities and benefit individual taxpayers, schools, businesses, governments, and private non-profit groups.

The group of note for 1975 was those citizens who served in some branch of the Armed Services since January 1, 1955. Many of these veterans are returning to school to earn a high school diploma. At the present time, there are nearly 100 in residence at Sanford Adult Evening School.

Adult education is perceived differently by all who participate. For example a person may enroll in a review shorthand course to improve old skills while another may wish to pass a Civil Service test to gain a promotion at the Navy Yard. This past semester 1211 adults were registered for courses and another 136 were placed on waiting lists. This compares to approximately 1000 total for the previous semester. Over 120 courses were offered during the total 1975 season. Examples follow: basic auto mechanics, pre-chemistry, English I (day), English I, shortland I, pre-algebra, basic building construction, basic drafting, intermediate sewing, algebra I, American History, biology, English II, machine trades I and II, typing I, algebra II, bookkeeping I, bookkeeping II, cake decorating, advanced crewel embroidery, electricity code III and IV, high school equivalency, furniture fabrication, home horticulture, occupational service health act, men's physical education, basic sewing, basic square dancing, electric welding, heliarc welding, women's auto mechanics, basic crewel embroidery, women's exercise, personal finance, first aid, introduction to graphic arts, hospital management, basic house wiring, junior high school completion, print making, basic upholstery, woodworking for beginners, holiday crafts, women's physical education, oriental dance, conversational Spanish, blueprint reading, machine shop, dog obedience, beginner's oil painting, tailoring, Americanization, high school equivalency testing, and home management classes.

Since most adults are part-time learners, the Community Adult Education Division of Sanford Public Schools endeavors to make learning opportunities available to adults at times and places that are convenient to them.

Report of Curriculum Coordinator K-12

John J. Ford III

"....it is impossible to foretell definitely just what civilization will be twenty years from now. Hence it is impossible to prepare the child for any precise set of conditions. To prepare him for the future means to give him command of himself; it means to train him so that he will have the full and ready use of all

capacities; that his judgement may be capable of grasping the condition under which it has to work...It is impossible to reach this sort of adjustment unless regard is given to the individual's own powers, tastes, and interests..."

John Dewey  
My Pedagogic Creed  
1897

This statement reflects what I see as the goal of education in Sanford. It is to educate each student with regard to their own needs and interests. It is to provide students with the skills which will enable them to cope with our constantly changing society.

As Curriculum Coordinator, the following statements describe the tasks which I have been involved with during the past year. It is my belief that these tasks are consistent with my goal of education.

### I. Testing

- A. The Stanford achievement tests have been administered to all students in grades 1-8. The results show that Sanford students are achieving very well as compared to students throughout the nation. We are doing especially well in reading; and have shown improvement in the areas of reading, computation, spelling, and auditory as compared to last year.
- B. An evaluation was conducted of the new nongraded program at Edison, and the open learning community at the Junior High. The results indicated that both programs are successful alternatives for our students.
- C. We will be administering achievement and aptitude tests to grades 9-12. These tests will be most helpful in making effective placement decisions.

### II. In-Service Educational Program

#### A. One Session Seminars

These sessions are conducted about two afternoons a month for the purpose of exposure to new ideas and techniques. During 1975 the following sessions were held: "Books and Media Materials K-8", "Brainstorming: A Discussion Technique for Open Communication", "Books on Exhibit", "Creative Use of Slides", "Workshop on Gestalt Therapy", "Continuous Progress in Reading", "A.A.S.A. Conference", "Observing Teaching Activities", "The Wisconsin Design", "Reading Works", "Free to Be He and She", "Future Shock", "Decisions Concerning Learning".

## B. Inservice Courses

These courses provide retraining and professional growth for the staff. During 1975 the following courses were offered: "Teaching Children with Special Needs", "Educational Law", "Use and Application of Audio-Visual Materials", "The Process of Curriculum Development", "Career Education in the Elementary School" (graduate course - 3 credits), "Motivating Students to Learn" (graduate course - 2 credits), "Madison Mathematics Project" (graduate course 9 credits), "Unified Science and Math in the Elementary School" (4 graduate credits).

## C. Curriculum Workshop Day

These days are for curriculum areas which will effect the entire staff. During 1975, we had a workshop day on comprehensive planning. During this day we produced behavioral objective booklets for all subject areas.

## III. Curriculum Newsletter

During 1975 three newsletters have been distributed. These newsletters provide communication concerning what is happening in the various schools, present new ideas, and serve as a vehicle for staff writing.

## IV. Special Education

- A. New guidelines for the transportation of handicapped students have been developed.
- B. A new special education resource center has been added at the Junior High School.
- C. Descriptions and procedures of the various special education programs have been written.

## V. Curriculum and Program

- A. A Family Living Program for grades K-3 and 7-8 has been developed and implemented. Parent meetings were held throughout the community to explain this program.
- B. Performance objective booklets have been developed for each subject area for grades K-12. This is a first step in developing curriculum guides.
- C. A team teaching program has been introduced at the Middle School. Parent meetings were held to explain this program.
- D. Thirty teachers were trained in the Madison Math Project. This enables teachers to supplement their regular math program with many manipulative activities and games.

- E. Six teachers and two administrators were trained in the Unified Math and Science in the Elementary Schools program. This enables teachers to supplement their math and science with a problem solving approach to learning.

## VI. Proposals

Many proposals were written last year for Federal and National Science Foundation money. We were lucky enough to get one Federal and two National Science Foundation Grants.

### A. Special Education Resource Center

This was a one year grant for \$15,000. The money was for salaries of a special education teacher, an aide, equipment and materials.

The program provides a special need service which was previously unavailable to our students.

### B. Madison Math Project

This math program provided over \$5000 worth of training and materials to our school system. Thirty-two teachers were trained under this National Science Foundation grant.

### C. Unified Science and Math in Elementary Schools

This program provided over \$9,000 worth of training and materials to our school system. Six teachers and two administrators were trained under this National Science Foundation grant.

## VII. Administrative

1. An affirmative Action plan for the Sanford School District has been developed. This was done to bring our school system in compliance with Title IX.

Report of Principal of Sanford High School

John R. Parker

## Enrollment

Our enrollment as of September 12, 1975 was 1282. This is an increase of 22 students over last year. Local enrollment showed an increase of 10 students and vocational tuition enrollment increased by 12 students. Tuition enrollment was 86, all of whom were enrolled as full-time (63) or part-time (23) vocational tuition students. Students were enrolled from Marshwood (1), Noble (25), Traip (22), and Wells (14) and York (1) on a full-time

basis, and from Kennebunk (2) and Massabesic (21) on a part-time basis.

The transfers in continue to equal or outnumber the transfers out and drop-outs so that an opening enrollment approximating 1300 students seem assured for some years to come.

<u>Year</u>	<u>Resident</u>	<u>Tuition</u>	<u>Total</u>
Freshman	344	0	344
Sophomore	342	11	353
Junior	252	52	304
Senior	257	23	280
Post-Graduate	<u>1</u>	<u>0</u>	<u>1</u>
	1196	86	1282

### Facilities

This is the sixth year in this building and it continues to receive increasing use. When assessing the maintenance and upkeep of this facility one should be aware that besides its daily use by 1360 students and teachers it also houses approximately 1,000 evening school and York County Community College students and teachers plus its use by local governmental and civic organizations. It should be noted that none of the non-day school use has been recompensed in our operational budget.

The general condition and upkeep of the facilities are attributable to the care shown by the custodial staff, the student body and the teaching staff.

### Academic Programs

The English elective program has been modified and is available only to Seniors. Full year courses in Business English, Vocational English, Senior English for the College Bound and Senior English for the Non-College Bound are being offered.

The Algebra 1 1/2 and Computational Geometry are in their second years and are attractions to the non-college bound student.

The Special Needs program, serving selected students from grades 4-12, providing individualized instruction in the basic learning areas and mainstreaming in the elective areas is well into its second year of operation.

### Faculty

The present faculty includes six new members. Five teachers were hired as replacements and one additional science teacher was added to accommodate the increased science enrollment.

## Evaluation and Accreditation

Sanford High School was visited by the New England Association of Schools and Colleges in October, 1973 for the purposes of re-evaluation and accreditation. We were recommended for continued membership and accreditation for a ten year period.

In June, 1975 a two-year Progress Report was filed and subsequently accepted by the NEASC with commendations. A Five-Year Progress Report will be due in June, 1978.

## Extra-Curricular

Sanford High's music organizations, clubs and activities offer concerts, exchanges, dances and productions on a continuing basis. Bicentennial events have come into focus and will continue throughout the Bicentennial year.

Student participation in music activities is at an all-time high. Sanford fielded a much improved and highly acclaimed marching band which performed at all football games. The student Dance Band also performed at several functions. The Glee Club was the largest in ten years and was complemented by a concert choir of selected voices.

Since September 1975, we have held: Freshman Parent's Night, General Open House, Day and Night Parent Conferences, Financial Aid Night and a Post-High School Careers Night.

## Athletics

The athletic teams are now competing against all schools in the Big 8 - Portland, South Portland, Deering, Westbrook, Cheverus, Biddeford and Thornton. In most instances we have done very well considering the "feeder" systems now prevalent in most of the schools with whom we participate. In order to continue this growth it is imperative that all teams, boys and girls, junior high, freshman, junior varsity and varsity receive the attention they deserve.

Eighteen teams were fielded during the past year. These included: basketball (5 teams), wrestling (2), baseball (2), golf (1), field hockey (2), cross country (1) and football (3). Winning seasons were recorded by 12 of the 18 teams competing; including 7 of the 10 varsity teams and 3 of 3 freshman teams.

Varsity records: 78 W - 56 L - 4 T

J.V. records: 21 - 33 - 1

Frosh records: 19 - 7 (plus League Champs in Baseball)

## Follow-Up

The Class of 1975 graduated 267 students, a follow-up of which shows that:

39% continued their education on a full-time basis  
 38% are employed (71% locally)  
 3% are married  
 10% are in Federal service  
10% are unemployed  
 100%

### General

The students, faculty and staff are commended for their continued cooperation and spirit. The various Booster groups are especially commended for their untiring efforts on behalf of our students. Your efforts are greatly appreciated.

My personal appreciation to all who continue to support Sanford High School.

### Report of the Vocational-Technical Center Director

Frederick A. St.Cyr, Jr.

### Enrollment:

Beginning enrollment for this year reflected a marked increase in many areas as compared to the previous year. Opening enrollments by instructional area were as follows:

Applied Science	26
Child Care	33
Data Processing	23
Power Mechanics	28
Building Trades	39
Drafting	20
Electronics	26
Graphic Arts	16
Machine Trades	29
Metal Fabrication	31
Cooperative Education	42
Special Education	<u>22</u>
Total	335

Of the total number of 335, 235 were male and 100 were female. Enrollment in Business, Home Economics and Industrial Arts Programs have not been included in the above figures. Since the beginning of school, many of the above programs have shown additional increases in enrollment.

A total of 86 tuition students were enrolled at the Center either on a part-time or a full-time basis. A breakdown by school is as follows:

Sanford High School	249	(non-tuition)
Kennebunk High School	2	
Marshwood High School	1	
Massabesic High School	18	(Part-time tuition)
Noble High School	27	
Traip Academy	22	
Wells High School	15	
York High School	<u>1</u>	
Total Tuition	86	(excluding Sanford)

#### Facilities:

The addition of expanded program offerings and updated curriculum have once again necessitated internal renovation of the Vocational facility. Data Processing has been relocated in the suite of rooms adjacent to the Cooperative Education Coordinator and the Vocational Guidance Counselor. This area originally housed the Industrial Arts drafting program.

Room V-11, formerly Data Processing has been sub-divided in order to provide much needed lab facilities for Special Education. The new Special Education facility includes a lab area for "hands-on" activity, and adjacent related area for remedial classroom work, an Audio-Visual area and much needed storage space. The remaining area in V-11 is to be used as a related classroom for Cooperative Education and seats 30 students. At the rear of this classroom is additional storage space.

The renovation was completed by several Building Trades students under the direction of Roland Hannaford, Building Trades Instructor.

The Special Education Program which has been temporarily housed in the Audio Visual Room (V-14) will be moving into its new quarters before the end of the current school year. Once the move is completed, room V-14 will undergo slight modification for use as a mini-studio for T.V. Video Taping in addition to its utilization as an A.V. room.

#### General:

During the past year the Advisory Group consisting of area Superintendents and representative School Committee members met at periodic intervals. The primary objective of this group is to advise the Regional Vocational Center and to discuss problems common to all schools sending students to the Sanford Center.

In addition, Craft Committees representative of business and industry have been meeting on a more regular basis. These groups have proven to be extremely valuable in terms of offering suggestions for the improvement and up-grading of curriculum in individual Vocational areas of instruction.

The Sanford Adult Evening School program under the direction of John E. Webb, Jr., once again have an extremely busy and successful year in terms of programs utilizing vocational facilities. From increased enrollment it is evident that more adults are returning to the shops and classrooms for upgrading an existing skill or trade, preparing for a new vocation, or simply wishing to acquire knowledge and skill in better utilization of leisure time.

#### Staff:

Five full-time staff members left positions during the past year. Mrs. Cynthia Morgan retired from teaching after many years of successful teaching in Home Economics. Mrs. Eleanor Knightly resigned her position with the High School Business Department. Her contribution to the Department is greatly missed. Mr. Theodore Blaisdell retired as Driver Education Instructor. Miss Deborah Barrett, Special Education teacher, resigned her position to return to her home State of Massachusetts as a Special Education teacher. Dr. Donald Poulin resigned his position as Assistant Vocational Director in order to enter into private business.

Added to the staff were Mrs. Joan Nass, Home Economics Department, Miss Sandra Feranec, Special Education, and Mr. Westcott Merrow, Industrial Arts drafting instructor. Mr. Merrow replaced Mr. Warren Swanson who was a full-time substitute.

We have concluded another productive and successful year. We owe this success to a supportive and interested community, a dedicated, cooperative, and well qualified staff, excellent facilities and a fine nucleus of young, spirited students.

My personal thanks and appreciation to all who continue to support quality Vocational Education in the Sanford School System and the surrounding communities.

#### Report of Sanford High School Guidance Director

Leland D. Churchill

During the past year the Guidance Department of this high school has extended itself to meet more adequately the needs of all high school students. Some of the highlights of the year are the following:

Ninth Grade Parents' Orientation Night  
Higher Education Night  
Financial Aid Night  
Military Career Day  
Vocational Career Day

These programs were designed to serve both students' and parents' needs and were actively supported by parents.

The need for students to know more about themselves in respect to their future goals has created a need for a comprehensive testing program. To this end, for the first time in several years, all students will be afforded the opportunity to participate in an achievement testing experience and in a vocational interest inventory. This added information should assist students to make better career choices while in high school.

Counselors are involving themselves in more classroom group experiences. Some of the topics which have been emphasized are:

- Counselors' role
- Student responsibility regarding career choices
- Career information
- How to interview for employment
- Advanced Placement Testing
- College Board Testing Program

Senior students were afforded the opportunity to participate in a research project conducted by the University of Michigan called "Monitoring the Future". This is a continuing study of lifestyles and values of youth. Information from this study should assist in developing relevant programs for today's youth.

A student contract system has been devised to assist certain students to be able to achieve greater success in school.

Counselors have improved themselves professionally by participation in extension and in-service courses. They have worked with teachers in evaluating existing programs and have assisted in the development of new programs.

I would emphasize that it has been a very active year for the Guidance Department. The economy of the country and the high cost of education have created new dilemmas for the student and many more measurable challenges for counselors.

In closing, I would like to thank all the students and parents who have actively supported the Guidance program this year.

Report of the  
Junior High Principal

Richard J. Damelio

In August of 1974 a "plan for change" at Sanford Junior High was presented to the Sanford School Committee. This plan received their support and has since, as indicated in a number of surveys, received the support of the community and student body.

This past spring the school made available to parents a booklet titled "Schools Within a School, The Sanford Junior High Story". This booklet was developed by the faculty, in an effort to portray to the community what we were doing and where we were going.

Even though the program for alternative education at the Junior High has only been in existence for a little over a year, it is felt that the results of this change are significant enough to comment on.

Surveys and evaluations, along with student, teacher, and parental reactions to the program have indicated the following:

1. Sanford Junior High is doing a good job meeting the needs of each student.
2. Organizing the school into learning communities has been effective.
3. A significant increase in student participation in co-curricular activities has occurred.
4. The mini-course program has been received favorably for both parents and students.
5. The open-concept learning situation existent in Learning Community II has proven to be a positive learning environment for certain students.
6. The relatively small number of student management problems is an indication that the students have a positive feeling about school.
7. School attendance has been very good during the past year.
8. This year's freshman class at the high school showed a significant decrease in the percentage of students failing academic courses for the first quarter of their freshman year as compared to the grades of last year's freshman class for the same marking period.

NOTE: Residents of the community interested in seeing any surveys or evaluations done during this past year, may do so by stopping in at the school office at their convenience.

#### PROGRAM:

With the opening of school in September, we saw several new programs beginning at the Junior High. They are:

#### RESOURCE CENTER

This program is one that was badly needed at the Junior High School. This program filled a large gap that existed in the school system's programs for students with special needs. Up until this year there were special needs classes available for students in grades K-6, and grades 9-12. This meant that youngsters with severe learning problems were held back in the Middle School until they were old enough to be jumped up to the High School. Students

having less severe learning problems came to the junior high and for the most part were totally mainstreamed into regular classes. As a result, these youngsters received very little special assistance.

The Resource Center is being funded by a one year Federal grant. This program will have to be paid for by the community in future years if it is going to continue.

## HEALTH AND FAMILY LIVING

Through the efforts of a committee that consisted of Jeanne Gauthier, head nurse for the Sanford School System, Rita Howe, Science teacher at the Junior High, John Ford, Curriculum Coordinator for the Sanford School System, and Roland Normand, Guidance Counsellor at the Junior High, a health and family living program for eighth grade students started this past September.

This is an elective program for eighth graders and is being taught by Rita Howe and Kent Kannenberg.

## ART AND MUSIC PROGRAM FOR EIGHTH GRADERS

This year, Mary Smith, the Art teacher at the Junior High, and Diana Tomasello, the Music teacher at the Junior High, organized a compulsory elective program in music and art for eighth grade students.

Each student is still required to take one half year of art, and one half year of music. The difference is that each student was given the opportunity to choose from a variety of courses in each of these subject areas.

The courses being offered in each area are:

## ART

Drawing & Design  
Painting  
Printmaking  
Crafts  
Man's Dwelling Place

## MUSIC

Humanities  
Folk Music - Our Heritage in  
Chorus Song  
Movement in Dance  
Beginning & Intermediate  
Guitar

This program has met with much success because our seventh grade program exposes them to the various components of the eighth grade program. Then when a student enters grade eight he has an opportunity to pursue a particular area of interest.

LEARNING COMMUNITY III  
(Activity Centered Education)

The teachers in this learning community have been working very hard to organize their programs in such a way that the major

methods of instruction are student centered and emphasize a group oriented approach to the curriculum.

The complete development of this particular learning environment will probably take a good two to three years to fully develop.

#### FACULTY & STAFF

This year we hired Ms. Diana Tomasello as our new music teacher. Ms. Tomasello replaced Kent Kannenberg who did a very capable job substituting in music last year.

Ms. Tomasello has had considerable experience in music education at the junior high level and has already proven to be a fine addition to our faculty.

For our new resource center, we hired Miss Christine Aronson. Miss Aronson graduated from Farmington State College with a degree in Special Education.

She, along with Miss Carole Walden, the project director, and Kent Kannenberg, the teacher assistant in the center, have done an excellent job getting this new program off to a good start.

#### FACILITIES & EQUIPMENT

As I indicated in my last report, additional space is still our greatest need. Our program is improving and becoming better able to meet the needs of the students, but the facilities are hampering our progress.

Our library and cafeteria are terribly inadequate for the 640 students attending the school.

We lack adequate space for our Reading, French, Learning Disabilities, and Resource Center programs.

Other areas that are crowded or not adequate are the open area, which houses four teachers in an area originally designed for two, our home economics area, our instrumental instruction area, and our administration, guidance and nursing units.

Teacher work space and storage space are also a serious problem.

Another area that is fast becoming inadequate is our activity room or gym. The increase of our intramural and interscholastic athletic programs, coupled with increased usage by other departments in the school is beginning to create a scheduling problem.

Another area of concern is the needed replacement of both instructional and non-instructional equipment. The school is now sixteen years old and still continues to be extremely well taken care of by a very conscientious and cooperative custodial staff, faculty and student body.

What must be done, though, is that we must begin replacing, in order of priority, those pieces of equipment that are beginning to wear out.

## CONCLUSION

The commitment and dedication shown by the faculty and staff is probably the ingredient that has been most responsible for the success we've experienced at the Junior High over the past year.

In addition to this, the cooperation I have received from the Superintendent and his staff, School Board, community and student body has been greatly appreciated.

This has personally been a very rewarding and exciting year for me and I look forward to the future of Sanford Junior High with a great deal of optimism.

## Report of the Middle School Principal

W. Bruce Parsons

## Enrollment

As of December 1, 1975 the enrollment of the Middle School was 792, as compared to 776 on December 1, 1974.

## New Structure

This year a restructuring of the Middle School was accomplished. Beginning in September, classrooms were grouped into section/teams of from 2-4 teachers each. Students were assigned to the teams and now remain within those sections for most of their academic program. This team setting has produced many benefits. A stronger teacher/student relationship has developed. More time has been available for instruction since 20-25 minutes of travel time from class to class has been eliminated. The safety and supervision of the students has been enhanced and discipline cases have been reduced. The school atmosphere has become less hurried and less pressured. In this structure the special needs of a student are more carefully monitored and provided. Communication with the home regarding progress or problems has been more efficient. The simpler schedule has allowed teachers to be able to work more closely together in all phases of their students' school life, and in all of the sections the staff is engaged in a cooperative sharing of their talents and abilities.

## Classroom Alternatives

Within the school there are now at least three alternatives:

1. This year a (4 -5) non graded/open area was established and a 6th grade class and teacher has been added effective Jan. 5, 1976.

About 80 students (4 - 6) will be able to operate in this program which provides a natural transition from grades (1 - 3) open classrooms to the Junior High's open area. 2. As in the past some sections are basically self-contained although the teachers in the section do some team planning. 3. Other sections feature team planning with the members taking responsibility for different subject areas. These alternatives will be continually refined and defined during the coming year with the goal of providing for different methods of learning and teaching.

### Program

The math and science areas of the program have been added to and improved during 1975. A modern elementary science program has been adopted at the Middle School. S.C.I.S. (Science Curriculum Improvement Study) emphasizes the understanding of scientific concepts and facts through student experimentation and analysis information. The S.C.I.S. material has been very motivating for students.

Through a National Science Foundation Grant (6) Middle School staff members received training in a Unified Science & Math in the Elementary School Program. The U.S.M.E.S. concept helps the students to learn through solving real problems. The solving of these problems - includes math and science and often elements of the other academics as well. New 5th and 6th grade math books were purchased thus completing the 4-6 revision. During the summer and at meetings in the fall 7 Middle School staff members received training in math teaching techniques. A Math Resource Center has been started in the school library. The recent teacher training, new books and resource material will significantly improve our math and science programs for students.

In the winter (1975) intramural activities were provided for in the budget. Due to cuts those activities are not now provided for students. It is only through Mrs. Skimin and Mr. Faulkner volunteering their time that gymnastics and intramural basketball are being offered.

1975 marked the end of the French program for Middle School students. Due to budget reductions the teaching position was eliminated. The library aide position also deleted is expected to reduce the amount of services provided to the primary schools by the media specialist.

### Staff

This year two teachers left our school and were replaced by Mr. Andrew Bors (Grade 4) and Mrs. Nina Chabot (Grade 6).

### Activities

During the year several special events have been held at the Middle School including: Grandparents Day, Donuts for Dad, a Physical Education night, a Spring Musical, National Education

Week Program, Halloween party, Children's Theatre Presentation, Christmas Program, Science Fair, regular P.T.A. programs/ meetings, and informational sessions for parents regarding the new Middle School structure.

### General

In the past year public financial support for the local educational program has wavered and the budget increases have failed to keep up with a rising inflation. As indicated before some positions/programs have been eliminated and there has been a general reduction of materials and services available to students. The Middle School staff remains committed to providing the best in educational services for Sanford children and with a commitment from the community these services can be maintained.

#### Report of the E Elementary Supervisor K-3

Clyde P. Kimball

The enrollment of the six elementary schools as of October 31, 1975 were:

Edison	- 169
Emerson	- 171
Lafayette	- 163
Lincoln	- 191
Roosevelt	- 307
Central	- 41
	<u>1042</u>

This is a drop of 9 pupils from last year. But it is the largest kindergarten we ever had so it looks like the trend is going back again to larger classes.

In 1974 we dropped a second grade because the classes were getting smaller. This year we dropped a third grade.

No new teachers were hired this year, some new changes were made. Mrs. Johnson was moved from the Middle School to be Principal of the Emerson School because of the retirement of Mrs. Schmottlach. Mrs. Kimball was appointed Principal of the Roosevelt School taking the place of Mrs. Martin because of personal reasons. Mrs. Chabot was moved from Emerson to Middle School and Miss Abbott was moved from a third grade to a first grade at Emerson. Mr. Marshall was moved from the Elementary Music Supervisor position to the open classroom at the Edison School.

The Math classes that I started at the Emerson, Edison, Lincoln and Lafayette Schools I think proved very successful. The 28 children seemed to enjoy them a great deal.

I know the children had a good time in the athletic program.

I work with the principals of these six schools to try and keep the successful and up-to-date programs running smoothly.

### Central School

There are three classes at the Central School, a regular third grade and a primary trainables of eleven members, and an intermediate senior class of seven.

The staff room has been the location of Adult Education classes from the High School Equivalency taught by Mr. Webb and Mrs. Caroline Merrifield.

There are and have been four groups of mothers meeting with Anna Lou Palmer, Social Worker, and Willine Twombly, Learning Disabilities teacher. They have many discussions and work sessions.

### Edison School

A new addition here is the Learning Center operating under the guidance of Dr. Deborah Stone and Dr. Donald Graves of U.N.H. Two teachers, Miss Dollie Hutchins and Miss Deborah Nichols, are team teaching in a transitional first grade. They are providing a great variety of interesting learning experience inside and outside of the classroom.

Another new addition is a Resource person, Brian Wormwood who is based here. He travels from school to school working in grades K-3 with about thirty children enabling them to spend most of their time in a regular classroom.

### Emerson School

At the Emerson School they have established a multi-purpose facility which contains the school library. The custodian, Mr. Gagnon, and some volunteer parents were instrumental in cutting down and transferring existing tall bookcases to a six-nine year old's easy reach around the lower walls of this multi-purpose room. A movie projector has been permanently set up so that up to half the school may view movies at one time. (They have been fortunate in obtaining free movies relating to safety and health yet entertaining to the children.) A piano has been located here also. A minimum amount of furniture takes up space because children sit on double rugs purchased by their very active parent-teacher organization. (This same organization has recently purchased 9 x 12 rugs for each of their seven remaining classrooms giving the little ones a welcome respite from the confines of desks and chairs all day long.) It was in this room that they displayed articles from their Learning Festival during National Education Week. Proceeds from this Learning Festival are expected to be used to outfit a proposed workshop in the basement of the school for hands-on activities in crafts.

They have been fortunate in the volunteer services of several parents, notably Mrs. Barbara Curly, Mrs. Ann Turner, who take care of the library and also Mrs. Marie Jackson and Mrs. Helen McCann. At present they are making contacts with other parents and senior citizens to man their multi-purpose room and/or their proposed basement workshop.

### Lafayette School

There are eight classrooms at Lafayette. They consist of one transitional first, two firsts, two seconds, two thirds, and one class in Special Education\*. All are self-contained except for the two third grades. These two grades exchange classes for reading, science, and social studies. (\*Occasionally children are referred to this class from other classes for special help. This is a partial arrangement.)

During the fall semester, three young men from Nasson College have voluntarily given one hour per week of their time for the instruction of physical education for all grades. These boys have done a fine job and have been very well received by the children.

The Transitional first grade has been enjoying an early morning breakfast snack consisting of cereal with raisins, bananas, or orange juice and with milk. Any child in this grade whose parents sign a permission slip may participate and there have been ten to twelve daily. The snack is served before the beginning of the school day.

### Roosevelt School

At the Roosevelt School the six kindergarten teachers are continually concerned with the needs of each pupil, and, with the help of the three aides, are providing for individual differences in a variety of ways.

A new approach to skills development has been used this year. Four days a week, for part of each day, each of the six rooms became a center for developing one of the following skills:

1. Large muscle development
2. Small muscle development
3. Visual discrimination
4. Auditory discrimination
5. Communication
6. Thinking skills

Each child "visited" the room where his key weakness could be treated; then he began a tour of the school, visiting each skill center for one week, the teacher recording his performance. The children are developing not only the above mentioned skills, but also their independence, as they move throughout their school and work with a variety of adults and peers.

As a result of this skills development program, each kindergarten teacher will be able to more accurately fulfill the needs of her pupils by strengthening their weaknesses and building their strengths.

I have enjoyed working with the Superintendent, principals, and teachers, visiting classes, holding meetings, working on committees and helping wherever possible.

Report of  
Health Services

Jeanne A. Gauthier, R.N.

The Health services of the Sanford School System consists of a personnel of 3 Registered Nurses, all certified by the State Department of Education, an Optometrist, and 2 School Physicians (one more physician was added in September due to the increasing work load) and a very dedicated volunteer, Mrs. Dorothy Otis.

Their responsibility is primarily to screen physical problems and refer them to their own family physician, ophthalmologist, optometrist of their choice, for correction. The following services were given:

Physical Exams: Grades K-3-6-9 and all students participating in competitive sports.

Vision Exams: Grades 1-4-7-9 and then all referrals in other grade levels done by the nurses or trained volunteer using a vision testing machine.

Hearing screening: Grades K-3 and referrals in other grade levels.

Tine (T.B.) testing is done on all school personnel by the nurses and a chest x-ray is ordered if the screening is positive on an individual. This is mandatory.

First Aid or Health care units are maintained by nurses in the Middle, Jr. High, and Sr. High Schools. "Float" days are allocated to each nurse during the week to visit the schools on the K-3 level and the nurses are on call to them during other periods of time.

I cannot emphasize enough the need for the cooperation of the parents. Our job is not to interfere but to aid their children in overcoming physical obstacles that will hamper their learning processes.

Report of the  
Director of Title I ESEA

Kenneth Johnson

Title I ESEA Fiscal Year 1976, which commenced July 1, 1975, allocated funds in the amount of \$53,746 to the Sanford Public Schools. This amount was \$9,478 less than the Fiscal Year 1975 funding. As funding was reduced, it again became necessary to re-vamp the Title I program structure. The program operations which began in September 1975 now provide for the services of three remedial reading teachers, three remedial reading teacher aides and the services of a remedial mathematics teacher for one half of the school year. Also provided under the program are the services of a driver/custodian of the Mobile Reading Laboratory, funds for plant operation and maintenance and fixed charges, such as insurance for the Mobile Reading Laboratory. No funds are provided for administration and direction of the program.

Due to reduced funding of the program for the past two fiscal years, we have been unable to provide for a summer program. This is indeed unfortunate for the summer programs allowed for continued efforts on the part of the staff and less interruption of the student participant's program and progress.

Listed below is the Title I ESEA budget for the Fiscal Year July 1, 1975 to June 30, 1976.

Salaries (7) Seven staff members	\$51,943
Operation of Plant	400
Maintenance of Plant	350
Fixed Charges	<u>1,053</u>
Total	\$53,746

The program was evaluated on December 1, 1975 by Donald Zambri, Title I ESEA Consultant, State Department of Educational and Cultural Services.

Mr. Zambri indicated that all aspects of the program were well within guidelines and that the program was satisfactory in all areas. He also praised the staff for their qualifications and methods of operation designed to meet the needs of the student participants.

Report of the  
Audio-Visual Specialist

Kenneth Johnson

The school year thus far has been a challenging one. The new thrust toward individualization and team teaching in the Middle School have greatly increased the demand for library and audio-visual resources. Unfortunately, the limited budget has not allowed me to provide all the requests for audio-visual materials, references, and equipment. At the present time we have what would appear on the surface to be adequate supplies of these materials.

However, much of the audio-visual software, filmstrips in particular, is showing signs of wear and tear and rapidly becoming outdated. If we are to meet the needs of the youngsters in this area, the audio-visual library must be replenished, updated, and expanded.

As the year 1976 commences I will no longer have the services of Mrs. Dapas as library aide. This will mean that I can no longer immediately meet the request of all teachers for materials, supplies, and equipment. This will particularly affect services to the K-3 elementary schools, as I do not feel that the Middle School Library/Media Center should be closed, even briefly, during the pupil day. Therefore, requests for lamp replacements, a piece of equipment, a-v materials from the K-3 schools will have to be honored after the pupil day ends at the Middle School. This will be the first time since the opening of the Middle School that the library has been without the services of an aide. Only time will tell what impact this will have on the students and the programs of grades K-6.

#### Report of the Sanford School Building Committee

The Sanford School Building Committee has submitted a school project to the Department of Educational and Cultural Services. This Junior High Addition, estimated to cost \$2,540,000, will provide extra classrooms, a physical education station, a music resource center, shops, home economic areas, new spaces for special education, and renovation to some of the present facilities.

Because of the new school finance law the project must be approved by the State Board of Education for funding purposes. In October 1975, the Sanford project was listed with two other communities in fifth position. However, in order to have the project approved the State Board would have to approve expenditures up to \$11,555,000 before reaching the Sanford addition.

Each project is evaluated by the State using a number of factors, such as - safety, overcrowding, age of facility, enrollment projections, lack of adequate facilities, and need for new facilities to meet state mandated programs. The Sanford project is rated at 44 points which is one point below the four top projects on the Priority State Department list.

The Building Committee is still hopeful that the project will be approved in the near future. Until some positive action is taken the Building Committee will continue to keep the citizens informed. If anyone has questions about the project they should contact one of the following members:

Mr. Emil Raatikainen - Chairman  
Mr. Eric Allain  
Mr. John Caramihalis  
Mr. Bruce Carlson  
Mrs. Jean Colville  
Mr. Eric Elliot  
Mr. Aldege Gauthier  
Mr. Raymond Letourneau  
Mrs. Joan Ann McLaughlin  
Mr. Richard Neal  
Mrs. Lorene Patterson  
Dr. Charles A. Beattie, Secretary

I wish to thank the School Committee, the staff, the citizens of Sanford, and students for supporting a quality education program in Sanford. We hope and pray that this school system will continue within its financial perimeters, to meet the needs of all the students.

Respectfully submitted,

Charles A. Beattie, Ph.D.  
Superintendent of Schools

GOODALL HOUSE SELECTED FOR  
REGISTER OF HISTORIC PLACES

The home of Thomas M. Goodall at 232 Main Street has been placed in the National Register of Historic Places by the National Park Service. It is the first structure in the community to be so honored.

Built in 1871 by Thomas Goodall, the founder of the Goodall textiles mills, the house is an excellent example of the French Second Empire architectural style. The square-shaped house stands three stories high, and has a mansard roof with a square cupola. It is all frame construction with a granite foundation.

The mansion was placed in the Register because it is an excellent Victorian example of a successful mill-owner's residence and it represents the kind of house that mill and factory owners were building in the small towns throughout New England at that time.

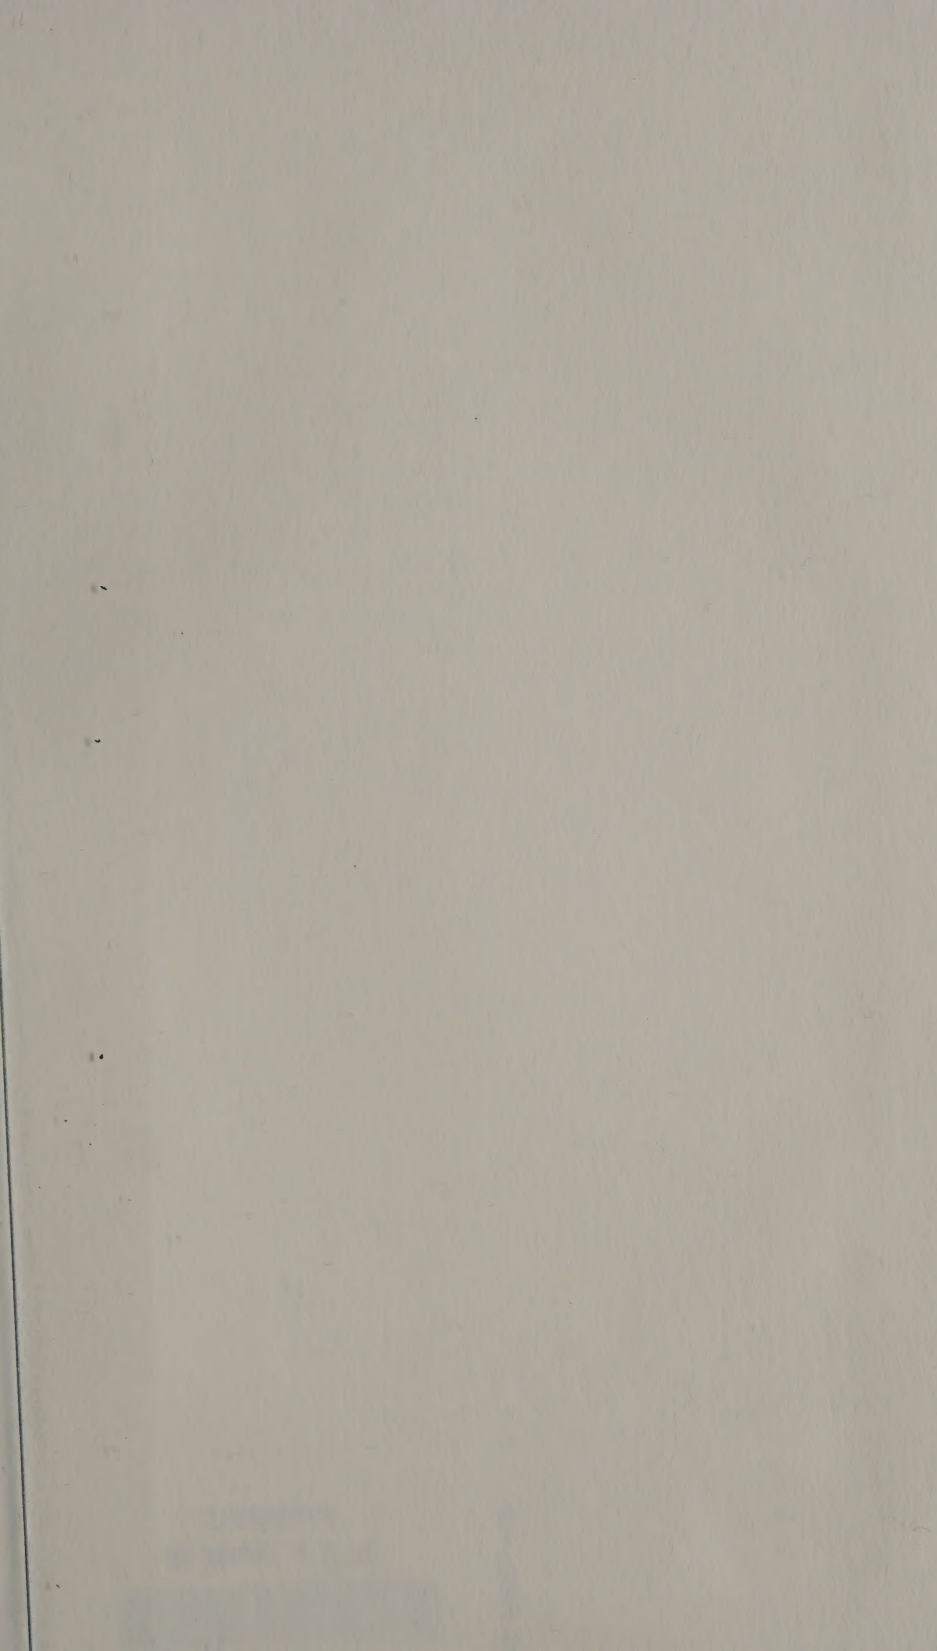

The mansion was modified around the turn of the century in an attempt to give it the Colonial Revival architectural style popular at that time. Even though modifications were made to the structure, it is still essentially an excellent example of the French Second Empire style.

The imposing mansion was equipped with several ingenious items at the time it was build. A full indoor croquet court was constructed in the basement of the house. Even more interesting, the house was illuminated by gas lights and the gas burned in them was manufactured at a small plant located on the premises. The arrangement was most unusual in that most homes which utilized the innovative gas lighting depended on some municipal source of supply.

With the house's entry in the National Register of Historic Places, the property will be recognized as an important part of the cultural heritage of the nation.
